## EXECUTIVE SUMMARY

The Ejisu Municipal Composite Budget Statement for the 2022 fiscal year draws its authority from the Local Governance Act, 2016, (Act 936). Other public financial laws and regulations (Act 921 & others) are of relevant legal reference for the preparation of this Budget. Section 123(1&2) of Act 936 mandates Metropolitan, Municipal and District Assemblies (MMDAs) to prepare and submit a Composite Budget for the prosecution of its development programme for each ensuing fiscal year. The Composite Budget, an amalgam of all departmental budgets of the assembly, essentially seeks to ensure that funds transferred to the Assembly are strategically and functionally applied in strict accordance with the Assembly's aspirations as codified in its objectives for fiscal prudence in the management of public funds at the local level.

This Programme Based Budget approach by Medium Term Expenditure Framework (MTEF) is prepared based on the 2022 Municipal Composite Action Plan, an extract from the Municipal Medium Term Development Plan (MMTDP) for 2022-2025 period. The MMTDP is in line with relevant Sustainable Development Goals(SDGs). Per the Programme Based Budget approach, the Budget is anchored on five programmes: Management & Administration, Social Services Delivery, Infrastructure Delivery & Management, Economic Development and Environmental Management. These Budget Programmes are premised on fifteen (15) Budget Sub-Programmes including, among others, General Administration, Planning, Budgeting, Monitoring and Evaluation and Statistics, Finance and Audit, Human Resource Management, Environmental Health and Sanitation Services, Education, Youth & Sports and Library services, Physical and Spatial Planning Development, Public Works, Rural Housing and Water Management, Roads and Transport services, Trade, Tourism and Industrial Development, Agricultural Services and Management, Natural Resource Conservation and Management and Disaster Prevention & Management.

An analytical review of the Assembly's Financial Reports as at July 31, 2021 by the Municipal Budget Committee revealed a provisional nominal budget performance of 27.83% (GHC 3,587,349.58) of GHC12,891,333.81 in provisional actual revenue returns. A review of rates, fees, fines, licenses and other charges was undertaken in consultation with levy stakeholders in the Municipal. Consequently, a draft budget proposal by the Budget Committee was thoroughly considered by the Finance and Administration (F&A) Sub-Committee of the Executive Committee. The Budget Report of the F&A Sub-Committee was then considered by the Executive Committee of the General Assembly. A Municipal Budget Hearing was held for the General Public's inputs and appreciation. The General Assembly finally considered and approved the budget statement for implementation in the 2022 fiscal year on Thursday, October 21, 2021. The incremental forecasting technique was employed in the projections of the revenue and expenditure with appropriate pragmatism.

This Budget Statement will be financed through the Government of Ghana transfers (GoG) - GHC4,132,932.48 (28.38%), Internally Generated Fund (IGF) - GHC2,864,114.60 (19.67%), District Assemblies' Common Fund (DACF) - GHC5,969,250.16 (41.00%), District Assembly Common Fund Responsiveness Factor Grant (DACF-RFG) - GHC1,285,398.50 (8.83%), Donor Support Funds (CIDA) - GHC159,000.00 (1.09%) and other transfers (World Bank) - GHC150,000.00 (1.03%). This total budget of GHC14,560,695.74 will be applied on the payment of Employees' Compensation - GHC4,270,674.48 (29.33%), Procurement of Goods and Services

- GHC6,120,419.05 (42.03%) and the acquisition of Assets/Infrastructure - GHC4,169,602.21 (28.64%) in the 2022 fiscal year.

## **PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY**

### **ESTABLISHMENT OF THE DISTRICT**

The Ejisu Municipal Assembly (EMA) was established by Legislative Instrument LI (2297), 2017 and inaugurated in 2018 in pursuance of governments decentralization programme. The legal framework has empowered EMA with legislative responsibilities to promulgate by-laws to give legal backing to its decisions.

Section 122 of the Local Governance Act 2016, Act 936 envisages the implementation of the composite budget system under which the budgets of the department of the District Assembly are integrated into the budget of the District Assembly. The Composite Budget of the Ejisu Municipal Assembly for the 2022 Fiscal Year has been prepared in line with the objectives of the National Development Policy Framework and the Budget Guidelines provided by the Ministry of Finance.

### **Structure of the Assembly**

The Ejisu Municipal Assembly was established by the Local Government (Establishment) Instrument 2297 (2017) having been established earlier as part of Ejisu-Juaben Municipal Assembly through the revoked Local Government Law (PNDC Law 2007). It derives its authority as the highest administrative and political body exercising deliberative, legislative and executive functions in the Municipal Assembly from the Local Governance Act 2016, Act 936 (specifically Section 3 of Act 936). The Assembly operates an eight-tier structure with vertical linkages between the various hierarchies and a consultative relationship between units on the same level. There is the Municipal General Assembly at the apex; the Executive Committee is at the second level. Following is the Municipal Chief Executive who is a nominee of the President subject to the confirmation of the Assembly. The Municipal Chief Executive is the chairperson of the Executive Committee and also the political and administrative head of the Municipal Assembly. The Municipality is divided into five (5) zonal councils with a total of ninety-three (93) communities and twenty-eight (28) electoral areas. The Assembly has forty-two (42) Assembly members made up of twenty-eight (28) elected and twelve (12) appointed members, one Member of Parliament and the Municipal Chief Executive.

### Location and Size

It lies within latitude 1.37 degrees and 1.54 degrees North and longitude 6.6degrees and 6.79 degrees West. The capital, Ejisu is approximately 17km from the regional capital, Kumasi. It covers an approximate area of 238km square and shares boundaries with Kwabre East Municipal to the North-West, Juabeng Municipal to the North-East, Bosomtwe District to the South-West and Oforikrom Municipal to the West.

### Map of Ejisu Municipal

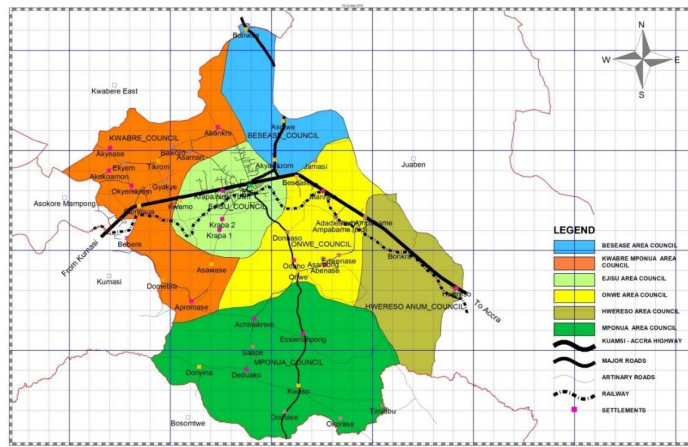

Figure 1: Structural Map of Ejisu Municipal Assembly

### POPULATION STRUCTURE

The 2010 National Population Census put the population of the Municipality at 115,335 comprising 55,130(47.8%) males and 60,205(52.2%) females. With an average 2000–2010 intercensal growth rate of 2.3%, the EMA will have an estimated population of 148,750 by 2022. The municipality has become a “dormitory” of the Kumasi metropolis as large number of people live in the municipal area but commute to Kumasi to work. The Ejisu Municipal has 39.8% of its population within the ages of day one (1) and fourteen (14) consisting of 20.2% males and 19.6% females. This shows that the municipality has more youthful population. The ages of 15 to 64 also accounts for 58.3% which is the active population. This gives the Municipality the pool of labour to support developmental activities.

## MUNICIPAL ECONOMY

The local economy exemplifies the national macro economy. Even though it is agriculture dominated, it is increasingly becoming service and commerce based.

### a. Agriculture

Agriculture dominates the local economy by the greater number of the people it employs, with about 87.2% of the people engaged fulltime. There are two main types of agricultural practices in the Municipality, namely, crop farming (food and cash crops farming) and animal husbandry. Most households practice a mixture of the two. However, majority of farmers (more than 90%) are food crop farmers. Some of the produce include cereals such as Maize and tubers such as Cassava, Cocoyam and Yams. The area is also conducive for livestock production such as poultry, sheep, goats and pigs.

The strategic location of the Assembly has made it a preferred destination when it comes to trading of farm produce, as there is always fresh produce readily available for the market women who travel from neighbouring towns like Kumasi and Konongo etc, with some coming from as far as Accra, in the Greater Accra region to buy the farm produce and other foodstuffs and grains on market days to their respective places.

### b. Financial Services

There are twelve financial institutions in the Ejisu municipality namely Ghana Commercial Bank, Juaben Rural Bank, Best Point, Agricultural Development Bank, Yaa Asantewaa Rural Bank, Consolidated Bank of Ghana, Multi credit, Quick credit, Abenase Cooperative Union,

Kumawuman Rural Bank, Ramsey credit union, Adansi Rural Bank and Assemblies of God credit union. The presence of these financial institutions are to mobilize and make credit available to small and medium scale enterprises in the Municipality and create job opportunities for the youth.

### c. Road Network

Apart from the tarred trunk road that links the district capital to the rest of the communities in the district, most roads are feeder roads. The focus of the Assembly has been to develop access roads and rehabilitate feeder roads in the municipality to facilitate easy transportation of goods and services to the market centres and to other towns. The municipality has an estimated feeder road network of 184.7 km with 62% in good condition. The municipality has 163km tarred road network which is made up of the Accra-Kumasi highway the Ejisu-Effiduase road, Ejisu-Onwe-Kuntense road, and the Nobewam-Bomfa-Kuntense road which are all bitumen surfaced.

The Municipality is however one of the food baskets in the Ashanti Region but due to the poor nature of the road network, vehicles and humans find it difficult to reach out to some communities. The Assembly would have to develop and rehabilitate several feeder roads to enhance accessibility in the Municipality. This will facilitate easy transportation of farm produce to the market centres of many communities and also encourage farmers to work harder if they have ready market for their produce.

### d. Energy

Energy is very crucial in the development of an area. The three main sources of lighting in dwelling units in the Municipality are Electricity 69.4 percent, followed by flash light/touch (16.5%) and kerosene lamp (11.5%). The main source of fuel for cooking for most households in the Municipality is Wood (44.5%). Most communities are connected to the National Grid.

### e. Health

The Municipality can boast of twenty-eight (28) health facilities (Clinics, hospitals and CHPS) located at 25 communities. There are nine (9) public health facilities located at Achiase, Ejisu, Fumesua, Kwaso, Onwe, Peminase, Tikrom, New Koforidua and Nkerapoaso. Again, the private health facilities are thirteen (13) in number while the missionaries constitute six (6) in numbers. The Doctor-patients ratio of the Municipality is 1:7,616 and Nurse - Patient ratio is 1:936 while the Mid-wife - Patient ratio is at 1:2,220. The total staff strength stands at 948. There are twenty-eight (28) health facilities in the municipal as described in Table 1.1 below.

**Table 1.1: Health Facilities**

TYPE OF FACILITIES	NUMBER-28
Hospital	9 (Govt -2, CHAG – 4, Private - 3)
Health Centres	2 (all Govt)
Government Maternity Home & Clinic	2
Private Maternity Homes	11
Mission Clinics	1
Community-based Health Planning & Services (CHPS) Compound	3

**f. Education**

The municipality can boast of 1 private university and a vocational institute. There are 137 Kindergarten(KG) schools: 56 public and 81 private. There exist 136 primary schools made up of 56 public and 80 private schools. There are 52 public Junior High School(s)(JHS) as against 41 private ones. Amongst 6 Senior High Schools, 1 is privately managed. There exists 2 TVET institutions. Pupil-Teacher Ratio (PTR) in 2020 for KG, Primary, JHS and SHS is 29:1, 27:1, 15:1 and 26:1 respectively. Net Enrolment Rate (NER) for KG level increased from 98.1% in 2019 to 98.3% in 2020. The NER target for the JHS level increased from 72.2% in 2019 to 72.8% in 2020 whilst Primary school level increased from 114% to 116%. Factors such as the School Feeding Programme and the capitation grant largely account for the increase in the NER. The achievement of the female NER target is also indicative of an increasing interest in girl child education.

**g. Services Sector**

The service sector ranks second to agriculture in terms of the number of people it employs. This sector includes education, health, banking, hospitality, tourism, trade, ICT, etc

**h. Market Centres**

Commercial activities are enhanced by periodic markets that are scattered all over the Municipality. The Municipality has three main market centres, notably, the Ejisu market, Onwe market and Abenase market, with two new markets constructed for the Kwaso and Asotwe communities. These market centres constitute one of the major sources of revenue to the District Assembly. However, the market infrastructure is poorly developed with limited space for market women to trade, absence of sweepers to keep the markets clean, and potholes which makes trading difficult when it rains, especially in the Ejisu market. The main market, the Ejisu market, is very vibrant on Tuesdays, Thursdays and Sundays which serve as market days, thereby attracting traders from all over the Municipality and other Municipalities. Since the Ejisu market is along the Accra-Kumasi Highway, market activities can be visibly seen by travelers who would want to stop over to purchase some foodstuffs and other commodities.

**i. Water and Sanitation**

The main sources of water in the Municipality are borehole, river stream, public tap and pipe borne water. However, more than half of the households in the Municipality (60.9%) drink water from boreholes. Sanitation is another crucial area that is not developed and well managed. The few facilities presently available are grossly inadequate. The most widely method of solid waste disposal is by public dump in the open space accounting for 65.0 percent. About one in ten households (4.4%) dump their solid waste indiscriminately. House to house waste collection accounts for 1.3 percent. For liquid waste disposal, throwing waste onto the compound (34.9%) and onto the street (43.4%) are the two most common methods used by households in the Municipality. About 6.4 percent of the population in the Municipality has no toilet facilities. Zoomlion company is in the District helping to manage the situation, but they need to be well equipped to enable them work better for the desired result.

**j. Tourism**

The Municipality has Kente Industry at Bonwire which serves as tourist attraction to many foreign visitors and a historic museum at the municipal's capital (Ejisu) called Yaa Asantewaa Museum. The beautiful Bobiri Forest reserve with its butterfly sanctuary cannot be left out.
