PART A: INTRODUCTION

1.0 ESTABLISHMENT OF THE DISTRICT

The Akyemansa District is one of the thirty-two administrative districts of the Eastern Region of Ghana with its capital at Akyem Ofoase. It was originally part of the Birim District and later the Birim North District. In 2008, Akyemansa District was created out of the Birim North District under Legislative Executive Instrument 1919 as part of the Government of Ghana's decentralization programme to promote effective decentralized governance and speed up the development of the area.

The district has a land size of 667.17km² constituting 3.4 percent of the land size and a population of 118,956 as at 2016 constituting (3.7%) percent share of the population of the Eastern Region of Ghana. The district is predominantly rural with few urban settlements which include Ofoase, Ayerebi, Abenase, Bontodiase and Adjobue.

2.0 POPULATION STRUCTURE

The district has a land size of 667.17km² constituting 3.4 percent of the land size of Eastern Region. With an annual growth of 2.52% during the 2010 PHC, Akyemansa's projected population for 2019 is 121,991. The district is predominantly rural with few urban settlements which include Ofoase, Ayerebi, Abenase, Bontodiase and Adjobue.

3.0 DISTRICT ECONOMY

3.1 AGRICULTURE

The economy of Akyemansa district is dominated by the agricultural sector which employs over 80 percent of the working population of the district. The district is predominantly rural. It is wellendowed with rivers, streams, fertile lands and forest which support the cultivation of different types of crops, both cash and food crop. The cash crops include oil palm and cocoa, while the wide variety of food crops include sugar cane, watermelon, coffee, yam, cocoyam, cassava, sweet potatoes, tomatoes, pepper, okro, eggplant, and rice.

3.2 INFRASTRUCTURE

The district requires substantial infrastructural expansion to support the development of the area. There is very limited infrastructure in all sectors including health, education, roads and transport, agriculture, ICT, financial institutions, water and sanitation as such the people have to travel to nearby districts to access services such as secondary health care. Most of the trunk roads are not tarred and without regular maintenance. In addition only 40.6 km. of feeder roads in the district are of fairly good condition. Hence, the need for massive road improvement and reshaping to increase accessibility.

3.3 TOURISM

The Akyemansa District has tourist attractions such as forest reserves, wildlife sanctuary, picturesque water bodies' historic sites and antiquities but these are largely undeveloped.

3.4 EDUCATIONAL INSTITUTIONS

The Akyemansa educational institutions can be categorized into public and private. The institutions range from Kindergarten, Primary, JHS and SHS. The total educational institutions number 229, with public covering 185 and private making up 44. It is the responsibility of the District Assembly to ensure that each child of school going age has access to free quality education. The effort of the private sector is also welcomed.

3.5 HEALTH

Akyemansa has a District Health Council as its advisory board and the District Health Management Team (DHMT) as the technical planning body of health activities in the district. The DHMT is headed by the District Director of Health Services (DDHS) with five health administration sub-districts namely; Brenase, Ofoase, Ayirebi, Abenase and Anyinase subdistricts.

The Akyemansa district has a total of 28 health facilities catering for the over 118,956 people.

There are twenty-five (25) electoral areas which are supposed to be covered by 25 functional CHPS zones as per the national CHPS implementation guidelines. However, 20 out of this are functional for now.
