# PART A: INTRODUCTION DISTRICT PROFILE

### **1.0 Introduction**

To facilitate the process of preparing such a framework to provide the basis for development, there is the need to capture, document and understand the existing District structures as well as its associated problems, opportunities and constraints. This part of the report therefore facilitates an understanding of the features within the Chereponi District.

The issues examined include physical and natural environment, demographic characteristics, culture, spatial analysis, economy of the district, food security, governance, social services, vulnerability analysis, information and communication technology, HIV/AIDS, gender, and indicators of development of the district. On-going projects and development problems, potentials and preferences are also outlined including existing structures and figures to provide a baseline for development plans and monitoring and evaluation.

#### 1.1 Physical and natural environment

#### 1.2 Location and size

Chereponi District is one of the twenty-six administrative districts in the Northern region of Ghana which was created from the then Saboba/Chereponi District in October 2007 under Executive Instrument Eleven (E.I 11) and inaugurated on Friday 29 February, 2008.

The district is located between latitudes  $10^0 10^{\circ}$  and  $10^0 20^{\circ}$  N eastwards and longitude  $10^0 10^{\circ}$  N and  $10^0 20^1$  northwards. It shares boundaries withfour Districts; Gushegu District to the West; Bunkpurugu-Yunyoo District to the North; Saboba and Yendi Districts to the South and South-West and The Republic of Togo to the East bordered by the River Oti.The District has a total land area of approximately 1,374.7 Sq. km.

The District has a total land area of approximately 1,080 sq. km. The distance from regional capital is about 150km (thus Tamale to Yendi 60km and Yendi to Chereponi is about 90km). This is merely an estimate because no geographic information system has captured accurate information for the district since its inception. Politically, Chereponi District is made up of one (1) Town and

five (5) Area Councils. The Town Council is Chereponi while the Area Councils are Wenchiki, Tombo, Tambong, Nansoni and Wonjuga. The Chereponi District in total has 196 settlements, 20 Unit Committees, 20 Electoral Areas, 33 Assembly members (20 elected and 11 Government appointees), Member of Parliament and District Chief Executive. The District has one (1) Constituency.

#### 1.2.1 Geology and soils

The Voltain shale underlies the whole District. From literature, most of the soils in the interior savannah and the transitional zones developed over shale, which contains abundant iron concretions and iron pan in their sub-soils. These soils constitute the groundwater laterite and occupy about 50% of the interior savannah (Adu, 1969). The groundwater laterite, due to impervious iron pan or clay pan in the sub-soil is characterized by water logging at the peak of the rains.

The soils are quite good along the valleys. Alluvial valleys suitable for rice production exist in some areas of the District. There is considerable soil erosion in the District. This is due to bad farming practices and rampant bush burning.

# 1.2.2 Topography and drainage

The topography of the District is undulating with few hills, which provide a good flow for run-off water. The District is underlain by Voltain rocks normally suitable for rural water supply – boreholes. The soils are quite good along valleys.

During the raining season, water normally drains to the Oti River, as well as dams and streams present in the district. There are although many incidences of large quantities of water that collects on roadsides, washing roads out or pooling to prevent proper transportation.

# 1.2.2 Climate and vegetation

The District is located in the savannah ecological zone. The climate is characterized by alternative wet and dry seasons of equal lengths of six months. Annual rainfall is about 1000mm or less, falling between May and October. A long dry period follows the end of the rains from November to April. Temperature, which is generally high throughout the year, ranges between  $21^{\circ}$  C and  $41^{\circ}$  C.

The Guinea Savannah vegetation is degraded in several locations. These areas include areas where agricultural activity is currently high and severely degraded lands that have been become uncultivable because of iron pan or where the soils are shallow due to rockiness. Trees sparsely populate such areas. Vegetation is grass interspersed with drought resistant trees. The common tree species are the "Dawadawa" and Shea trees. The vegetation is greenish only in rainy season and very dry in the harmatan period.

#### 1.2.3 Dams / Irrigation

The district can boast of eight dams all in different communities. They are basically sources of drinking water and are also used for livestock. The dams are located in the following communities:

- Nansoni
- Chereponi
- Mayamam
- Tombo
- Garinkuka
- Komba
- Naboni
- Nachem
- Tacheku
- Yeteli

The dams present in these communities serve as reservoirs of water to be used during the dry season but are used by multiple communities that are in the nearby vicinity. On occasion though, these reservoirs become tapped, and water levels become alarmingly low.

A few communities use the dams for dry season gardening where water stock lasts into the dry season. Most of the dugouts have been silted and require immediate desilting.

#### 1.2.4 Agricultural land use

Agriculture is the mainstay of the people. About 40% of the land area is used for agricultural purposes. However, a greater portion is left uncultivated. Farming is on subsistence basis. Farm holdings are small i.e. an average of about two hectares.

There are quite a few farmers who cultivate large areas of maize, yam and rice for commercial purposes. Acquisition of land for farming is not a problem in the district. The district is known for its production of soya beans.

#### 1.2.5 Condition of the natural environment

The activities of human beings have often disturbed the natural conditions of the environment. These activities have a direct effect on the soil resulting in low soil fertility and its related problems. Large portion of the land has been degraded, thus exposing the soils, vegetation is cleared and grasses burnt. This is remarkably evident around areas with high population densities.

#### 1.2.6 Demographic characteristics

The District can be described as a typically rural and the major settlements are scattered. Chereponi, Wonjuga and Sangbana have populations above 1,000 people. The settlement pattern of the District is scattered and many settlements have less than 500 people, and most of the villages are located in the interior sector of the District. One reason could be attributed to their farming method, as farms are located much closed to homes. This settlement population distribution pattern does not augur well for development in the case of the distribution of socio-economic and technical infrastructure, which requires certain population threshold to make them viable.

#### 2.0 Population distribution by industry

The main economic activity engaged in Chereponi District is agriculture, hunting and forestry. Table 2.4 and depicts the occupational categories of the district. Agriculture is the main occupation for 81% of the population. About 40% of the land is used for agricultural purposes. The common crops are cereals and yams. All farmers in addition keep livestock. Production of cotton as cash crop is slowly taking over the land used for food crops.

#### 2.1 Population density

The population density of the District is estimated to be 80,500 persons and a land area per square kilometer, which is 1,080 km sq. The population measure in this calculation is from a figure given from Research Triangle International who conducted, as a part of their program preparation for Indoor Residual Spraying, a census for their program. The District is thus sparsely populated. This phenomenon may be attributed to the scattered pattern of settlement of the people in the District.

It is hoped that a successful implementation of the decentralization development policy coupled with sensitization on the need to change settlements will facilitate a balanced spatial distribution of the population. Chereponi Town is the only settlement with a population that exceeds 10,000. While this may include no great pressure of population on land, the same cannot be said of pressure on resources or what the land can generate. The current projection pegs the population to about 80,500(District Water and Sanitation Plan 2010). The female population stands at 38000 and that of male 42,500. In terms of area council, the population is distributed as follows:

Area council	Wonjuga	Wenchiki	Chereponi	Tombu	Tambong	Nansoni	Total
Population	13,500	14,220	24,310	10,750	8,520	9,200	80,500

Major human activities such as bush burning, charcoal making, road construction, winning of sand, gravel and stone, and cutting of the vegetation (savannah) for fuel wood are some of the factors that have led to environmental degradation in the District. The results of these activities are clearly manifested in the Chereponi area, which is fast becoming a desert.

Measures have recently just begun to be taken with the support of Environmental Protection Agency (EPA) and the designation of land for reforestation in five communities. The communities that EPA is working with in collaboration with the district assembly include: Naturi, Wenchiki, Mayamam, Kudani, and Wonjuga. National Youth Employment Program also has an initiative to combat these issues with their Youth in Afforestation program.

#### 3.0 Tourism and Socio-Cultural Services

The culture of a people can influence their behavior, beliefs, dressing and other attributes of life that can have direct influence on their socio-economic development. The district is inhabited by two main tribal groups (Konkomba and Anufor) with different cultural values and practices.

Some cultural beliefs and practices are constraints to development. For instance, that children should not eat eggs because they would grow to become thieves is common among the Anufor and Konkomba tribes.

The Anufor tribe has two major festivals celebrated every year (krubi and fire festivals). Festivals observed by the konkomba are yam festival, pito festival and the fire festival. The fire festival sometimes during the celebrations leads to bush fires.

The dominant religions in the district are Islam, Christianity and African Traditional Religion. Traditional African Religion is still practiced among many people even though they either belong to Islam or Christian religions. Superstition and soothsaying surround all festivals and funeral performance.

The District has several sites of historic, scientific and aesthetic importance, which have the potential for serving as tourist attraction spots. These include:

- The River Oti
- Ruins of German Bridge Linking Ghana and Togo during World War II
- Annual Krubi Festival Celebrated the day after Ramadan
- Mingali Dance
- Fire Festival

As mentioned earlier, a high potential exists in the District in the area of tourism promotion. It is however sad to say that tourism services are not developed at all in the district. The main tourist attraction spot in the District is the River Oti. For tourism services to be fully developed there is the need to improve physical accessibility and the attraction of private investors into the district. The culture of a people can influence their behavior, beliefs, dressing and other attributes of life that can have direct influence on their socio-economic development. As mentioned earlier, the district is inhabited by two main tribal groups (Konkomba and Anufor) with different cultural values and practices among the peoples.

Some cultural beliefs and practices are constraints to development. For instance, that children should not eat eggs because they would grow to become thieves is common among the northern tribes. In addition, some cultural values and practices of the people tend to perpetuate illiteracy, poverty, disease and ignorance, which are all at variance with social, economic and political development. The Anufor have two major festivals celebrated during the year (Krubi and Fire). Festivals observed by the Konkomba are Yam Festival, Pito Festival and the Fire Festival. It is possible to have bushfires during the Fire Festival.

Traditional religion is practiced among many people. Superstition and soothsaying surround all festivals and funeral performance. The waste in the form of foodstuff and animals during these festivals and funeral performance are constraints to development.

### 4.0 Settlement Systems

Most houses (about 80 per cent) are built with either land crate or mud walls and roofed with either aluminum or iron sheets or grass. The housing environment in the District is characterized by poor drains, unkempt surroundings including open cesspools for sewers, exposed foundations, poor ventilation and leaking roofs. Given a household size of 7.9 persons, which is above the national average of 5.0 and a room occupancy of 1.5 persons, which is well below the national norm of 2.5 persons, the housing problem in the District is qualitative rather than quantitative. Facilities in houses such as water, electricity, kitchen, and toilet are virtually non-existent.

The situation with water and sanitation appears more appalling. With the exception of Chereponi that has pipe-borne water, the major sources of water for drinking in the District are boreholes, wells, streams, and dams.

Refuse disposal is largely unorganized, as people tend to dump refuse anywhere in the communities. Currently, there are two public toilets in Chereponi. These toilets are not being used effectively because of their current poor state. Apart from these, there are no toilets anywhere except some individuals who have Ventilated Improved Pit-latrines (VIPs) through the assistance of Community Water and Sanitation Agency (CWSA). There are also no waste disposal points or centers. Therefore, waste is dumped anywhere considered convenient including areas around houses and drinking water sources. Drainage around houses and link roads is very poor.

With such an existing situation, it is quite evident that pollution would be equally great. Most of the drinking water sources are polluted with human waste as people defecate along the catchment areas and with heavy downpour; the waste is carried into these waters. The waste materials deposited around the houses equally pose as sources of polluting the environment and subsequently leading to sickness.

#### 5.0 Economy of the district

#### 5.1 Structure of the local economy

#### 5.1.1 Agriculture

Agriculture plays a very important role in the economic development of the District. The district's economy is purely rural and the dominant economic activity is agriculture. Other economic activities of importance are commerce, agro-based small-scale industries and other income generating activities.

Agriculture is predominantly small-scale and farmers' farm holdings rarely exceed two hectares. These farmers produce primary commodities mainly for home consumption. The main crops produced include millet, sorghum, beans, maize, rice, fonio and groundnuts. Other food crops cultivated in the area include cassava, yam and vegetables (okro, tomatoes and pepper).

#### 5.1.2 Industrial Crops

The cultivation of some industrial crops in the District is entirely a new phenomenon. The principal industrial crop grown extensively in the District currently is cotton. A private company, Nulux Plantations had assisted farmer to cultivate a minimum of two hectares to each farmer. Other industrial crops grown in the area are groundnuts, soya-bean and tomatoes.

#### 5.1.3 Export Crops

The District is noted for the production of tuber crops such as yam and cassava. Yam is grown extensively in the area and greater quantities of the produce are sold to prospective buyers from the neighboring districts or transported to the south in large mummy trucks to be sold. Beans are also widely cultivated in the District and mostly sold to market women from Yendi, Tamale, Gushegu, Bolgatanga and other neighboring Districts. A large quantity of the rice cultivated in the District is normally sold out to outsiders leaving a little for home consumption.

#### 5.1.4 Financial Services

Currently, there is no financial institution in the District to facilitate savings for socio-economic development. However, attempts would be made in the near future to establish a Rural Bank for mobilization of capital for socio-economic development in the District. The GN Bamk and Bonzali Rural Bank are currently operational in the District. The Ghana National is also opening a branch in the District.

#### 5.2 Market and Transportation Infrastructure

Market infrastructure comprising the physical space, stores, stalls and sheds, storage delivery bays and access roads constitute an important component of the development of rural economies. There are two large markets in the district located at Chereponi and Wenchiki. Other markets in the district include Garinkuka market and Wonjuga markets. These are weekly markets.

There is one large ASIP market in the district located at Chereponi with the following facilities: (a) lockable store types 1 and 2, (b) stall types 1 and 2, (c) butchers shop, (d) 10-seater KVIP, (e) urinals and (f) solid waste holding bays. The Wenchiki market has stores and stalls respectively. There are no stalls in other markets apart from grass sheds sometimes erected by the traders themselves. In some cases, markets are sometimes held under trees. The problem of inadequate market structures is further compounded by the inaccessibility to these markets during certain times of the year (i.e. rainy season).

A good transportation network and a reliable communication system are very important ingredient for socio-economic development. This is a serious handicap in the District. There is a very poor network of secondary roads in the District. These include the 48km Chereponi-Saboba road and the 96km Yendi-Chereponi road. The physical conditions of some of the roads are bad and virtually inaccessible during a greater part of the rainy season, especially between July and October.

Transportation within and outside the District has improved with the intervention of the morning and afternoon Metro mass services. People still walk several kilometers to attend markets, health facilities and even to schools. Currently the only direct transport service between the regional capital at Tamale and the District capital Chereponi is being offered by the Metro Mass Transit and GPRTU Bus services.

#### 5.2.1 Livestock and Poultry

It is common feature for every farmer to keep animals and poultry. The District is blessed with a good breed of cows, sheep and goats. Though, only a few of these ruminants mentioned are reared on commercial basis.

The livestock census was conducted in 2009 in all parts of the District. Education on dry season supplementary feeding of livestock (large and small ruminants) was intensified whiles the construction of improved housing structures using local materials was encouraged.

#### 5.2.2 Veterinary Extension

There will be active disease surveillance in the District on African Swine Fever (ASF) for pigs and Avian Flu for poultry. About 80% of communities in the District engage in pig production and mainly free range for most part of the year in small numbers.

Currently, the district is constructing a Veterinary Centre in Chereponi, which will serve as the central location for the district's veterinary care for the future. This building is due for completion in 2010.

### 5.2.3 Agricultural Extension

The current number of agricultural extension staff including veterinary is seven (7) and one (1) nutrition service person. There are also 10 operational areas in the district and the extension officer-farmer ratio is 1:6500. An operational area (O.A.) has about 10 communities or more and each O.A. is manned by an Extension Officer. Veterinary staff runs the whole District.

#### 5.2.4 Fishing

The District is drained by the River Oti and its tributaries. People living around these rivers do some amount fishing, especially the Ewes (The Battors) who are mostly fishermen. Fishing is not done extensively and as such the catch is not substantial. The fish is normally smoked by women and sold to the people of the area or exported to some neighboring districts.

#### 5.2.5 Agro-based Industries

Agriculture is the mainstay of the economy of the people in the District, particularly among men. However, their women counterparts are also involved in some small-scale agro-based industries. Women are engaged in Shea-butter production, cotton ginning and weaving of local cloths, pottery and soap making. These are done on a small-scale but there is a great potential for their development.

#### 5.2.6 Storage

Farmers store their produce in mud silos or some barn structures built with grass. There are no improved storage systems in the District. These silos and barns are never good storage facilities. As a result, farmers prefer selling their produce immediately after harvest. However, the Community-Driven Initiatives for Food Security (CIFS) and the Community-Based Rural

Development Project (CBRDP) have supported some communities in the district to construct a number of grain banks for food storage

There are many grain-banks in the district that can be used towards food storage. The grain banks were built by Action-Aid amongst other NGOs in Tombo, Mayamam, Sangbana, and Garinkuka to name a few. There are, in total, 13 grain-banks in the district currently. These grain-banks however are not always used to the fullest potential. Some rural farmers do not understand the need or uses of a grain-bank and it remains empty once the NGO leaves. More education on this end will ensure that the grain-banks become a strong component of agricultural storage in the future.

#### 5.2.7 Challenges to Agriculture in the District

The following are challenges to agriculture in the district:

- Understaffing in both veterinary and extension sectors
- Difficulties in transportation and handling of veterinary drugs
- Lack of veterinary clinic in central district
- No subsidy on vaccines for livestock
- Inadequate means of transportation for MOFA staff
- Inadequate accommodation for MOFA staff
- Inaccessibility to most communities especially during the rainy season due to bad roads

#### 6.0 GOOD Governance

#### 6.1 District assembly: structure and functions

Chereponi District Assembly (CDA) was established in 2008 Legislative Instructive (LI 2007). It was carved out from then Saboba-Chereponi District. It is highest administration and political authority in the District. Under section 10 of the Local Government Act, 1993 (Act 462) the Assembly exercises deliberative, legislative and executive functions in the District. Politically Chereponi District is made up of one town and five area Councils. The town Council is Chereponi while the area councils are Wenchiki, Tombo, Tambong, Nansoni and Wonjuga. The Chereponi District in total has about 169 settlements, 25 unit committees, 12 electoral areas, 33 Assembly

members, (20 elected, 11 Government appointees, A DCE and an MP) and one Constituency (Chereponi). The political and executive head of the assembly administration is the District Chief Executive.

It is responsible for the overall development of the district by way of the preparation of development plans and the budget related to the approved plans. Its functions include:

- i. Formulating and executing plans, programs and strategies for the effective mobilization of the District's resources;
- ii. Promoting and supporting productive activity and social development in the District;
- iii. Initiating programs for the development of basic infrastructure;
- iv. Developing and managing human settlements and the environment;
- v. Ensuring ready access to courts in the district for the promotion of justice;
- vi. Co-ordinating, integrating and harmonizing the execution of programs and projects under approved development plans for the district and other development programs promoted or carried out by Ministries, Departments, Public Corporations, and other statutory bodies and Non-Governmental Organizations (NGOs) in the district.

The political and executive head of the Assembly administration is the District Chief Executive – under section 20(2) of the Act 462, he is the Chairman of the Executive Committee of the District Assembly and he presides at the meetings of the committee. He is responsible for the day-to-day performance of the executive and administrative functions of the Assembly and the supervision of its various departments.

The executive committee, under section 21 of the Local Government Act 1993 (Act 462), exercises the executive and Co-coordinating functions of the District Assembly. Its functions include:

- i. Co-coordinating plans and programs of the Sub-Committees and submitting these as comprehensive plans of action to the District Assembly;
- ii. Implementing resolutions of the District Assembly;
- iii. Overseeing the administration of the district in collaboration with the office of the District Chief Executive;
- iv. Recommending to the District Assembly, the economic, social, spatial and human settlement policies relating to the development;

- v. Integrating and Co-coordinating the processes of planning, programming, budgeting and implementation;
- vi. Initiating and implementing development programs and projects at the District level; and
- vii. Monitoring and evaluating all policies, programs and projects in the District. In compliance with section 24(1) of the Local Government Act 1993 (Act 462) the Executive

Committee of the Assembly has the following Sub-Committees:

- a. Economic Development Planning Sub-Committee;
- b. Social Services Sub-Committee;
- c. Technical Infrastructure (Works) Sub-Committee;
- d. Justice and Security Sub-Committee; and
- e. Finance and Administration Sub-Committee.

Under section 25 (i & ii) every sub-committee shall be responsible for collating and deliberating on issues relevant to it and it shall submit its recommendations to the Executive Committee of the Assembly. For the purpose of national development planning, the District Assembly is established under section 46 (i) of Act 462 as a Planning Authority for Chereponi District and therefore (under sub-section three of section 46) established a District Planning Coordinating Unit to help the Assembly to perform any planning functions conferred on it. The District Assembly has also established a District Finance Office charged with the financial administration of the Assembly.

#### 6.2 Departments, Agencies, and Organizations

The Assembly has only nine of the 11 decentralized departments and their Heads are co-opted into the District Assembly to offer technical and advisory support although some of these departments are severely understaffed. The following are the departments that are currently operating in the district under the auspices of the District Assembly: Community Development, District Agriculture Development Unit, Environmental Health and Sanitation Unit, Finance Department, Ghana Education Service, Ghana Health Service, Social Welfare Department, Statistical Department, and District Works Department, including the Central Administration.

There are also agencies and organizations operating in the district including: Customs Excise and Preventive Service, National Civic Education, and Commission for Human Rights and Justice. These function independently from the district assembly, but in their own way aide in the development of the District. There are also numerous programs underway in the district. These programs include M-SHAP, School Feeding, NFED, and GYEEDA.

The district is home to numerous NGOs as well. Some NGOs currently are Campaign for Female Education (CAMFED), Evangelical Presbyterian Development and Relief Agency (EPDRA), Research Triangle International (RTI), School for Life, ACTION-Aid, and North Eastern Corridor Integrated Development Authority (NECIDA). These NGOs work alongside the assembly to further development in sectors of health, education, agriculture, and help in the building of infrastructure.

#### 7.0 Social services

# 7.1 Profile of social conditions

The District has inadequate infrastructural facilities in the areas of health, water and sanitation, housing, and education. There is no financial agency (Bank) in the District. There one post office and no telephone line service in the district.

# 7.2 Health

The Chereponi District blessed with a hospital, has two sub-Districts namely; Chereponi and Wenchiki sub-Districts and two major health facilities namely; the Chereponi and Wenchiki Health Centres. There are 5 CHPS (Community-Based Health Planning and Services) compounds at Bunbrunga, Garinkuka, Wonjuga, Nansoni and Tombo. A rural clinic is currently being constructed at Naja by the District Assembly.

Currently there is one medical doctor in the District Hospital with land area of about 100msq by 200msq. The human resources of the District Health Medical Team (DHMT) comprise the District Director of Health Services (DDHS), 1 District Public Health Nurse (DPHN), 2 Medical Assistants, 2 State Registered Nurses (SRNs), 2 Midwives, 16 Community Health Nurses (CHNs), 2 Field Technicians, 3 Ward Aids, 1 Clinic Attendant, 33 Health Extension Workers, 1 Laboratory Assistant, 1 Driver and 4 labourers The nurses: patient ratio is 14: 4149. The main reported cases in the district are malaria, diarrhoea, pneumonia, typhoid fever, guinea worm, anemia, intestinal worms, eye infection, snake bites and to mention just a few.

#### 7.3 Major Health Sector Problems

- Inadequate staff (skilled and unskilled), inadequate and poor health infrastructure, old/weak motor bikes and vehicles with associated high maintenance cost.
- Seasonal flooding which renders some communities inaccessible to health service delivery, encroachment of health facilities premises, most deliveries are conducted at homes by both trained and untrained Traditional Birth Attendants (TBAs) resulting in high maternal and infant mortality rates, poor road network especially during the rainy season with some communities cut off, lack of hospital as a referral point for other health facilities in the district.
- Common Diseases include Malaria, diarrheal diseases, Upper respiratory Tract Infection (URTI), Snakebites, Pregnancy with its related complications.

#### 8.0 Education

The district currently has a total enrolment of 11,596 and staff at post (both train and untrained teachers) of 241 and requires 167 numbers of teachers to make up the number of staff lost. This data is applicable to the four (4) circuit in the District thus Chereponi, Nansoni, Wenchiki and Wonjuga circuits. It also depicts School infrastructure capacity of 19 kindergartens 43 Primary, 9 JHS and 1 SHS in the District. Enrolment is generally very high within the District capital thus Chereponi with the highest Primary and JHS.

It can be inferred from the above that literacy rate among male segment of the population is greater than the female group. This situation could be attributed to certain cultural practices, which do not allow some people to send their children to school, especially the girl-child. The teacher-pupil ratios of nursery, primary, junior secondary, senior secondary and technical /vocational school for the district were found to be 1:60; 1:49; 1:26; 1:19 and 1:27 respectively.

These figures point to the fact that quite a number of children in the school-going age are not attending school. Out of the 355 teachers in the District, nearly 57.18 per cent are untrained. The situation even looks more alarming at the pre-school level where as large as 84.61 percent of the teachers are untrained. The current teacher/pupil ratio in the district is 1:220 as compared to the required 1:35 Major reasons cited for this state of affairs are lack of accommodation for the

teachers and the absence of electricity in certain parts of the District that could serve as pull factors. The literacy rate, defined as the ability to read and write, was estimated at 16% (Source: 2000 PHC, Ghana Statistical Service). This figure is comparatively low as against 45 percent acceptable rate for the country. To reverse the trend, the District Assembly has stated quite clearly that education is one of its major priorities.

#### 8.1 Information and communication technology (ict)

There is currently an ICT structure being constructed in the district as a UNDP project. Currently, a few of the schools in the district have computer labs, sponsored by NGOs operating in the district. The District Assembly as well as some decentralized departments have computers to use for administrative and operational purposed, however many of those computers are in poor condition and maintenance culture is limited or non-existent.

Capacity with respect to use of computers for effective data management and analysis of large quantities of information is on the rise. An NGO, Engineers without Borders, has invested in the district to build human capacity in the district with respect to this issue, and has been working towards implementing data systems for development planning in the district assembly and departments. There is mobile reception in the district through MTN Mobile, Zain, Vodafone and Tigo Mobile networks. Few people in the district have internet modems; however, with more companies operating in the area, prices for internet modems may become more competitive and affordable for many.

There are still many advances that need to be made on this front. Because very few communities in the district have access to electricity, the use of computers and mobile phones is limited.

#### 9.0 High Immune Virus and Acquire Immune Deficiency Syndrome

The district in 2008, according to Action Aid Ghana an NGO working in the district has seventeen reported cases (Male 11 and Female 7). The prevalence rate is 2.0% for the district and 2.4% for Northern region and 1.9% for the National average.

There is the potential for the spread of HIV/Aids in the district due to inadequate and accessible SHR services, low self-perception of risk and lack of in depth understanding of diseases.

#### 10.0 Vulnerability, Gender AND HIV and AIDS

The district is bestowed with a number of issues on malnutrition. orphans, and the aged who find it difficult to acquire three square Poverty is an issue tearing apart inhabitants in the district, and most of communities depend largely on rudimentary farming systems, which can barely feed on due to farming at

the

the

subsistence level. Most of the communities in the 6 town/area councils lack social amenities on health, education and water (Harmonized Community Action Plan) exposing them to a lot of diseases that are harmful to their health. A coping mechanism in the district has to do with collaboration with the Ministry of Local Government and the Department of Social Welfare/ Community Development on the livelihood empowerment against poverty project (LEAP) to assist the aged, children, orphans, disabled and the excluded/vulnerable group in the district to rise from their slumber. The LEAP program, sponsored by UNICEF, DFID, and GoG, is designed to aid the vulnerable persons in the district, supporting them through social welfare checks.

There are limited employment opportunities in the district for both men and women. The majority of the people are engaged in subsistent farming. In the rainy season, most farmers are engaged on their farms and are free during the dry season. Employment is therefore seasonal.

Apart from workers in the public and civil service, there are other employment avenues. Occasionally, some contracting firms engage laborers for short periods. This is mostly the preserve of men. Women are the also engaged. Apart from household chores, women sometimes engage in Pito brewing, Charcoal burning, farming, trading etc. It is very disheartening to note that some cultural practices and beliefs abhor the engagement of women jobs. These barriers to women advancement do not augur well for a society or a district that aims at a sustainable development of its entire people.

The District is poised to see to social inclusion and the involvement of women in the management and running of the District Assembly programs. Women empowerment is also of concern to the Chereponi District Assembly. The District has a disability centre for the capacity o the vulnerable and people with disability to visit to enhance their capacity on tailoring soap making and other trade.

The district in 2008, according to Action Aid Ghana an NGO working in the district has seventeen reported cases (Male 11 and Female 7). The prevalence rate is 2.0% for the district and 2.4% for Northern region and 1.9% for the National average. There is the potential for the spread of HIV/Aids in the district due to inadequate and accessible SHR services, low self-perception of risk and lack of in depth understanding of diseases.

#### 10.1 Water and sanitation and hygiene situation

There are a number of boreholes that serves as portable water to the people of Chereponi. A small town water system in the District capital. This small town water system serves only the District capital.

The number of boreholes in the District is 250 by the DESSAP 2009 data we have in the District. About half of these boreholes are broken down and some close due to high fluoride content in the water table. High fluoride is a serious issue in the District, denying the District to be able to mechanise a number of boreholes to increase the capacity of water to meet the growing population. We have five number public toilets in the District. Only three of this toilet is functional and management of the facility is at a high cost since most of the returns do not meet what is invested in its management. The District Assembly deem it necessary to privatise the management to interested persons in the District. Data on WASH from the District Water and Sanitation Team is as below:

**Chereponi District Assembly** 

NAMES OF AREA COUNCIL	NO. COMMUNITIES	TOTAL NO.BH	TOTAL NO. HDW	TATAL NO.STPS
CHEREPONI	25	33	12	1
NANSONI	29	33	3	0
TAMBONG	45	29	4	0

WENCHIKI	39	28	5	0
WONJOGA	27	20	5	0
TOTAL	182	170	35	1

#### 1. VISION OF THE DISTRICT ASSEMBLY

A Peaceful District with Equitable Representation, Vibrant Economy, Access to Quality Education and Health Services, Food Security and a Sound Environment.

#### 2. MISSION STATEMENT OF THE DISTRICT ASSEMBLY

To Improve the Living Standards of Its People Through Good Governance and Effective Mobilization and Judicious Utilization of Both Human and Material Resources On a Sustainable Basis.

#### PART A: STRATEGIC OVERVIEW

#### 1. POLICY OBJECTIVES

# There are six (6) Policy Objectives that are relevant to the Chereponi District Assembly. The District was established in 2007 with a Legislative Instrument LI 1854.

These are as follows;

- · Ensuring and sustaining macroeconomic stability
- · Enhanced competitiveness of Ghana's private sector
- · Accelerate agricultural modernisation and natural resource management
- Infrastructure and human settlements development
- Human development, employment and productivity
- Transparent and accountable governance

#### 1. GOAL

The broad goal of Chereponi District is to improve upon the living standards of all the people through the provision of basic amenities and services, the development of the private sector and the creation of a congenial atmosphere for all inhabitants to contribute their quota to the positive socio economic and spatial transformation of the District.

### 2. CORE FUNCTIONS

The core functions of the District are outlined below:

- Promoting and sustaining local economic growth
- Creating an enabling environment for effective collaboration with the private sector
- Improving sustainable agricultural production and productivity
- Improving social services to enhance production
- Improving the quality of human resource through equitable access to quality education, health care and economic resource
- Ensuring effective operation of local government structures and efficient security.

# **BROAD OBJECTIVES**

KEY FOCUS AREA	ADOPTED NATIONAL OBJECTIVES	ADOPTED NATIONAL STRATEGIES
LOCAL GOVERNANCE AND DECENTRALIZATI ON	Ensure effective implementation of the Local Government Service Act Ensure efficient internal revenue generation and transparency in local resource management	Strengthen existing sub-district Structures for effective operation Develop the capacity of the Districts towards effective revenue mobilization
	Upgrade the capacity of the public and civil service for transparent accountable, efficient, timely, effective performance and service delivery	Provide conducive working environment for civil servants Develop human resource development for the public sector
HEALTH	Bridge the equity gaps in access to health care and nutrition services and ensure sustainable finance arrangements that protect the poor Prevent and control the spread of Communicable and non-communicable	Accelerate implementation of CHPS strategy in under-served areas Expand access to primary health care
	diseases and promote healthy lifestyles Ensure the reduction of new HIV and AIDS/STIs/TB transmission Bridge the equity gaps in access to health care and nutrition services and ensure sustainable finance arrangements that protect the poor	Intensify behavioral change strategies especially for high risk groups Accelerate implementation of CHPS strategy in under-served areas Expand access to primary health care
EDUCATION, SPORTS DEVELOPMENT	Improve quality of teaching and learning	<ul> <li>Remove the physical, financial and social barriers and constraints to access to education at all levels</li> <li>Increase the number of trained teachers, trainers, instructors and attendants</li> </ul>
	Increase equitable access to and participation in education at all levels Develop comprehensive sports policy	Provide infrastructure facilities for schools Promote schools sports
AGRICULTURE	Promote livestock and poultry development for food security and income Improve institutional coordination for agriculture development	Introduce policies to transform smallholder production into viable enterprises
	Promote irrigation development	• Develop, promote affordable irrigation schemes including dug-

TRANSPORT INFRASTRUCTURE: ROAD, RAIL, WATER AND AIR TRANSPORT	Create and sustain an efficient transport system that meets user needs	<ul> <li>outs, boreholes and other water harvesting systems</li> <li>Rehabilitate, existing dug-outs for small irrigation purpose</li> <li>Prioritize the maintenance of existing road infrastructure to reduce vehicle operating costs (VOC) and future rehabilitation costs</li> <li>Improve accessibility to key centers of population, production and tourism</li> <li>Sustain labour-based methods of road construction and maintenance to improve roads and maximize employment</li> </ul>
WATER AND ENVIRONMENTAL SANITATION AND HYGIENE	Accelerate the provision of affordable and safe water	Adopt cost effective borehole drilling mechanisms
DISABILITY	Ensure a more effective appreciation of and inclusion of disability issues both within the formal decision making process and in the society at large	Mainstream issues of disability into the planning process at all levels
WOMEN EMPOWERMENT	Empower women and mainstream gender into socioeconomic development	Sustain public education, advocacy and sensitization on the need to reform outmoded socio-cultural practices, beliefs and perceptions that promote gender

Increase Agricultural Production for Rice	Yield per acre of Rice Farm	2017	2.4 Metric	2018	2.5 Metric	2019	2.5 Metric

			Tones / Hecter		Tones / Hecter		Tones / Hecter
Increase AEA per farmer ratio	Ratio of extension Agents farmers	2017	1:2500	2018	1:3000	2019	1:3500
Post Harvest Losses	% of agric produce that go bad per farming season (all crops)		10.15%	2018	10.20%	2019	10.22%
Crops and livestock production increased	% increase in yield of food crops and Livestock	2017	2.5% and 2.4%	2018	4.6% and 2.4%	2019	2.5% and 4.6%

Revenue Mobilization Strategies for Key Revenue Sour	ces in 1	2019
--	----------	------

REVENUE SOURCE	KEY STRATEGIES
1. RATES (Basic Rates/Property Rates/Cattle Rates)	<ul> <li>Sensitize the public on the need to pay their rates.</li> <li>Update a database on ratable persons and locations of cattle ranches in the District</li> <li>Activate Revenue taskforce to assist in the collection of cattle rates</li> </ul>
2. LANDS	<ul> <li>Prepare building permit forms that will be issued for a fee and sensitize the people in the district on the need to seek building permit before putting up any structure.</li> <li>Establish a unit within the Works Department solely for issuance of building permits</li> </ul>
3. LICENSES	• Sensitize business operators to acquire licenses and also renew their licenses when expired
4. RENT	<ul> <li>Re-allocate market stores/stalls to the public.</li> <li>Update database on market stalls/stores in the district.</li> <li>Issuance of demand notice</li> </ul>

Chereponi District Assembly

5. FEES AND FINES	Monitor revenue collectors
	• Station revenue collectors at sand/gravel pits in the District to collect fees for every trip of sand/gravel.
	<ul> <li>Set-up revenue checkpoints at Naja, Tigenga and Chereponi.</li> </ul>
	<ul> <li>Sensitize various market women, trade associations and transport unions on the need to pay fees on export of commodities</li> </ul>
	• Formation of revenue monitoring team to check on the activities of revenue collectors, especially on market days.
6. INVESTMENT	Position a Revenue Collector at the sand winning site.
(Tipper truck service & Tractor service)	• Ensure that the tractors and tipper truck are in good working condition.
501 (100)	
7. REVENUE COLLECTORS	• Hold sensitization meetings with Assembly members and stakeholders such as Chiefs and their subjects, Associations, and other groups in the District.
	• Fix realistic fees/levies on all revenue items with the data obtained on all revenue items through a fee fixing resolution of the Assembly
	• Establish a revenue chart which will indicate the performance of revenue collectors and also track the flow of revenue.
	Quarterly rotation of revenue collectors
	Setting target for revenue collectors
	• Engaging the service of the Chief Local Revenue Inspector (at RCC) to build the capacity of the revenue collectors
	Sanction underperforming revenue collectors
	Awarding best performing revenue collectors.

#### PART B: BUDGET PROGRAMME SUMMARY

#### PROGRAMME 1: MANAGEMENT AND ADMINISTRATION

#### 1. Budget Programme Objectives

The objectives of this programme are as follows:

- To provide administrative support to the various departments and ensure effective implementation of internal control procedures in the District Assembly.
- To improve resource mobilization and utilization
- To improve HR information gathering and management to enhance analysis and timely decision making
- To fiscally plan for projects and programmes in the district
- To formulate and translate policies and priorities of the Assembly into strategies for efficient and effective service delivery

#### 2. Budget Programme Description

The Management and Administration Programme seek to provide administrative and logistical support for efficient and effective operations by ensuring efficient management of financial resources through the establishment of effective internal controls.

This can be achieved by ensuring the availability of qualified personnel of the District Assembly. It ensures efficient management of the resources of the District Assembly as well as promoting cordial relationships with key stakeholders.

This Sub-Programme seeks to provide administrative and logistical services such as transport, estates, cleaning services, security, maintenance, secretarial services, stores management, and records management. These services are to be delivered through; the Co-ordination of the day-to-day activities of the departments in the district.

Carrying out day-to-day correspondence between the Assembly and external stakeholders, Ensuring the implementation of decisions of the District Assembly, carrying out of regular maintenance of assets of the Assembly, Efficient and effective management of transport facilities for the Assembly, Ensuring the operationalization of the sub-district structures, Efficient and effective records keeping for the Assembly.

Ensuring strict adherence to the Public Procurement Act. With funding from GoG, DACF, DDF and IGF, the stores, procurement, estates, transport, records units with total staff strength of Eighty-Eight (83) will carry out the implementation of this sub-programme. (67 are on GoG payroll and 16 on IGF pay-roll).

#### PROGRAMME1: Management and Administration

#### SUB-PROGRAMME 1.1 General Administrations

#### 1. Budget Sub-Programme Objective

To provide administrative support to the various departments and ensure effective implementation of internal control procedures in the District Assembly.

#### 2. Budget Sub-Programme Description

This Sub-Programme seeks to provide administrative and logistical services such as transport, estates, cleaning services, security, maintenance, secretarial services, stores management, and records management. These services are to be delivered through; the Co-ordination of the day-to-day activities of the departments in the district.

Carrying out day-to-day correspondence between the Assembly and external stakeholders, ensuring the implementation of decisions of the District Assembly. Carrying out of regular maintenance of assets of the Assembly, Efficient and effective management of transport facilities for the Assembly. Ensuring the operationalization of the sub-district structures, Efficient and effective records keeping for the Assembly, Ensuring strict adherence to the Public Procurement Act.

With funding from GoG, DACF, DDF and IGF, the stores, procurement, estates, transport, records units with a total staff strength of twelve (12) will carry out the implementation of this sub-programme. However, inadequate logistics, staff, and insufficient Internally Generated Funds are the challenges this sub-programme is faced with However,

- inadequate logistics, staff, and insufficient Internally Generated Funds
- Delay in the release of the DACF, DDF & other funds for departments.
- Low revenue mobilization of the District Assembly
- Unwillingness of citizens to honour their tax obligations.
- Poor road surface condition are the challenges this sub-programme is faced with

#### 3. Budget Sub-Programme Results Statement

#### BUDGET SUB-PROGRAMME SUMMARY

#### **PROGRAMME1:** Management and Administration

#### SUB-PROGRAMME 1.2 Finance and Revenue Mobilization.

#### 1. Budget Sub-Programme Objective

To enhance effective and efficient revenue mobilization and utilization The sub-programme provides fiscal services such as Revenue Collection, and Disbursement of funds

- Reviewing of records of payments
- Effective and efficient management of financial resources
- Timely financial reporting as contained in the Financial Administration Regulation
- Increasing and managing collection points in the district.

#### 2. Budget Sub-Programme Description

The sub-programme provides fiscal services such as Revenue Collection, and Disbursement of funds

- Reviewing of records of payments
- Effective and efficient management of financial resources
- Timely financial reporting as contained in the Financial Administration Regulation
- Increasing and managing collection points in the district.

This sub-programme also seeks to strengthen domestic resource mobilization, including through strategizing on eradicating export of goods and service to the Togo, to improve domestic capacity for tax and other revenue collection.

This will be done through minimizing the exportation of goods and services to neighboring Togo and also organize publicity on tax and revenue collection.

The Units that are involved in delivering this service and the Finance, Budget and Internal Audit units of the Assembly. The challenges include inadequate staffing levels of the Finance Department, and insufficient IGF.

The sub-programme is proficiently manned by 13 officers, comprising 1 Principal Accountant, 1 Accountants, 1 Senior Accounts officer, 2 Budget Analyst, 1 Internal Auditors, 6 Revenue collectors and 1 Senior revenue inspector. The funding of the sub-programme is GoG, IGF, and DACF Budget.

#### SUB-PROGRAMME 1.3 Planning, Budgeting and Coordination

#### 1. Budget Sub-Programme Objective

- To plan for infrastructural and developmental projects
- To conduct monitoring and evaluation (M&E) of the implemented programmes and projects
- · To fiscally plan for projects and programmes in the district

#### 2. Budget Sub-Programme Description

This sub-programme focuses on the formulation of plans and its implementation for the development of the District. The units involved in the delivery of this sub-programme include; planning and budgeting.

Ensuring the preparation of Composite District Annual Action Plan. Effective and efficient management of the financial resources through the preparation of District Composite Budget. Implementation of plans drawn by the Assembly for the development of the District.

Effective delivery of this sub-programme will benefit not only the community members but also development partners and the departments of the assembly. The two main units for the sub-programme include the planning unit and budget unit as well as the expanded DPCU. The sub-programme is proficiently managed by 6 officers comprising of 2 Budget Analyst and 4 Planning Officers.

The challenges include insufficient funds and late release of funds for the effective implementation of the budget. The funding for this sub-programme is by GoG, DACF, DDF and IGF

#### SUB-PROGRAMME 1.5. Human Resource Management

- 1. Budget Sub-Programme Objective
  - To provide human resource management frameworks and standards for effective management of human resources in the District
  - To improve accessibility and use of existing HR database for analysis and decision making in relation to Human Resource management in the District
  - To achieve the Assembly's goals that are linked to the individual and team performance objectives, as the basis for measuring performance results and merit.

#### 2. Budget Sub-Programme Description

The Human Resource Management sub-programme focuses on the development of standards for effective management of human resources in the District. The components of this sub-programme are Human Resource auditing, performance management, service delivery improvement and the Human Resource Management Information System.

These are intended to improve on productivity of the District Assembly as well as enhancing informed decision making in the management of human resource. The main beneficiaries of this sub-programme are the staffs of the Assembly.

The funding for this sub-programme comes from GoG, DACF, DDF, and IGF. Under this sub-programme, total staff strength of two (2) will carry out the implementation of this sub-programme.

The challenges of this sub-programme include inadequate and late release of funds.

#### 3. Budget Sub-Programme Results Statement

# BUDGET PROGRAMME SUMMARY

#### **PROGRAMME 2: INFRASTRUCTURE DELIVERY AND MANAGEMENT**

#### 1. Budget Programme Objectives

- To provide rational and sustainable human settlements development.
- To ensure value for money for infrastructural and developmental projects
- To coordinate the diverse physical developments promoted by departments, agencies of government and private developers.
- Preparation of land use plans (structure plans) to direct and guide the growth and sustainable development of human settlements in the district.
- To administer land use management procedures in settlements and channelling of day to day physical developments into efficient forms and sound environmental places of residence, work and recreation

# 2. Budget Programme Description

The infrastructure Delivery and Management Programme provide technical support to the District Assembly and ensures rational and sustainable human settlements development. The physical planning is responsible for: Draft designs for civil and building works. Prepare tender & contract documents.

Participates in the procurement of goods, works and services. Advise management on all engineering-related activities. Facilitates the maintenance and repair works of Assembly facilities. Prepare estimates and bill of quantities.

Key departments in carrying the programme include the Physical Planning Department and the District Works Department.

- Planning and management of human settlements; provision of planning services to public authorities and private developers;
- Development of layouts plans (planning schemes) to guide orderly development;
- Collaboration with survey department, prepare acquisition plans when stool land is being acquired;
- Responsible for physical/spatial planning of customary land in conjunction with the stool/skin; and
- Responsible for development control through granting of permit.

The District Works department carry out such functions in relation to feeder roads, water, rural housing etc.

- The department advises the Assembly on matters relating to works in the district;
- Assist in preparation of tender documents for civil works projects;
- Facilitate the construction of public roads and drains;
- Advice on the construction, repair, maintenance and diversion or alteration of street;
- Assist to inspect projects under the Assembly with departments of the Assembly;
- Provide technical advice for the machinery and structural layout of building plans to facilitate escape from fire, rescue operation and fire management; and

 Provide technical and engineering assistance on works undertaken by the Assembly and owners of premises.

Under this programme, a total staff strength of two (2) will carry out the implementation of the programme. The sub-programme is funded through Government of Ghana budgetary allocation, Internal Generated Funds (IGF) and Donor or External funding sources. The main beneficiaries are the people living within the district.

The major challenge confronting the sub-programme is the inadequate staffing and logistics for operations within the sub-programme.

#### BUDGET SUB-PROGRAMME SUMMARY

#### PROGRAMME2: Infrastructure Delivery and Management

#### **SUB-PROGRAMME 2.2 Infrastructure Developments**

#### 1. Budget Sub-Programme Objective

To provide technical support in infrastructure delivery and management to the Assembly

#### 2. Budget Sub-Programme Description

The sub programme seeks to:

Draft designs for civil and building works. Prepare tender & contract documents. Participates in the procurement of goods, works and services. Advise management on all engineering-related activities. Facilitates the maintenance and repair works of Assembly facilities and Prepare estimates and bill of quantities.

The organizational units involved are the building, community water and sanitation, Rural Housing and Feeder Roads. The Department has total staff strength of two (2) to oversee the effective delivery of the projects and programmes of the sub-programme.

The sub-programme is funded through Government of Ghana budgetary allocation, Internal Generated Funds (IGF) and Donor or External funding sources. The main beneficiaries are the people living within the district.

The major challenge confronting the sub-programme is the inadequate staffing and logistics for operations within the sub-programme.

#### 3. Budget Sub-Programme Results Statement

Repair—Maintenance	Drilling and Mechanization of bore hole
Construction of 5 no. Feeder Roads (2.7km) in	
the District	Reshaping of Feeder Roads in the District
	Construction of 5 no. Feeder Roads (2.7km) in
	the District

### **PROGRAMME 3: SOCIAL SERVICES DELIVERY**

# 1. Budget Programme Objectives

- To provide equal access to quality basic education to all children of school going age at all levels
- To improve access to health service delivery.
- Facilitate in the integrating the disadvantaged, vulnerable and excluded in mainstream of development.
- Works in partnership in the communities to improve their well-being through promoting social development with equity for the disadvantaged, the vulnerable, persons with disabilities and excluded.

#### 2. Budget Programme Description

Social Service Delivery is one of the key Programmes of the Assembly. This programme seeks to take an integrated and holistic approach to development of the District and the Nation as a whole. There are four sub-Programmes under this Programme namely; Education and Youth Development, Health delivery and Social Welfare and Community Development.

The education, Youth and Sport Department of the Assembly is responsible for pre-school, special school, basic education, youth and sports, development or organization and library services in the district. The department therefore assists the Assembly in the formulation and implementation of programmes in such areas of education and youth development.

The Department of Health in collaboration with other departments assist the Assembly to deliver context specific health care interventions by providing accessible, cost effective and efficient health service at the primary and secondary care levels in accordance with approved national policies by ensuring prudent management of resources.

The Social Welfare and Community Development Department assist the Assembly to formulate and implement social welfare and community development policies within the framework of national policy.

Extreme poverty continues to work against the economic gains that Ghana has chalked over the past two decades. It is estimated that about 18% of Ghanaians live under extreme poverty conditions. This means that they are neither able to afford daily subsistence requirement nor afford education and basic health for themselves and their children.

This phenomenon perpetuates generational poverty. In order to ensure equitable distribution of national resources and mainstreaming of the extremely poor, Government developed and started implementing the National Social Protection Strategy (NSPS) in 2007. In Chereponi District, 579

#### Chereponi District Assembly

households are benefitting from conditional and unconditional cash transfer under the Livelihood Empowerment against Poverty (LEAP) Programme; a component of the NSPS. Extremely poor Older Persons above 65 years have been enrolled onto the LEAP and are entitled to unconditional cash transfer.

The total number of personnel under this budget Programme is 759.

#### **PROGRAMME3: SOCIAL SERVICES DELIVERY**

#### SUB-PROGRAMME 3.1 Education and Youth Development

#### 1. Budget Sub-Programme Objective

To provide human and material resources for the provision of quality education delivery at basic and second cycle levels.

# 2. Budget Sub-Programme Description

Education is the key success in every socio-economic change. The sub programme seeks to improve the quality of education, by increasing enrolment at all levels, providing user-friendly environment for teaching and learning, through construction of classrooms, urinal and toilet facilities, and providing furniture.

The programme will be delivered through the District Education Directorate to all Kindergartens, Primary schools, Junior High Schools, and Senior High Schools. The funding sources are GOG, USAID, DACF, GPE.

The beneficiaries of this programme are all pupils who attend school in Chereponi District. Teachers too will benefit from this programme. The staff strength of this sub-programme is as follows:

LEVEL	No. OF STAFF
CENTRAL ADMINISTRATION	42
KINDERGARTEN	68
PRIMARY	268
JUNIOR HIGH SCHOOL	151
SENIOR HIGH SCHOOL	103

The key issue/ challenge are inadequate fund to undertake all operations and projects in the sub-programme.

#### 3. Budget Sub-Programme Results Statement

The tables indicate the main outputs, its indicators and projections by which the Chereponi District Assembly measures the performance of this sub-programme. The past data indicate actual performance whilst the projections are the Assembly's estimate of future performance.

The Table lists the main Operations and Projects to be undertaken by the sub-programme. **1. CENTRAL ADMINISTRATION** 

Operations	Projects
Monitor educational delivery in schools	Provide office equipment and supplies
Organise in-service training(INSET) for management staff	Provide office furniture
Monitor teacher absenteeism and sanction culprits	Rehabilitation of 3 unit classroom block at Cheri
Provide training for Circuit Supervisors to strengthen supervision	Construction and Rehabilitation of 1 no. 3 unit classroom block at Kpamaba, Chereponi, Yetili, Akromabili, Wenchiki ,Jakpa, Junjun, Rahmaniya
Conduct management training for headteachers	Procure 500 Dual-desks for 10,332 pupils of school going age in the district
Organise workshop on the preparation of ADEOP	Rehabilitation of 10 No ripped off Schools
Provide adequate resources for Administrative Expenses	Construction of 1 no. 6 unit classroom block at Jilima and Chereponi SHS
Conduct regular school inspection and disseminate reports in a timely manner	Construction of dining hall complex
Provide support to incorporate school report cards, school based assessments and EMIS reporting for improvement planning	Construction of 1 no. 3 – unit Classroom Block
Conduct Monitoring & Evaluation for interventions	

# 2. KINDERGARTEN

Operations	Projects
Oragnise enrolment drive in school communities	Construct child-friendly classroom
Conduct regular school inspection and disseminate information regularly	Provide gender friendly toilet facilities for KGs
Conduct standardized reading/numeracy test	Provide core textbooks/supplementary readers
Implement incentive packages for teachers(sponsorship)	Provide gender friendly urinal facilities in schools
Organize capacity-building workshop for teachers on literacy and numeracy	Provide school furniture/chalkboard
Observe National Days (my first day at school,	Provide facilities for water harvesting in
Independence day, Best Teacher Awards)	schools

# 3. PRIMARY

Operation	Projects
Oragnise enrolment drive in school communities	Provide core textbooks/supplementary readers
Organize INSET for teachers on methods of teaching	Provide gender friendly urinal facilities in schools
Conduct standardized reading/numeracy test	Provide school furniture/chalkboard
Implement incentive packages for teachers	Provide facilities for water harvesting in schools
Train teachers in ICT	Construct child-friendly classroom
Conduct regular school inspection and disseminate information regularly	Provide gender friendly toilet facilities for primary schools
Monitor educational delivery in schools	Provide material support to needy pupils
Support deprived schools with material and other resource to develop indoor learning corners and outdoor learning areas	District Assembly sponsorship programme for teachers in deprived schools
Provide basic needs like, uniforms, sandals, exercise books, mathematical sets, etc for pupils	Provide clean and safe water facilities in schools (Poly tanks, boreholes, veronica buckets, rain harvest facilities etc)
Organize capacity-building workshop for school SHEP coordinators on sanitation, environment and safety system in schools	
Organize "My First Day at School" ceremony in schools	
Organise INSET - Maths, Science and Literacy (CORE ACTIVITY)	

Chereponi District Assembly

# 4. JUNIOR HIGH SCHOOL

Operation	Projects
Provide guidance and counselling service at JHS level	Provide facilities for water harvesting in schools
Undertake Mock BECE exams and provide timely report	Construct child-friendly classroom in JHSs
Organise INSET for teachers' professional development	Provide gender friendly toilet facilities for JHSs
Train teachers in ICT	Provide core textbooks/supplementary readers
Conduct regular school inspection and disseminate information regularly	Provide gender friendly urinal facilities in schools
Oragnise enrolment drive in school communities	Provide school furniture/chalkboard
Implement Best Teacher Award Scheme	Provide material support to needy pupils
Provide basic needs like, uniforms, sandals, exercise books, mathematical sets, etc for pupils	Provide teaching and learning materials in Maths, Science.

# 5. SENIOR HIGH SCHOOL

Operation	Projects
Implement Best Teacher Award Scheme	Provide material support to needy students
Organise INSET for teaching professional delivery	Provide school furniture and chalkboard
Train teachers the use ICT as a learning tool	Construct child-friendly classroom in SHS
Provide guidance and counselling service at JHS	Provide adequate resources for Administration
Organise sports and cultural festival	Provide schools with essential supplies - markerboards, mono desks, teacher's tables, cupboards, chairs etc
Implement E - SHEP programmes i.e. Sanitation, Environment and safety system in schools	Rehabilitate existing school buildings

#### BUDGET SUB-PROGRAMME SUMMARY

# PROGRAMME3: SOCIAL SERVICES DELIVERY

#### SUB-PROGRAMME 3.2 Health Delivery

1. Budget sub-programme objective

Bridge equity gap in geographical access to health care services

# 2. Budget sub-programme description

Health sector is among the derivers of socio-economic change requiring huge capital outlay given its high intensive labor capacity. Tackiling the challenge of access will require increase in coverage of health infrastructure, curative, prevention and health promotion services will be rendered in equipped and operationalized CHPS Compounds.

Thus, the programme will be delivered through the VHPS Compounds and all the communities in Chereponi. The District Health Directorate of Ghana Health Service is solely in-charge of the health related issues of the people of Chereponi. The units of the organization in undertaking this sub-programme include the District Medical Office of Health and the Environmental Health Unit. The funding sources are GoG, NHIS, UNFPA, UNICEF, KOIKA and USAID with staff strength of One Hundred and Thirty-six (136).

#### 3. Budget sub-programme Results statement

The table indicates the main output, its indicator and projections by which the Chereponi District Assembly measure the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Assembly's estimates of the future performance.

#### **PROGRAMME3: SOCIAL SERVICES DELIVERY**

SUB-PROGRAMME 3.3 Social Welfare and Community Development

#### 1. Budget Sub-Programme Objective

To mobilize the people of Chereponi for sustainable social protection, talent nurturing heritage preservation and creating equal opportunities for children, youth women, PWDs older persons and other vulnerable groups for a holistic growth and development

#### 2. Budget Sub-Programme Description

Community social development is a pre-requisite to economic development of any county. The district contributes 0.9% to the national poverty. To reduce this the Department implements various empowerment and safety nets programs which are key in breaking the cycle of poverty among the vulnerable –children, youth, women people living with disability, the PLWHIV, and the elderly.

The sub-programmes seek to meet socially self-driven and empowered community. This will be done through: government procurement opportunities for the youth; withdrawal and reintegration of street children; support of people living with disabilities; nurturing of sport talent and promoting cultural tourism.

The programme will be lead by the Department of Community Development and Social Welfare of the Assembly. The department gets its source of funding from GOG, IGF and Non-Governmental organizations with a total of 4 officers would be carrying out this sub-programme comprising of 3 Community Development Officers and 1 Social Welfare Officer and a key challenge of inadequate logistics and funding.

#### 3. Budget Sub-Programme Results Statement

Chereponi District Assembly

# BUDGET PROGRAMME SUMMARY

# **PROGRAMME 4: ECONOMIC DEVELOPMENT**

### 1. Budget Programme Objective

- Create an entrepreneurial society through the promotion and growth of micro and small enterprises (MSEs).
- To improve agricultural productivity through modernization along a value chain in a sustainable manner

# 2. Budget Programme Description

The economic development programme aims at provide enabling environment for Trade, Tourism and industrial development in the District. It also seeks to facilitate the modernization of agriculture to achieve self-sufficiency in food security in the District.

The sub-programmes under the Economic Development programme include Trade, Tourism and Industrial Development and Agriculture Development.

Trade, Industry and Tourism sub programme under the guidance of the Assembly deal with issues related to trade, cottage industry and tourism in the district. The sub-programme seeks to:

- Facilitate the promotion and development of small scale industries in the District;
- Advise on the provision of credit for micro, small-scale and medium scale enterprises;
- Promote the formation of associations, co-operative groups and other organizations which are beneficial to the development of small-scale industries;
- Assist in offering business and trading advisory information services;
- Facilitate the promotion of tourism in the district;
- Assist to identify, undertake studies and document tourism sites in the district

The Agriculture Development sub-programme seeks to:

- Provide agricultural extension services in the areas of natural resources management, and rural infrastructural and small scale irrigation in the district;
- Promote soil and water conservation measures by the appropriate agricultural technology;
- Promote agro-forestry development to reduce the incidence of bush fires;
- Promote an effective and integrated water management
- Assist in developing early warning systems on animals diseases and other related matters to animal production;
- Facilitate and encourage vaccination and immunization of livestock and control of animal diseases;
- Encourage crop development through nursery propagation;
- Develop, rehabilitate and maintain small scale irrigation schemes;
- Promote agro-processing and storage.

The programme will be delivered by 12 staff from the Business Advisory Centre and the Department of Agriculture Development.

# BUDGET SUB-PROGRAMME SUMMARY

# **PROGRAMME4:** ECONOMIC DEVELOPMENT

SUB-PROGRAMME 4.1 Trade, Tourism and Industrial development

# 1. Budget Sub-Programme Objective

- To promote market access and encourage export business
- To enhance the cooperative movement and add value to local produce for higher returns
- To market the district beyond its boarders
- Expand opportunities for job creation and improve efficiency and competitiveness of Micro, Small and Medium Enterprises.

# 2. Budget Sub-Programme Description

The district has set up a Business Advisory Centre with support from Ministry of Trade and Industry through the Rural Enterprise Programme which seeks to provide basic business skills development services at the community level in the area of ; farm-based business, Agro-processing business, Agro-Industrial Business, Traditional Craft business and Pre & Post Harvest Businesses.

The sub-programme seeks to improve the competitiveness of micro and small enterprises by facilitating the provision of development programmes and integrated support services.

The National Board for Small Scale Industries / Business Advisory Centre (BAC) is to facilitate SMEs access to Business development service though assisting entrepreneurs to increase their productivity, generate employment, increase their income levels and contributing significantly towards the socio-economic development of the country. The clients are potential and practising entrepreneurs in growth oriented sectors in the district.

The programmes also link such business to the financial services. The Sub-Programme is to be delivered through skills development training for Small business management. The Business Advisory Centre (BAC) leads this process with collaboration from Community

Development Unit of the Assembly. The programme is being funded by GOG, IFAD and AfDB and the beneficiaries are SME's in the District.

The unit has 3 Officers comprising of 1 BAC Trainer/Motivator, 1 Business Development Officer and 1 Secretary.

# 3. Budget Sub-Programme Results Statement

#### Chereponi District Assembly

#### BUDGET SUB-PROGRAMME SUMMARY

#### **PROGRAMME4: ECONOMIC DEVELOPMENT**

### SUB-PROGRAMME 4.2 Agricultural Development

# 1. Budget Sub-Programme Objective

- To provide food security and sufficiency for sustained livelihoods in the District.
- Food security and emergency preparedness
- Increased growth in income
- Increased competitiveness and enhance integration and international markets
- Sustainable management of land and environment including climate change adaptation and mitigation
- Science and Technology applied in food and agricultural Development
- Improved institutional coordination

# 2. Budget Sub-Programme Description

The district seeks to provide inputs to farmers, acquire farm machinery for agricultural mechanization, promote Dairy and Poultry farming, and promote fisheries.

However, the Department continues to face the following challenges, among them, weak monitoring and evaluation system and inadequate physical facilities. Other challenges are the high cost of farm inputs, declining soil fertility, high cost of credit and poor marketing infrastructure.

In addition, production has been undermined by weak research-extension-farmer linkages and the effects of climate change. Farming and animal disease management among others.

To enhance agricultural production and productivity by initially completing the existing irrigation projects, promote Dairy and poultry farming and control of livestock diseases. To alleviate poverty, the department is targeting the resource poor households through the inputs access programme, which has a component of inputs provision as a start-up fund for the beneficiaries.

They will be expected to carry out the same agricultural activities on their own in the subsequent years. In addition, the department intends to focus on farmer field schools as capacity building for farmers.

The Agric Department of the Assembly will solely be in charge of the Agric activities with support from all units of the Assembly GOG and USAID with staff strength of twelve (12)

key challenges include

- Lack of funds to carry out field activities
- Low staff strength to man the vacant operation areas of the district
- Inadequate logistics such as computers, modern, credit, GPS, motor bikes among others
- The office needs renovation
- Inadequate accommodation for staff in the operational areas
- Weak official vehicle
- Lack of irrigation facilities for dry season farming

# 3. Budget Sub-Programme Results Statement

Monitoring and coordination by DDA and DCD	
Establish Two rice, Maize, Soya beans Demos. of One acre each and 3 JICA Demos on Rice	
Collect and compile weekly, Monthly and quarterly market information	
Organize One Day Quarterly/Technical meeting for staff	
Carry out Active Disease Surveillance	
Train 100 farmer groups in seed production and post- harvest technology	
Train 100 farmer groups in animal housing, safe use and disposal of agro chemical	
To support farmer groups to undertake dry season farming in the district	
Conduct monitoring on Fall Army Worm infestation on crops	
Organize and celebrate National Farmers Day in the District.	

**Chereponi District Assembly** 

# BUDGET PROGRAMME SUMMARY

# **PROGRAMME 5: ENVIRONMENTAL AND SANITATION MANAGEMENT**

## 1. Budget Programme Objectives

To increase accessibility to safe and clean water and establish sustainable solid waste management systems while creating awareness on environmental protection

#### 2. Budget Programme Description

Environmental Health and Sanitation Unit is mandated to ensure that the People of Chereponi are provided with desired service levels in water provision under secure and sustainable environment.

As this is being implemented, the Department will look beyond pure infrastructure investment requirements and introduce interventions for ensuring that the infrastructure addresses challenges of professional service delivery, sustainable operation and maintenance, adequate access to services and protected water catchment zones that include the many river sources, both permanent and seasonal, and wetlands that run across the county and need protection and rehabilitation.

The vegetation cover will increase to levels that will influence environmental changes and have direct impact on climate change and quality of water. Solid and liquid waste management forms the biggest challenge for the county. Investment requirements are enormous and the department shall partner with relevant partners in ensuring adequate measures are put in place to effectively control town and urban waste collection that also includes our District Sewerage and Sanitation.

The programme is funded from GOG, UNICEF, SNV and USAID. The beneficiaries of the programme are all the communities in the District with staff strength of seven (7) trained Environmental Health Staff and Fifteen Sanitation Guards. The key issues/challenges for the sub-programme are

- Inadequate office infrastructure
- Inadequate furniture for staff
- Inadequate means of transport
- Little support from GOG funds

Over reliance on donor support for activities implementation

## BUDGET SUB-PROGRAMME SUMMARY

# **PROGRAMME5:** ENVIRONMENTAL AND SANITATION MANAGEMENT

#### SUB-PROGRAMME 5.1 Disaster prevention and Management

#### 1. Budget Sub-Programme Objective

- To enhance the capacity of society to prevent and manage disasters
- To improve the livelihood of the poor and vulnerable in rural communities through effective disaster management, social mobilisation and income generation.

### 2. Budget Sub-Programme Description

The sub-programme seeks to promote disaster risk reduction and climate change risk management. It is also to strengthen Disaster Prevention and Respond mechanisms of the District.

The sub-programme is delivered through public campaigns and sensitisations; assisting in postemergency rehabilitation and reconstruction of efforts; provision of first line response in times of disaster and; formation and training of community-based disaster volunteers.

The Disaster Management and Prevention Department is responsible for executing the subprogramme. The larger public at the community levels are the beneficiaries of this sub-programme.

Funds will be sourced from IGF, DACF and Central Government supports. Challenges which confront the delivery of this sub-programme are lack of adequate funding, low and unattractive remunerations, and unattractive conditions of work.

In all, a total of 12 NADMO officers will carry out the sub-programme

#### 3. Budget Sub-Programme Results Statement

The table indicates the main outputs, its indicators and projections by which the District measures the performance of this sub-programme. The past data indicates actual performance whilst the projections are the District's estimate of future performance.
