Krachi Nchumuru District Assembly

PART ONE:

STRATEGIC OVERVIEW

1.0. INTRODUCTION

The Decentralization process in Ghana makes the Districts the pivot of development activities in the country. With the coming into force of 1992 fourth Republican Constitution of Ghana, the Local Governance Act 2016 (Act 936), the National Development Planning Commission Act 1994, (Act 479) and the Development Planning Act 1994, (Act 480), the District Assemblies in Ghana have been mandated to function as planning authorities with the task to ensuring the overall development of the areas under their jurisdiction through the formulation and execution of development plan and programmes and designing strategies for the mobilization and prudent utilization of revenue. Thus, the district has become the pivot of development from the bottom.

In line with this policy, the Krachi Nchumuru District has taken the necessary steps that led to the formulation of this Composite Budget for the year 2019. This is meant to form the basis for the implementation of programmes and projects aimed at reducing poverty and laying the foundation for a holistic and sustainable socioeconomic development in the district.

This plan is extracted from the District Medium Term Development Plan for 2019-2022 which was prepared in a participatory manner involving all stakeholders in the District. It was prepared within the framework of the National Development Planning System to address the prioritized needs of the people in 2019.

The District intends to spend a total of Seven Million, Six Hundred and Eighty-Three Thousand, Six Hundred and Two Ghana Cedis Seventy-Six Pesewas (GHC7,683,602.76) in the 2019 fiscal year comprising of GHC768,340.73 for Compensation, GHC2,797,059.82 for Goods and Services, and GHC4,118,202.21 for Assets.

1.1a Name and Establishment

The Krachi Nchumuru District is one of the 46 districts created in 2012. It was carved out of the then Krachi West District by Legislative Instrument 2084. It covers a land area of 2,969 Sqkm. The district has 128 settlements and Chinderi is the district capital.

1.1b Population

The District has a population of 72,688 in 2010 and with a growth rate of 2.5% per annum, the projected population for 2019 is 88,590. As at 2010 the other settlements that have assumed urban status are Chinderi, Borae, Banda, Bejamse, Grubi, Akaniem and Boafry/Anyinamae as compared to 2000, where only four settlements: Chinderi, Borae, Bejamse and Banda were the urban areas.

1.1c District Economy Agriculture

Agriculture is the main economic activity of the people of the district, with yam as the main crop. Thus, there are a number of Yam Buying Business Women and Men in the district. Other economic activities are fishing, farming, livestock farming, lumbering and commerce. Industrial activities are virtually absent in the district.

Water

Water is vital for human survival so various successive governments have implemented various policies aimed at improving the water coverage in the country. The District has water coverage of 60%. Data available indicates that there were 110 boreholes currently available in the District. Out of this a total of 79 needed rehabilitation. There are also three (3) pipe schemes. The expansion of Chinderi water system by the Government of Ghana was completed and the system is currently supplying potable water to Chinderi. What is much needed is rehabilitation of non-functioning boreholes.

Chinderi, Banda, and Borae have mechanized water system under the Small Towns Water Project. The aforementioned communities and their immediate surroundings enjoy pipe water from mechanized water supply system even though it is not without challenges. The smaller communities also have boreholes as their source of potable water. The Krachi Nchumuru District Assembly, Afram Plains Development Organization and World Vision Ghana are involved in the provision of boreholes to communities without potable water or communities with inadequate potable water source. They are also into the rehabilitation and maintenance of non-functioning boreholes. Some communities, especially those living along the lakes and streams/rivers, depend largely on either rivers/streams or the lake for their water needs such as drinking, bathing and washing of clothes.

Sanitation

The District has nine (9) central refuse containers located in three main towns: Chinderi, Borae and Banda. Only 35 households have access to dustbins or safe waste disposal containers while about 857 households has latrines in their homes. Most people in the district dispose both solid and liquid wastes in open spaces and near-by surroundings around their vicinity. There is a total absence of modern disposal facilities throughout the district. In areas where drains are in existence, they become a disposal facility for liquid waste. This District has only two main non- engineered waste disposal sites located in Chinderi and Banda.

Road Network

The District has two main trunk roads namely Borae-Dambai and Banda-Borae trunk roads and well distributed feeder road networks that if improve will facilitate easy transportation of foodstuffs to the market centers.

Education

There are 68 kindergartens, 68 primary schools, 31 Junior High Schools, one Vocational/Technical School and one (1) Community Senior High School. All the basic schools are divided into Four (4) educational circuits in the District.

Health Facilities

There are fifteen health facilities in the District. All of them are publicly owned except one private facility. The 15 Health Facilities consists of One (1) Mission Clinic, Five (5) Health Centers and Nine (9) CHPs.

Tourism

Tourism has been discovered to be the main driving force of economic growth in least developed economies. It has been cited to be the fourth foreign income earner in Ghana after cocoa, gold and non-traditional exports. Although the Krachi Nchumuru District has a strong tourism potential, yet to be fully developed so that it can contribute to the district's economy. The district has quite a number of potential tourist attractions. The most outstanding tourist attraction is River Oti, River Dakar and the Volta Lake, one of Ghana's largest and famous water bodies which can be used commercially for surfing or boat-cruising.

So far, the following are functional tourist sites that have been identified in the district.

S/N	Functional Tourism	Location
1	Kakrabi Festival	Anyinamae
2	Kosoe Festival	Grubi and Akaniem
3	Sonkor Festival	Bejamse
4	Yam Festival	Borae

The table below shows the potential tourism areas that is yet to be developed in the district.

Table 1.2: Tourism Potentials

S/N	Tourism Potential	Location
1	Cruising sports	Volta Lake, Oti River and River Darka

Source: DPCU (KNDA

The development of these tourism potentials has been constrained by lack of funds. The immediate development of these potentials as well as the provision of good roads, recreational facilities and accommodation should be the preoccupation of the District Assembly since it can contribute astronomically to the district's internal revenue generation.

2.3. Challenges and Constraints

The major challenges and constraints in respect of the implementation of the budget include the following;

- 1. No property valuation making it difficult to collect property rate.
- 2. There is no revenue data base for realistic revenue estimation.
- 3. Inadequate Internally Generated Fund due to inadequate revenue collectors and inability of the Assembly to undertake valuation of properties to enable us collect property rate
- 4. Delays in the payment to constructors and service providers due to untimely release of funds.
- 5. Lack of logistics and other resources such as vehicles for revenue mobilization
