### **PART A: INTRODUCTION**

### 1. ESTABLISHMENT OF THE DISTRICT

The Legislative Instrument (L.I 1839) established the Kwahu East District Assembly on the 29<sup>th</sup> of February, 2008, with Abetifi as the District Capital.

### 2. POPULATION STRUCTURE

The projected population of the District for 2019 is 92,377 as against a population of 77,125 according to the 2010 population and housing census data. 45,080 (48.8%) are males and 47,297(51.2%) are females.

### 3. DISTRICT ECONOMY

### a. AGRICULTURE

Agriculture is the major economic activity in terms of employment and rural income generation in the District. Over 55 per cent of the working population is engaged in this sector which constitutes the main source of household income in the district. (GSS, 2010).

Agriculture mechanization is very low in the District. Farming is generally done on subsistence level as majority of the farmers do not have access to machinery for farming. Available mechanization equipment are few, water pumps are used to irrigate vegetable farms at Abetifi and Pepease, also Water Melon farmers at Kotoso use irrigation pumps extensively.

### b. MARKET CENTRE

Commerce in the District is centered mainly on trading. The commercial activities are undertaken at the markets and serve as income generating avenues of the District Assembly. The district has 8 periodic markets that are evenly distributed in the district. Greater volumes of trade takes place at Kotoso, Miaso, Hweehwee, Sempoa, Onyemso, Suminakese, Oframase and Ankoma markets. However, Abetifi, Nkwatia and Kwahu Tafo are daily markets.

In order to take full advantage of the ever increasing population of Abetifi, the District Capital, the Assembly has collaborated with the private sector to develop the existing market infrastructure to

a modern standards to make Abetifi the commercial hub of the district. The Abetifi Market complex is at the Finishing stage.

### c. ROAD NETWORK

Transport facilities in the District include road, footpaths and water transport facilities. Road transport is by far the most important mode of transport in the district. This is as a result of a network of highways and feeder roads of the District. Roads linking the urban areas which constitute about 20% of the road network are bituminous surfaced while the rest (80%) of the road network in the District is basically feeder roads.

The conditions of roads in the district are generally poor. Most of the feeder roads have deteriorated, with some even unmotorable. Surface accessibility is therefore poor especially in the rainy season. However, some of the feeder roads have been re-surfaced in recent times.

### d. EDUCATION

The educational institutions are concentrated in the urban areas with Abetifi in particular having all the levels of education. Other urban communities such as Nkwatia, Pepease and Tafo also have all the educational facilities up to the secondary level. In contrast, the rural areas have up to a maximum level of Junior High Schools while most communities have no schools at all. There are a number of private basic schools in the District which have contributed to increasing access to education with high academic standards even though these are located mainly in the urban communities such as Abetifi, Nkwatia and Tafo.

### e. HEALTH

Health care delivery in the district is basically by the public sector with little private participation. The construction of a district hospital in Abetifi, the district capital which is in advanced stage of completion has been abandoned for some time now. In all, the District has 24 health facilities including private maternity home and clinic. There are 5 health centres, 16 CHPS compounds, 1 private clinic and 3 private maternity homes.

### f. WATER AND SANITATION

### WATER

The source of water for drinking has implication for the health status of a population. According to Ghana Statistical Service, 2010 Population and Housing Census, 32.3 per cent of households in the district use water from river/stream while 20.9 per cent depend on borehole/pump/tube wells. The use of protected wells for drinking is also relatively high accounting for 15.2 percent of the households in the district. Even though households that have access to pipe-borne water are 16 percent, the proportion of households with improved source of drinking water is 57.8%.

In terms of sources of water for other domestic purposes, rivers and streams dominate in the district accounting for 35.6 percent followed by borehole, pump or tube well (21.4%) and protected well (17.7%). Protected well dominates the sources of water for other domestic purposes in the urban areas (38.4%) while the rural areas depend mainly on water from river and stream (47.0%). Similarly, while 10.9 percent of the households in urban areas use borehole, pump or tube well for domestic purposes, 26.8 percent of rural household depend on a similar source for their domestic use. This may be due to the high number of boreholes in rural areas as against the urban localities.

### SANITATION

### Toilet facility

The use of public toilet (W.C/KVIP/Pit/Pan etc) dominates all other types of toilet facilities in the district. Ghana Statistical Service, 2010 Population and Housing Census, shows that a third (31.1%) of households use public toilet while 21.6 percent resort to open defecation with 21.0 percent using pit latrines. The use of public toilet dominates in both the urban (33.5%) and rural (29.8%) areas whereas a greater proportion of rural households (29.3%) resort to open defecation as against almost seven percent of urban households.

Generally, the absence of W.Cs could have been made up for by the construction of KVIPs. These two facilities are, however, not common to most households in the district, most probably because of the cost of construction and the need for piped water into the household to enhance the use of a water closet. The fact that most of the households use public toilets, pit latrines or go to toilet in the bush is indeed an invitation to public health hazards which requires intensified hygiene

education and prosecution. The Assembly must develop a targeted policy of subsidizing the construction of household latrines as part of the efforts of reducing the practice of open defecation.

Solid waste disposal

The method of solid waste disposal has implication on environmental sanitation and the health status of the people. The most common method of solid waste disposal is by dumping in a publicly designated facility. However, some individuals dump indiscriminately in drains, rivers and public dump (container). Collection from the dwelling place of households by specialized refuse collection companies is minimal (Zoomlion).

Liquid waste disposal

According to Ghana Statistical Service, 2010 Population and Housing Census, almost half (48.4%) of households in the district dispose of liquid waste onto the compound, 32.3 percent onto the street or outside the dwelling while 12.6 percent throw their liquid waste into gutters. Generally, less than one percent (0.6%) of liquid waste disposal is through the sewerage system. In terms of locality, the most common means of liquid waste disposal in the rural areas is by throwing onto the compound (58.2%) while the use of gutters dominates in the urban areas (38.6%). A situation where less than one percent of liquid go through the sewage system is a recipe for the breeding of malaria parasites with it attendant increase in malaria-related OPDs coupled with other sanitation related diseases as cholera, dysentery among others.

g. ENERGY

Electricity, LPG, charcoal and fuel wood are the main sources of energy in the District. LPG, charcoal and fuel wood are used for cooking and small scale industrial and commercial activities while electricity is used for lightning. There is no LPG supply point so users travel to Atibie in the Kwahu South District to fill their gas cylinders. There is therefore the need to encourage the private investors to invest in the sector.

Electricity supply in the district is inadequate as only about 45% of the communities are served. Most of the rural communities are without electricity

The use of charcoal and fuel wood as the main source of household energy has enormous implications for the environment. Most of the hard woods located in the savannah areas of the

district have been exploited for charcoal burning resulting in high rate of soil erosion and destruction of the fertility of the soil. This also affected the yield of food and cash crops in the District. It is therefore important that more and more people are encouraged to use LPG through the provision of subsidies to make it affordable. Establishing an LPG service station in the district must also be given priority attention. The use of the Fields Charcoal shall also be pursued as indicated above.

### h. TOURISM DEVELOPMENT

Tourism is least developed in the district even though the potential exists. Notwithstanding the fact that tourism has become one of the main sources of income and employment generation in the country, the Kwahu East District is yet to reap its full benefits. The Assembly intends to Collaborate with the private sector to develop at least one Tourist site annually.

### KEY DEVELOPMENT ISSUES/PROBLEMS

- Lack of permanent Office and inadequate Residential Accommodation for Assembly staff including decentralized Departments
- ➤ Inadequate and poor educational infrastructure
- ➤ Inadequate and Poor health infrastructure
- > Low agricultural productivity due to annual destruction of farms by cattle and bush fires
- ➤ Poor road network, especially rural areas
- ➤ Poor market infrastructure

6.3 Revenue analysis

The total revenue budget for 2018 was 6,061,720.00 and later reviewed to 6,069,114.85 as from

July 2018. The revenue budget of the Assembly were made of Internally Generated Fund (IGF),

District Assemblies Common Fund (DACF), District Development Facility (DDF), Government

of Ghana Transfers (GoG) and Donor Support.

Out of the total revenue budget of 6,069,114.85, IGF was 460,350.00 representing 7% of the total

revenue budget. Compensation, Goods and Services transfers was 1,730,035.31 representing 29%

of the revenue budget. The remaining 3,878,729.54 (DACF – 53%, DDF – 10% and Donor fund

1%) representing 64% of the revenue budget.

The total IGF budgeted for 2018 was 494,750.00 which was revised to 460,350.00 during the mid-

year review.

Out of a total IGF budget of 460,350.00, 196,177.48 was collected as at July ending representing

42.61%.

Comparatively, the actual revenue collected in 2017 was 14.97% more than what was collected in

2016 December ending.

Meanwhile, the actual revenue collected as at July 2018 was 13.03% less than what was collected

in 2017 of same period. This indicates a decline in revenue collection.

**Reasons for under Performance** 

The underperformance of IGF could be attributed to inadequate logistics such as vehicle to help

revenue collectors in the discharge of their duties.

Again, leakages also accounted for the low performance and this was as a result irregular

monitoring due to nonfunctioning of the revenue vehicle.

The way forward

This situation could be greatly improved by training revenue collectors, properly motivating them

as well as strengthening of internal monitoring controls to prevent leakage, update of revenue data

Kwahu East District Assembly (PBB 2019)

on time, continues revaluation of commercial and residential properties, educating the populace

on the need to pay property rate, fees and business operating licenses, formation of revenue task

force to assist the revenue collectors in revenue collection. Lastly, buy a new vehicle to aid revenue

mobilization.

**PROGRAMME1:** Management and Administration

**SUB-PROGRAMME 1.4 Legislative Oversights** 

1. Budget Sub-Programme Objective

To perform deliberative and legislative functions in the district

2. Budget Sub-Programme Description

The sub-programme legislative oversight means a duty of a representative body to look diligently into very affair of the District Assembly and to talk much about what it sees. It is meant to be the eyes and the voice and to embody the will and wisdom of its electoral areas. The sub-programme seeks to review, monitor and supervise departments and agencies, including the making and implementation of policy and bylaws.

The sub-programme also approves the plans and budgets in every fiscal year and review the plans and budgets during mid-year review.

Legislative oversight involves keeping an eye on the activities of departments and agencies especially the executive branch on behalf of the people of the district. This process brings to the knowledge of the public what the executive branch is doing, and affords the people the opportunity to determine whether public servants are really serving their collective interest or not.

The sub-programme has 34 members, comprising 22 elected Assembly Members, 10 Government Appointees, 1 Member of parliament and 1 District Chief Executive. The source of funds for the sub-programme are IGF and DACF. The entire people of Kwahu East are the beneficiaries of the sub-programme.

### **SUB-PROGRAMME 1.5 Human Resource Management**

### 1. Budget Sub-Programme Objective

The objective of the sub-programme is

• Coordinate overall human resources programmes of the district.

### 2. Budget Sub-Programme Description

The Human resource management sub-programme seeks to manage, develop capabilities and competences of staff and coordinate human resource programmes for efficient delivery of public service. The sub-programme would be carried out through ensuring regular updates of staff records, staff needs assessment, ensuring general welfare of staff, ensuring inter and intra departmental collaboration to facilitate staff performance and development, organizing staff trainings to build their capabilities, skills and knowledge.

The human resource unit is manned by the Human Resource Manager. Funds to deliver the Human Resource sub-programme include IGF, DACF and DDF capacity building. The main challenge faced in the delivery of this sub-programme is the weak collaboration in human resource planning and management with key stakeholders.

There are in all 8 staff to carry out the infrastructure delivery and management programme. The programme will be funded with IGF, DACF and DDF.

### BUDGET SUB-PROGRAMME SUMMARY

PROGRAMME2: Infrastructure Delivery and Management

**SUB-PROGRAMME 2.1 Physical and Spatial Planning** 

### 1. Budget Sub-Programme Objective

To facilitate the implementation of such polices in relation to physical planning, land use and development within the framework of national polices.

### 2. Budget Sub-Programme Description

This sub-programme seeks to ensure planning, management and promotion of harmonious, sustainable and cost effective development of human settlements in accordance with sound environmental and planning principles. Specific functions of the sub-programme include:

- Preparation of physical plans as a guide for the formulation of development policies and decisions and to design projects in the district.
- Identify problems concerning the development of land and its social, environmental and economic implications;
- Advise on setting out approved plans for future development of land at the district level;
- Advise on preparation of structures for towns and villages within the district;
- Assist to offer professional advice to aggrieved persons on appeals and petitions on decisions made on their building;
- Facilitate consultation, co-ordination and harmonization of developmental decisions into a physical development plan;
- Assist to provide the layout for buildings for improved housing layout and settlement;
- Ensure the prohibition of the construction of new buildings unless building plans submitted have been approved by the Assembly;
- Advise the Assembly on the siting of bill boards, masts and ensure compliance with the decisions of the Assembly;
- Advise on the acquisition of landed property in the public interest; and
- Undertake street naming, numbering of house and related issues.

The organizational unit that will be involved is the Town and Country Planning unit and the Parks and Garden unit. Currently, Kwahu East District has no staff in Parks and Garden units. The officer in Kwahu South District Assembly oversees the implementation of parks and gardens in the District.

The sub-programme is funded through the DACF and the Internally Generated Revenue. The larger community and other departments of the Assembly stand to benefit greatly from the sub-programme. The main challenge confronting the sub-programme is inadequate financial resource to prepare base maps. The sub-programme has a staff strength of 4 comprising 1 Town and Country officer, 2 Technical Officers and 1 Town and Country Assistant.

### **BUDGET PROGRAMME SUMMARY**

### PROGRAMME 3: SOCIAL SERVICES DELIVERY

### 1. Budget Programme Objectives

- To provide equal access to quality basic education to all children of school going age at all levels
- To improve access to health service delivery.
- Facilitate in the integrating the disadvantaged, vulnerable and excluded in mainstream of development.
- Work in partnership with communities to improve their well-being through promoting social development with equity for the disadvantaged, the vulnerable, persons with disabilities and excluded.

### 2. Budget Programme Description

Social Service Delivery is one of the key Programmes of the Assembly. This programme seeks to take an integrated and holistic approach to development of the District and the Nation as a whole. There are three sub-Programmes under this Programme namely; Education and Youth Development, Health delivery and Social Welfare and Community Development.

The education, Youth and Sport Department of the Assembly is responsible for pre-school, special school, basic education, youth and sports, development or organization and library services in the district. The department therefore assists the Assembly in the formulation and implementation of programmes in such areas of education and youth development.

The Department of Health in collaboration with other departments assist the Assembly to deliver context specific health care interventions by providing accessible, cost effective and efficient health service at the primary and secondary care levels in accordance with approved national policies by ensuring prudent management of resources.

The Social Welfare and Community Development Department assist the Assembly to formulate and implement social welfare and community development policies within the framework of national policy.

Extreme poverty continues to work against the economic gains that Ghana has chalked over the past two decades. It is estimated that about 18% of Ghanaians live under extreme poverty conditions. This means that they are neither able to afford daily subsistence requirement nor afford education and basic health for themselves and their children.

This phenomenon perpetuates generational poverty. In order to ensure equitable distribution of national resources and mainstreaming of the extremely poor, Government developed and started implementing the National Social Protection Strategy (NSPS) in 2007. In Kwahu East District, 25 households are benefitting from conditional and unconditional cash transfer under the Livelihood Empowerment against Poverty (LEAP) Programme; a component of the NSPS. Extremely poor Older Persons above 65 years have been enrolled onto the LEAP and are entitled to unconditional cash transfer.
