

THE COMPOSITE BUDGET Of the ASIKUMA-ODOBEN-BRAKWA DISTRICT ASSEMBLY

For the

2015 FISCAL YEAR

1.0 INTRODUCTION

A. BACKGROUND OF ASIKUMA-ODOBEN-BRAKWA DISTRICT ASSEMBLY

The Asikuma-Odoben-Brakwa District Assembly (A.O.B.D.A.) was carved out of the Ajumako-Enyan-Essiam District as a District Council in 1978. It was established as a District Assembly to be known as Asikuma-Odoben-Brakwa District Assembly (A.O.B.D.A.) on 22nd November, 1988 by Legislative Instrument (LI) 1378. The District is located in the North-Central portion of the Central Region of Ghana. It covers an area of 884.84 square kilometres.

B. DEMOGRAPHIC CHARACTERISTICS

Asikuma-Odoben-Brakwa District has a population of 112,706 representing, 5.1 percent of the total population of the Central Region (GSS, 2013). This is also 23, 311 above the 2000 Population and Housing Census Figure of 89,395 representing, 1.8% increment. The Population density of the District is 127 persons per square km. This figure seems to paint a picture of a highly densely-populated area. However, apart from the three (3) major commercial and traditional towns, namely, Breman Asikuma, Agona Odoben and Breman Brakwa, there is no Community where the population exceeds 5,000. The Settlement Patterns of the District are more concentrated along the major trunk roads. Besides this pattern, most of the Smaller Settlements are scattered all over the District.

C. DISTRICT ECONOMY

The District is richly endowed with Human and Natural Resources, particularly, mineral deposits, forests and timber species, rich soil and good climatic conditions. The District produces large quantities of cassava, maize, rice, plantain, cocoyam and vegetables. Cocoa and Oil Palm are the major cash crops. The District has a diverse Occupational Structure. However, the informal sector takes the majority of the employed population with the Formal Sector absorbing the rest. The major Occupation in the District is Agriculture, which employs 65 percent (65%) of the Labour Force. Approximately, 52 percent (52%) of those engaged in other Occupations still take up agriculture as a secondary occupation. This is primarily due to the favourable climatic conditions prevailing in the District. Crop Farming is the major Agricultural Activity practiced in the District.

Although, Asikuma-Odoben-Brakwa District seems to be rapidly urbanizing, the characteristics and features of Urbanization are not manifested in the provision of Social, Economic, and, Technical Infrastructure, and the type of Employment Avenues.

The Asikuma-Odoben-Brakwa District has about 435.6km extensive road network. The roads facilitate the movement of Goods, and, Services. They link Farmlands, thereby, assisting Farmers to transport their Farm Products to the nearest Market Centres. The roads, also, link Health and Educational Service Centres, thereby, promoting Health and Educational Delivery Systems.

A total of 45,131 are currently enrolled in basic and second cycle institutions in the district. Out of a total enrolment of 45,131, (comprising of those who are three (3) years old, and, above) currently in schools in the District, 51.9 percent (51.9%) are at the Primary Level, 18.3 percent (18.3%) at the Kindergarten Level, 18.2 percent (18.2%) at the Junior High School (JHS) Level, and, 5.1 percent (5.1%) at the Senior High School (SHS) Level. Apart from the Primary and Kindergarten Levels where the female proportion is higher, the proportion of male students at each of the subsequent levels is only slightly higher than that of females.

The Settlements along the major roads have access to pipe-borne water, namely, Breman Asikuma, Breman Kuntenase, and, Agona Odoben. Settlements with population over 500 have access to Small Town Pipe Schemes, and, those with population under 500 have access to Borehole Facilities. According to the Community Water and Sanitation Agency (CWSA), all Settlements that qualify for Water have been catered for, by National Standard. However, about 25% of the District Population do not have access to potable water. In respect to Health Services, almost all the major towns in the District have one form of Health Facility and they cater for the surrounding Settlements. All the Health Centres / Posts, refer Cases to Our Lady of Grace Hospital at Breman Asikuma, the District Capital.

D. KEY ISSUES

The Key Development Issues / Problems identified in the District are as follows: Poor educational infrastructure, Poor road network in the rural areas, Poor sanitation, Illegal felling of trees, Low electricity coverage, Poor drainage systems, Inadequate credit facilities to support businesses, Inadequate market infrastructure, Poor physical planning, Limited access to health facilities, Poor housing structures, Lack of accommodation for public officers, Increase in school drop-outs, High rate of unemployment and Child labour.

E. VISION AND MISSION STATEMENTS

I. VISION STATEMENT

The Vision of the Asikuma-Odoben-Brakwa District Assembly is to be a Leading District in the improvement of the Quality of Life of all the people in the District.

II. MISSION STATEMENT

Fines

The good performance is as a result of the fact that the Environmental Unit is now efficient and there was also an upward adjustment of tolls at the lorry park by fifty percent.

Rent

With the introduction of the Composite Budget, Rent and Investment were merged as one revenue component and that explains why the budgeted figure for 2013 went up. For the 2013 and 2014 actuals, the figures were low because of faulty heavy equipment and the fact that a directive came from National Security that the District Assembly should share the use of the equipment with neighbouring districts.

Land

Poor performance is as a result of the absence of Town and Country Planning Department.

Miscellaneous

Revenue was generated from sources which were not in any of the budget lines and were, therefore classified as miscellaneous.

2.4: CHALLENGES AND CONSTRAINTS

- Funding from the central government and other donor sources have not been forthcoming and timely. This negatively affects the implementation of the proposed projects and programmes.
- Lack of both Accommodation and office space for some Heads of Department make it difficult for Management to request for additional staff for the affected departments.
- Low IGF Generation. The district's economy is largely agrarian and mostly done at the subsistence level and hence, results in low incomes. This subsequently has adverse effect on internally generated revenue.

Compensation includes

education and health.

NB: The huge variance between the 2014 and 2015 Budgets is as a result of the addition of the compensation component of schedule two (2) departments to the revenue sources for decentralised departments.
