PART A: INTRODUCTION

1. ESTABLISHMENT OF THE DISTRICT

The Garu District was created out of the Garu-Tempane District in 2017 and forms part of the fifteen (15) Districts in the Upper East Region of Ghana. The Garu District Assembly was established in 2017 as defined by the Local Government Legislative Instrument (L.I. 2351) with the administrative capital at Garu.

ADMINISTRATIVE MAP OF GARU DISTRICT

1.1 Geographical Location and Size and Boundaries

The District lies in the south-eastern part of the Upper East Region of Ghana. It covers an area of 1060.91 square/km. It lies approximately on latitude 11^038^{1} N and 11^{0} N and longitude 0^{0} 06¹E and 0^{0} 23¹E.

The District shares boundaries with, Bawku Municipal to the North, Binduri to the North West, Tempane District to North East, East Mamprusi District to the South West, Bunkpurugu-Yunyoo District to South East, Bawku West District to the West and the Republic of Togo to the South-East. It is about 110km from the Regional Capital.

2. POPULATION STRUCTURE

The 2010 population and housing census gave a District Population of 55,926. The male population in the District is 26,733 representing 47.75% of total population while that of the female population is 29,193 also representing 52.3%. An exponential projection using the district growth rate of 1.37% gives a figure of 62,415 disaggregated into 29,835 males and 32,580 females as the close of 2018.

| Year | Male | Female | Total Population | Growth Rate |
|------|--------|--------|-------------------------|--------------------|
| 2000 | 54,091 | 59,239 | 86,070 | |
| 2010 | 26,733 | 29,193 | 55,926 | 1.37% |
| 2016 | 29,027 | 31,698 | 60,726 | |
| 2017 | 29,428 | 32,136 | 61,565 | |
| 2018 | 29,835 | 32,580 | 62,415 | |

The table below depicts the population structure of the Garu District

3. DISTRICT ECONOMY

Skilled agricultural forestry and fishery workers are the dominant occupation in the district recording 85.2 percent. The majority (84.4%) of males find themselves within the skilled agricultural forestry and fishery compared to 82.8% of females engaged in the same sector. This leading occupational category does not require skilled expertise and high educational training. The major outputs of farmers are maize, millet, groundnuts, onions, watermelon, and livestock such as pigs, cattle, sheep and goats. Poultry, especially guinea fowl production, is quite significant.

Other areas that offer employment to the people are craft and related trades workers (5.8%), service and sales workers (5.1%), Professionals (1.4%) and 2.5 percent engage are absorbed by other areas.

a. AGRICULTURE

The people of the Garu District are predominantly subsistent farmers depending largely on rain fed agriculture. During the rainy season which lasts for just 3 of the 12 months in the year, they cultivate maize, sorghum, millet, to mention but a few. It is however common to experience crop failure among most families for the rainy season crops because of the uneven distribution of the rainfall.

Because of the frequent crop failure resulting in food insecurity in the area, most of the youth often migrate to the cities in search of non-existent jobs where they are most often subjected to dehumanising conditions.

Most of the women and the elderly who are left behind often engage in dry season vegetable farming often depending on shallow wells they dig along valleys and near dugouts to grow vegetables such as onion, pepper, cabbage and watermelon.

However, by March of every year, most of these shallow wells normally dry up and they have to wait and idle until July when the rains start and preparation for the wet season farming start. During this period, they take their guinea fowls and small ruminants such as goats and sheep which they often keep in small scale to solve pressing family issues.

Livestock and poultry population ('000 Heads)

Total production of livestock and local birds for the year under review experienced a general increase. This has the potential of reducing food and income insecurity among households.

| Indicators | Livestock | 2014 | 2015 | 2016 | 2017 |

| | Local birds | 15,214,040 | 15,314,050 | 16,079,753 | 17,611,158 |

b. MARKET CENTRE

The District has 7 Markets which include; Garu, Worikambo, Denugu, Songo, Dabila, Avosum Markets and Zaari. There are also other nearby Markets in the neighbouring District such as Woriyanga, Basyonde, Bugri, Tariganga, Sinorgo, Benwoko, Konkomada and Bawku. As a District bordered by several Districts and Togo, we enjoy inter-Districts Trade and International Trade particularly Senkanse, a popular commercial town in Togo.

There are two Banks in the District, the BESSFA Rural Bank and GN Bank, and a credit union which are engaged in savings mobilisations and provision of credit facilities to both private and public operators. Other mobile money merchants also exist to facilitate businesses. These include MTN Mobile Money, Vodafone Cash, Tigo Cash and Airtel Money.

There is one FM station in the District (Quality FM) which will play major role in advertising businesses.

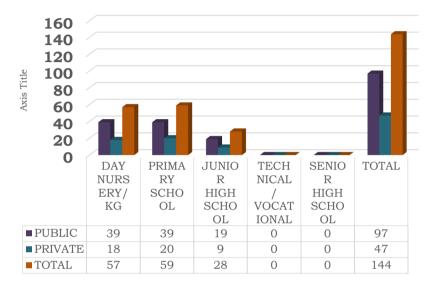

c. ROAD NETWORK

Roads in the District are mainly Feeder Roads. The total engineered roads =277.1km and the total engineered roads =122.9km. There are lorry parks in all the markets as well as a newly demarcated one in Garu, but none is fully developed yet. The Garu lorry park has seen a tremendous facelift. A few undeveloped tourist attractions exist in the District. These consist of the old slave market of Senebaga and the Conical Hill at Kugri.

d. EDUCATION

The District has a total of One Hundred and Forty-Four (144) Educational Institutions comprising Thirty-Nine (39) public KG and Eighteen (18) private Nurseries/KGs, Thirty-Nine (39) public Primary and Twenty (20) private primary schools, Nineteen (19) public Junior High Schools, Nine (9) private Junior High schools, No Technical/Vocational School and No SHS. All primary Schools have pre-school facilities since it is the goal of the Nation to integrate Early Childhood Development Centres in the formal education system. Several NGOs, Collaborators and Development Partners have played and continue to play various roles in the development of education in the District.

Educational Facilities

e. HEALTH

There is a total of 24 health facilities in all the four sub-districts. These include 3 private and 21 public facilities. There are no doctors in the district.

The table below depicts the health facilities by Sub-Districts

f. WATER AND SANITATION

There are two (2) Small Town Water and Sanitation Project completed and in use in Garu and Denugu. Apart from the Garu Small Town Water and System Denugut have just been handed over to the communities and the Water Boards and therefore are not operational. The district also recorded Five Hundred and Twenty (520) boreholes as at December 2014 out of which Four Hundred and Three (403) are functional. However, from 2015 to December 2016 One hundred and Forty-Nine (149) additional boreholes were sunk, bringing the total number of functional boreholes in the district to 551 and total number of boreholes to 669. Most the non-functional boreholes have Nira Pumps. There are also Fifty-Six (56) Hand-dug wells with pump but only nine are functional though seasonal. The current coverage of water in the District is 85.97%, which is far above the target for the Millennium Development Goal Target of 76%. However, this coverage could be debated taking into consideration the distance, quality, all year-round potable water facilities, spatial distribution, and population factors.

It is the intention of the District Assembly to provide similar Small-town water and sanitation systems for Kugri and Worikambo communities in the near future.

The existing sanitation facilities in the district include Septic tanks, Ventilated Pit Latrine (VIP), Kumasi Ventilated Improved Pit Latrine (KVIP) and Water Closets.

According to the 2010 population and housing census report, 91.9 percent of households in the district had no toilet facilities meaning they resort to open defecation. There are many houses without toilet facilities in rural (93.3%) and urban areas (71.0%). In addition, more households use public toilets in the urban areas (4.6%) than in the rural ones (1.1%). About three percent use (3.3%) use KVIPs.

Currently, there are 21 public toilets in the District, 12 KVIP, 1 Enviroloo and 8 Sceptic tanks. There are 57 private Water Closets, 257 private VIPs and 15 private KVIPs. A total of 834 improved latrines have been constructed while 1382 are under construction.

More than 70% of schools with standard structures have KVIPs. Sanitation Marketing is a new concept that is aimed at assisting individuals especially Latrine Artisans and dealers of building inputs to treat the provision of sanitation facilities, especially Household Latrines, as business.

The Assembly through the Sustainable Water Project has trained some Artisans and the idea is to train this Artisan on entrepreneurship so that they would sell the idea of constructing House Latrines to House Holds and assist interested House Holds to construct these facilities.

Under the UNICEF supported Community Led Total Sanitation (CLTS) programme, a number of communities were triggered and so far, 93communities have been declared Open Defecation Free (ODF).

It is currently estimated that 25% of current population have access to sanitation facilities.

g. BUILT ENVIRONMENT

The built environment consists of housing, which is mostly made of switch in the rural areas, and blockhouses in the urban and other big settlements. There are also markets and other socioeconomic infrastructure. However, apart from the Garu Township there are no layouts in other communities. This promotes haphazard development even in Garu Township where there is a layout. There are also some protected forest reserves and community forests.

Another significant feature of the settlement pattern is its dispersed nature. This makes it seemingly difficult to access development projects such as water facilities, electricity, sanitation facilities. It cost time and money to serve one community adequately because of our settlement system. This leads to many people walking longer distances to access educational and health services. As farmlands are incorporated into the settlement structures, houses are built far apart from one another creating a dispersed scene. Such a pattern has other implications for the provision of certain basic facilities such as health, education water, sanitation and electricity.

4. VISION OF THE DISTRICT ASSEMBLY

'To become a highly professional Local Government Institution that creates opportunities for all, especially women and the vulnerable to effectively participate in decision making process, and human resource development in partnership with other public sector organizations and the private sector'.

5. MISSION STATEMENT OF THE DISTRICT ASSEMBLY

The Garu District exists to improve the Socio-economic condition of its people by mobilizing the necessary human and material resources in an efficient and effective manner towards developing the District in a sustainable manner.

6. KEY ACHIEVEMENTS IN 2018

To enhance the performance of players at local governance level, the entire decentralized departments had their annual action plans integrated into the District Annual Action Plan. The planned expenditure of the Decentralized Departments and Units within the Assembly is being implemented through the Composite Budget System being driven by the GIFMIS. Heads of departments have had series of training programmes for the implementation of the Programme Based Budgeting and their inputs have been consolidated in the Assembly's 2019 Composite Budget.

The following are summary of the achievements in the Garu District in the implementation of the 2018 Annual Action Plan based on the 2018 - 2021 District Medium Term Development Plan (DMTDP).

- Drilling and Construction of 10N0. Boreholes for educational and health facilities in the District
- Refurbishment of Assembly Hall
- Completion of District Court in Garu
- Best Teacher Awards was organized in the District on 6th March 2018 with over 20 teachers being awarded with Motorbikes, table top fridges, gas cylinders with burners.
- Procurement of 1000no. Dual desk/Hexagonal set furniture for schools
- Construction 1No.3Unit Disability Friendly Classroom block for Tempane Senior High School
- Construction of Teachers Quarters at Saligu
- Construction of Pavilion at Songo CHPS compound
- Construction of CHPS Compound at Siisi
- > Completion of CHPS Compound at Tempane
- Construction of 3No.4-seater KVIP and 2-Unit urinals for health facilities at Builpielsi, Konkomadaa and Farfar
- ➢ Construction of 10N0. Market Stores at Tubong
- > Successful mobilization and payment of LEAP beneficiaries in the District.
- Carried out CLTS in some communities by UNICEF out of which 93 communities have been declared Open Defecation Free (ODF).
- In addition, the Assembly ensured relative peace and order for the purpose of increasing commercial activities in the district as well as peaceful coexistence among the people. The Assembly assisted security forces with fuel, logistics and maintenance of vehicles to maintain peace.

PART B: STRATEGIC OVERVIEW

The Policy Objectives that are relevant to the Garu District Assembly

These are as follows:
