Wassa East District Assembly

PART A: STRATEGIC OVERVIEW

1. ESTABLISHMENT OF THE DISTRICT

1.1 Location and Size

The Wassa East District Assembly was carved out of Wassa Fiase Mpohor District which was established in 1988 by LI 1385 and was re-established under Local Government Act, 1993, Act 462 in 2012 under Legislative Instrument (LI) 2018 which has now been replaced by the Local Governance Act 2016, Act 936. The Assembly currently has a membership of 32 made up of 21 Elected, 9 Government Appointees, a Member of Parliament and a District Chief Executive. There are four (4) Area Councils namely; Ateiku, Enyinabrim, Ekutuase and Daboase Area Councils

The Wassa East District is bordered to the North East and South East by the Twifo Hemang Lower Denkyira, Twifo Ati-Mokwa and Komenda Edina Eguafo Abrem Districts respectively. It also bounded to the North West by Prestea Huni- Valley and to the South by Mpohor and Shama District Assemblies respectively.

The District covers an area of about 1,334 square kilometers and has over 196 settlements.

POPULATION STRUCTURE

The District Population according to the 2010 Population census was about 83,763. However, using the Population Growth Rate of 2.1% as prescribe by the GSS, the District Projected Population as of December, 2016 would be about 98,914. This is made up of Females population being about 48,962 representing 49.5% while the Males population is about 49,952 representing 50.5 % **(Source: Ghana Statistical Service)**.

About 53.5% of the population falls within the economically active group (i.e. 15-64)

Although the next Population and Housing Census would be conducted in around 2020 to get the District's population, it can be seen from the above projected population of the District that the population of the district continues to increase.

Poor attitude towards birth control, high illiteracy level coupled with inadequate knowledge of the implications of keeping large families as well as immigration into the District are some of the contributing factors that would have contributed to this phenomenon.

2. VISION

The vision of the District is "A model District that provides responsive socio-economic services for the benefit of its people."

3. MISSION

The Assembly exists to mobilize financial human and material resources to pursue policies, programmes and projects with honesty, diligent and commitment in order to improve the quality of life of the people in the District.

4. GOALS

The broad goal of the District "Creating wealth through enhanced access to basic socioeconomic services towards accelerated growth"

5. CORE FUNCTIONS

Core Functions of the Wassa East as Stipulated in the Local Governance Act, 2016, Act 936 include the following;

Ensure the preparation and submit through the Regional Coordinating Council for approval the District Development Plans to the Commission and the District Budget to Minister.

Wassa East District Assembly

- Guide, encourage and support sub-district local structures, public agencies and local communities to perform their functions in the execution of approved development plans
- Responsible for the development, improvement and management of human settlement and the environment in the district
- Formulate and execute plans, programmes and strategies for the effective mobilization of the resources necessary for the overall development of the district
- Monitor the execution of projects under approved development plans and assess and evaluate their impact on the development of the district and national economy in accordance with government policy

6. DISTRICT ECONOMY

a. AGRICULTURE

The District is predominantly dominated by agriculture with about 71.5% of the active population engaging in farming. The major food, livestock and cash crops produced in the District include cassava, cocoa, rubber, coconut and oil palm. The other agricultural activities includes fishing in the Pra River, livestock farming and lumbering.

b. MARKET CENTER

The District has various satellite markets while the market centers at Daboase, Ateiku and Senchem needs to be improved to help improve revenue generation. The Assembly has initiated processes to involve private investors in completing the Daboase Market Stores and Offices to help make the Daboase Market a very vibrant Market. The Assembly has also initiated processes to improve the facilities at the other two markets centers at Ateiku and Senchem for improved participation by citizens. During market days, the people in the District who are mostly farmers bring their foodstuffs and other agriculture produce to the market centres for sale. Other traders from outside the District bring other goods and services to the markets to trade in

ROAD NETWORK

The total Kilometers of roads in the District is about 202Km with about 106 Km tarred; 96 Km was done under the Cocoa Road Project between 2015 – 2016 while 11 Km under the Cocoa Road is still under construction between Domama and Amponsaso. Feeder roads links most of the communities but most of these roads sometimes become bad and difficult to use during the rainy seasons and need constant reshaping and rehabilitation. Some of the roads liking some communities requires construction. Transport services are provided by the Ghana Private Road Transport Union while tricycles assist in carting goods and people from communities which roads are not easily motorable

EDUCATION

The District has 6 Educational Circuits managing 121 Pre-schools, 119 Primary, 68 Junior High School, 2 Senior High Schools with one being Private. There are 6,854 Pupils benefiting from the School Feeding Programme in 23 schools.

The BECE performance from 2016-2018 are as follows;

<u>Year</u>	<u>% Performance</u>
2016	53.0
2017	98.8
2018	91.3

c. HEALTH

There are 30 health facilities comprising of two (2) hospitals (Private), Two (2) Health Centers, four (4) Clinics, Nineteen (20) CHPs Compounds and two (2) Maternity Homes in the District. The District has three (3) Doctors and Sixty-One Nurses. The Doctor to Patient ratio currently stands at 1:32,555 while Nurses to Patient ratio stands at 1:2,668. Malaria continues to top the chart for the top ten reported cases in the District in terms of OPD attendance and death. Blackflies which causes blindness is also a threat in the District while recent data collected on

the People with Disabilities indicates that epilepsy sickness in on the increase which requires an in-depth research to know the causes of increase in the sickness in the District.

d. WATER AND SANITATION

The main source of water for drinking are Borehole/Hand dug well, Small Town Water Piped System and Pipe-Borne Water. Percentage of the population with access to safe water supply is about 71.1%. There are 242 boreholes and hand dug wells and 5 Small Town Water Piped System serving over 138 communities in the District.

e. ENERGY

Energy for that matter electricity is one of the key pillars for economic growth and development. Connecting Communities to the National grid would enhanced the effective functioning of Small and Medium Scale Enterprises that would help boost the local economic activities. Currently the electricity coverage is about 65.31% covering about 128 Communities out of the 196 Communities have been connected to the national grid in the District whiles remaining Communities are still not connected.

The Assembly is in the process of engaging stakeholders on Pay-As-You-Dump Policy to ensure efficient and effective Waste Management in the District to avoid the outbreak of any waste and sanitation related diseases. Stakeholders are also being sensitized to provide toilet facilities in their various houses while the Assembly is making efforts to provide institutions with latrines

Waste Management remains a challenge to the District Assembly particularly sachet water products. This is due to inadequate funds, logistics and environmental health staff to effectively manage waste in the District. Refuse Disposal in most communities in the District is still at the crude stage where solid and liquid wastes are dumped in the open at designated sites. In the light of this, the District in collaboration with Zoomlion Ghana Limited, a Private Waste Collection and Management Company has embarked upon a regular or daily cleaning of major towns particularly Area Councils' Capitals to rid it of

Wassa East District Assembly

waste. However there is the need for the District Environmental Unit staff to be augmented for monitoring of activities and to also summon before Court Persons who may not keep their surroundings clean.

7. KEY ACHIEVEMENTS IN 2019

PART A: STRATEGIC OVERVIEW

INTRODUCTION

1. ESTABLISHMENT OF THE DISTRICT

The Asunafo South District is one of the 6 (6) District/Municipal Assemblies in the Ahafo Region of the Republic of Ghana. The Legislative Instrument 1773 in line with government's objective of deepening decentralization established the district in November 2004. The district capital is sited at Kukuom.

2. POPULATION STRUCTURE

According to the 2010 Population Census of Ghana, the population of the district is 95,580. Given an annual growth rate of 2.6% per annum, the figure currently is estimated at 117,449 using geometric growth method.

The district's current population growth rate of 2.6% is higher than that of Regional rate of 2.5% but lower than the national rate of 2.7%. Kukuom, the district capital has the largest population of 8,742. Only Kukuom and Sankore have population above 5000 where more facilities and service are located. All other settlements have their population below 5000. This shows that the district is rural in nature with scattered settlements. The males form about 50.3% of the estimated total population of the district. This is in line with the regional figures, but deviates from the national figures where females constitute about 51% of the population. The total land size of the district is 3737 km² with 268.53 km² covered by forest reserves. This area forms about 3.1% of the total regional land area of Ahafo.

3. DISTRICT ECONOMY

The economy of Asunafo South District is made up of agriculture, industry, commerce and the service sectors. Agriculture is the predominant economic activity. However, this is done largely at the subsistence level except cocoa, which is primarily for export. The industrial sector is made up of few agro-processing facilities, while the commercial and the service sectors consist of trading in manufactured goods, foodstuffs and the rendering of services like hairdressing, transportation and other footloose businesses. About 61.1% of the labour force is employed in the agricultural sector, 8.4% in industry with the commercial and service sector absorbing 11.7%. The number of people employed in the agricultural sector gives an indication of the rural nature of the district. This also implies that any intervention in the agricultural sector stands to benefit majority of the people. The agricultural sector thus deserves a lot of attention.

AGRICULTURE

Agriculture in the district is still at the rudimentary stage relying basically on hoes, cutlasses and rainfall. Shifting cultivation, bush burning and bush fallowing are the common farming practices used by farmers. Farmlands are mostly acquired through share cropping (Abunu/Abusa). This forms about 16.4% of acquisition of farmlands in the district. The other forms of land acquisition are leasehold (10.5%), freehold/outright purchase (13.2), while over half (58.8) of farmlands in the district are in family land. Farm sizes are small. Averagely, farm sizes ranges from 1.5 - 2 acres for food crops and five acres for cocoa.

MARKET CENTRE

Commodity flow analysis is intended to establish the commercial or economic interactions within the Asunafo South District and between those outside in terms of the nature of goods and direction of flow to and from the three main periodic markets of Kukuom, Sankore and Kwapong. Goods involved are classified into agricultural and industrial.

Within the district, Kukuom, Sankore and Kwapong still serve as major periodic markets. Agricultural produce are conveyed from all places and settlements within the district to these market centers. These are made up mainly of foodstuffs such as plantain, cassava, cocoyam, yam, maize, okro, pepper etc. Conversely, endogenous outflows consisting of industrial goods move from the periodic markets especially from the Sankore market to all nooks and crannies of the district.

On the other hand, exogenous inflows into the district are made up mainly of industrial goods. Other exogenous inflows include fish products, meat and species of yam which are not readily available or produced in large quantities in the district. Exogenous outflows from the district include agricultural goods. Both the exogenous inflows and outflows analysis shows that the major trading partners of the district in terms of directions of movements of 'exports' and 'imports' are Accra, Kumasi, Goaso, Mim, Tepa, Sunyani and Techiman. In addition, within the district, the Kukuom and Sankore markets serve as the main points of departure of goods from the district and destinations for goods arriving into the district.

From the foregoing, it is observed that goods that are 'imported' into the district are largely industrial goods attracting higher values. On the other hand, agricultural goods constitute the bulk of goods 'exported' from the district. These are usually in their raw states with less value, which do not yield much returns to the district. From this perspective, the district is bound to register deficit net trade balance. This situation

accordingly calls for the setting up of agro-based industries to add value to the agricultural goods produced and exported from the district.

ROAD NETWORK

The district has about 70km-tarred roads, connecting the major towns with over 200km feeder roads linking the farming communities. Following the government's policy of ensuring easy access of products to and from market centers, the Assembly as the final policy implementer has also intensified upgrading of its feeder roads with the help of Assembly's own acquired Grader. Almost all the roads within the district capital, Kukuom are tarred.

EDUCATION

The Assembly spends quite a high proportion of its inflows on the provision of educational infrastructure. The categories are Nursery/Kindergarten :(public-81 & private 25), primary schools :(public-81 & private 25), junior high schools: (public-65 & private-5), Senior high schools :(public-2): Tertiary institution: Kwapong NTC. The District Health Directorate currently has 52 staff (both teaching and non-teaching staff)

However, the Assembly has completed about 3 classroom blocks and 11 ongoing projects. The BECE pass rate is shown in the table below:

YEAR	BOYS%	GIRLS%	AVE TOTAL%
2016	76.3	74.1	75.3
2017	55.26	58.16	56.5

HEALTH

The District Health Directorate has 23 Health facilities under its jurisdiction as shown in the table below:

WATER AND SANITATION

The current water delivery system in the District is a serious development challenge that requires an urgent intervention.

"Water is life" as they say, but the problem of water in the Asunafo South District has become acute and is well known in the national level which urgent steps, concern and

2020 composite budget - Asunafo South District

support are needed by all stakeholders to reverse this trend. Access to food and water are fundamental human rights, which should be prioritized for all to access for a healthy livelihood.

The availability of and accessibility to improved water is a crucial aspect of the health of households members.

Water Provision and Management

The provision and management of potable water has not been an easy task to the Assembly. The Assembly is currently faced with a number of challenges in its quest to make water accessible to the people. The challenges range from human to natural factors:

- Most water sources dry-up in the dry season, compelling people in those areas to revert to drinking from unwholesome sources, which make them vulnerable to water related diseases.
- The boreholes breakdown constantly because of excessive pressure coupled with the inability of communities to raise enough money for replacement and general maintenance.
- Even though wells appear to be the major source of water, they are mostly left unprotected. As a result, run-offs trickle down into such unprotected wells making them unsafe for human consumption.
- Because of the limited number of water points, coupled with the general low water table in the District, women spend much of their productive hours in search of water to undertake their domestic chores. Children, and especially the girls, are mostly found helping their mothers to draw water at the expense of their education.
- For economic reasons, most consumers of the pipe system in the District have serious difficulties in paying their water bills. This adversely affects the operation and management of the facility.
- Administratively, the provision and management of water services are hampered by inadequate logistics, transport and remuneration for office and field staff.

In an effort to improve upon people's access to potable water, the Assembly has collaborated with a number of development partners in the provision of potable water in the District. These partners include the Ghana Water Company Limited (GWCL), Community Water and Sanitation Agency (CWSA), and World Vision – Ghana, among others. The District health management team has complimented these efforts by educating people to keep water sources clean and safe. They also assist in detecting and treating water-borne diseases. Community ownership and management is also being promoted to enhance the sustainability of existing water facilities. Communities that have benefited from some form of water infrastructure, especially boreholes are

being trained and provided with basic tools, equipment to undertake regular servicing, and maintenance of their water facilities.

Sanitation and Waste Management

Waste management in the District is far from been desirable. The disposal of both solid and liquid waste, including human excreta, storm water and household refuse are poorly carried out in the District. Though some households bury or burn their refuse, majority use the open surface system for their waste disposal. It is a general practice for people in most communities to defecate in the bush or openly (free range), mainly due to lack of access to convenient toilet facilities.

Where either households or the DA provides toilet facilities, there is however, a problem of timely and regular disposal of human excreta due to the unreliability of the only septic emptier in the District.

Most communities in the District do not also have any proper drainage system. The inadequacy of proper household drains has led to the accumulation of stagnant water with offensive smells in and around residential areas. Drains are choked with filth giving rise to mosquito breeding especially during the rainy season.

ENERGY

The commonest source of energy for domestic purposes is firewood and charcoal. These are used mainly for cooking, baking and smoking of fish. Other energy sources are fuel used mainly to power water pumps, spraying machines for crops, generators and for vehicles. Some communities in the district also have access to electricity. However, majority of the communities are to be connected to the National electricity grid. Now about 95 percent of communities in the district have access to electricity. There is currently the supply of solar lightening within the deprived communities.

4. VISION OF THE DISTRICT ASSEMBLY

The vision of the Asunafo south district Assembly is to have a district in which the people attain high standard of living through improvement in socio-economic services in a highly decentralized and democratic environment.

5. MISSION STATEMENT OF THE DISTRICT ASSEMBLY

The Asunafo South District Assembly exists to harness all available resources within its area of jurisdiction to maintain excellence in education, agricultural production and local participation in governance to improve the standard of living of the people.

6. KEY ACHIEVEMENTS IN 2019

The District has chopped the following achievements:

AGRICULTURE

- Purchase and Distribution of 5000 pieces of Coconut Seedlings
- Distribution of Rice Seedlings
- Distribution of Coffee Seedlings

EDUCATION

- Completed a 6 Unit Classroom Block with Store, Office Facility and 400 Unit of Dual Desk at Kukuom Presby Primary
- Completed a 3Unit Classroom Block with 4 Seater KVIP at Kukuom Methodist Primary
- Extension of the Male Hostel and a 3 Unit teachers Quarters at Kwapong Nursing Training College

HEALTH SECTOR

 Completed a CHPs Compound with 4 Seater KVIP, a Urinal and Mechanised Borehole at Pafo Nkwanta

WATER SYSTEMS

Constructed a Hand Dug well with Hand pump at Yankye Abisim and Abuom Manhyia

TELECOMMUNICATION

Installation of GIFEX Network at Kokooso, Mintumi, Tetekwao and Dwrowakro

BUDGET PROGRAMME SUMMARY

PROGRAMME 3: SOCIAL SERVICES DELIVERY

1. Budget Programme Objectives

- To provide equal access to quality basic education to all children of school going age at all levels
- To improve access to health service delivery.
- Facilitate in the integrating the disadvantaged, vulnerable and excluded in mainstream of development.
- Works in partnership in the communities to improve their well-being through promoting social development with equity for the disadvantaged, the vulnerable, persons with disabilities and excluded.

2. Budget Programme Description

Social Service Delivery is one of the key Programmes of the Assembly. This programme seeks to take an integrated and holistic approach to development of the District and the Nation as a whole. There are four sub-Programmes under this Programme namely: Education and Youth Development, Health delivery and Social Welfare and Community Development.

The education, Youth and Sport Department of the Assembly is responsible for pre-school, special school, basic education, youth and sports, development or organization and library services in the district. The department therefore assists the Assembly in the formulation and implementation of programmes in such areas of education and youth development.

The Department of Health in collaboration with other departments assist the Assembly to deliver context specific health care interventions by providing accessible, cost effective and efficient health service at the primary and secondary care levels in accordance with approved national policies by ensuring prudent management of resources.

The Social Welfare and Community Development Department assist the Assembly to formulate and implement social welfare and community development policies within the framework of national policy.

Extreme poverty continues to work against the economic gains that Ghana has chalked over the past two decades. It is estimated that about 10% of Ghanaians live under extreme poverty conditions. This means that they are neither able to afford daily subsistence requirement nor afford education and basic health for themselves and their children.

2020 composite budget - Asunafo South District

This phenomenon perpetuates generational poverty. In order to ensure equitable distribution of national resources and mainstreaming of the extremely poor, Government developed and started implementing the National Social Protection Strategy (NSPS) in 2007. In Asunafo South District, 200 households are benefitting from conditional and unconditional cash transfer under the Livelihood Empowerment against Poverty (LEAP) Programme; a component of the NSPS. Extremely poor Older Persons above 65 years have been enrolled onto the LEAP and are entitled to unconditional cash transfer.

The total number of personnel under this budget Programme is 1,659.

BUDGET PROGRAMME SUMMARY

PROGRAMME 5: ENVIRONMENTAL AND SANITATION MANAGEMENT

1. Budget Programme Objectives

• To plan and implement programmes to prevent and/or mitigate disaster in the District within the framework of national policies

2. Budget Programme Description

The programme will deliver the following major services:

- Organize public disaster education campaign programmes to: create and sustain awareness of hazards of disaster; and emphasize the role of the individual in the prevention of disaster;
- Education and training of volunteers to fight fires including bush fires, or take measures to manage the after effects of natural disasters;
- Assist in post-emergency rehabilitation and reconstruction efforts in the event of disasters;
- In consultation and collaboration with appropriate agencies, identify disaster zones and take necessary steps to; educate people within the areas, and prevent development activities which may give rise to disasters in the area;
- Post disaster assessment to determine the extent of damage and needs of the disaster area;
- Co-ordinate the receiving, management and supervision of the distribution of relief items in the district;
- Inspect and offer technical advice on the importance of fire extinguishers;
- The Disaster Management and Prevention Department will be responsible in executing the programme.

BUDGET SUB-PROGRAMME SUMMARY

PROGRAMME5: ENVIRONMENTAL AND SANITATION MANAGEMENT

SUB-PROGRAMME 5.1 Disaster prevention and Management

- 1. Budget Sub-Programme Objective
 - To enhance the capacity of society to prevent and manage disasters
 - To improve the livelihood of the poor and vulnerable in rural communities through effective disaster management, social mobilisation and income generation.

2. Budget Sub-Programme Description

The sub-programme seeks to promote disaster risk reduction as well as climate change risk management. It is also to strengthen Disaster Prevention and Respond mechanisms of the District. The sub-programme is delivered through public campaigns and sensitisations; assisting in post-emergency rehabilitation and reconstruction of efforts; provision of first line response in times of disaster and; formation and training of community-based disaster volunteers. The Disaster Management and Prevention Department is responsible for executing the sub-programme. The larger public at the community levels are the beneficiaries of this sub-programme. Funds will be sourced from IGF, DACF and Central Government supports. Challenges which confront the delivery of this sub-programme are lack of adequate funding, low and unattractive remunerations, and unattractive conditions of work. In all, 16 NADMO officers will carry out the sub-programme.

3. Budget Sub-Programme Results Statement

The table indicates the main outputs, its indicators and projections by which the District measures the performance of this sub-programme. The past data indicates actual performance whilst the projections are the District's estimate of future performance.
