District Economy

Agriculture

The economy of the Sene West district is predominantly agricultural. The other industries in order of importance are wholesale, retail, service and manufacturing. The district is endowed with vast arable land which is conducive for the cultivation of crops such as maize, yam, cashew, cassava, groundnut, cowpea, watermelon, mangoes, plantain, cocoyam, vegetables and other non-traditional crops such as pineapple, cabbage, carrot, sweet potato, and soybeans.

Health

There are thirteen (13) health facilities in the district. One district hospital, three private clinics, one herbal clinic and eight CHPS compounds. These facilities are not only inadequate but also ill equipped to serve the district. About 61.54% of health facilities in the district are CHPS compounds, 23.08% are clinics, hospital and herbal represent 7.69%.

About 41% of clinical health staff in the district are enrolled nurses, followed by 32% registered general nurses and 11% midwives. We have three (3) doctors in the district representing 0.63% of the clinical staff in the district.

Doctor to population ratio is 1:23279, this means that one doctor is to 23279 people. Nurse to population ratio is 1:177, meaning one nurse is to 177 people.

Education

There are 113 schools in the district. 90 are public and 23 are private schools. Out of the 90 public schools there are 57 kindergarten and primary schools, 32 junior high schools and 1 senior high school. Public schools represent 79.65% while the private schools represent 20.35% of the schools in the district.

There are 1,112 teachers in the district. Out of the total, 724 are males and 388 are females. Teacher to pupil ratio in the district is 1: 19.

Market Centres

The district has one weekly major market center located at Kwame Danso the district capital and Wednesday is its market day. Other minor market centers are located at Kyeamekrom, Lemu, Tato Bator, Mframa and Bantama. These markets are patronized by traders from as far as Kumasi, Takoradi, and Accra. Major items sold in these markets include yam, rice, groundnut and fish, all of which are produced in the district. Manufactured items from outside the district are also sold in these markets. One main problem is the poor condition of the roads. The situation is worse during the rainy season.

Water and Sanitation

The major sources of water supply in the district are pipe -born water, boreholes, protected wells, unprotected well and rivers/streams, dugouts/ponds/lakes/dams. On the whole, 100 communities out of the 138 communities (representing 73%) have access to potable water. However, going by the United Nations (UN) requirement of 300 people to a borehole, the water supply is woefully inadequate as the best community in terms of adequacy of water supply has a ratio of one borehole to over 400 people.

Key Issues/Challenges

The following have been identified as key development issues in the district;

- Inadequate access to electricity
- Poor Road Conditions
- Inadequate health infrastructure
- Inadequate educational infrastructure
- Inadequate employable skills
- Inadequate access to portable water
- Poor sanitation and waste disposal
- Insecurity as a result of armed robbery (high cost of security management.)

Revenue Mobilization Strategies

The Assembly has adopted a strategy of mobilizing revenue, especially for areas that have not performed very well in the past. This strategy is aimed at improving the mobilization of Internally Generated Funds (IGF)

Introduction

There is growing demand and agitation on District Assemblies to provide basic infrastructure and deliver an improved municipal service in the district to bridge the gap in service delivery as well as improve the well-being of the people.

The Sene West District Assembly relies on central government transfers for its development expenditure. The dwindling and central government transfers coupled with poor revenue mobilization make it difficult for the Assembly to provide the needed development as well as provide basic municipal services.

It has therefore become imperative to develop the capacity and a strategy for revenue mobilization in the district.

The Assembly has a good revenue potential which when harnessed well could turn the economic fortunes of the District around. However, these potentials have not been or are partially tapped, in addition to inefficiencies recorded in the revenue landscape.

This has had a toll on service delivery, brought about mistrust between the citizens and local government officials and increased the reliance on Central Government transfers.

To mitigate the gap in revenue mobilisation and collection, there is the need to roll out comprehensive and complementary strategies that will strengthen capacity of the Assembly to improve the revenue base and performance, reduce the reliance on central government transfers which are currently dwindling and erratic in disbursement.

As a result of the above, the Assembly has developed a Revenue Improvement Action Plan (RIAP) as a strategic document for revenue mobilisation.

Objectives.

The main objective of developing a Revenue Improvement Action Plan (RIAP) is to support the District Assembly's efforts at improving mobilisation and management of locally generated revenues by outlining practical suggestions on potential interventions, activities, timelines and resources required to implement the interventions.

Expectations.

To stimulate positive responses to influence and increase local revenue mobilisation and collection to meet the demand for service delivery that are not adequately covered by central government transfers as well as create the needed awareness for prompt and voluntary payment of levies.

Sources of Revenue in the District.

Section 124 (3) of Act 2016, Act 936 provides for IGF of a District Assembly as follows:

- (a) Licences (Section 137 to 140 backed by Schedules 8 and 9);
- (b) Fees and Miscellaneous charges (Section 141 and detailed in Schedule 11);
- (c) taxes (Section 142 and detailed in Schedule 12);
- (d) investment income (Section 143); and
- (e) rates (Sections 144 to 169).

The Assembly's IGF is mainly from the above sources. However, license and fees contribute over 60% of total IGF collection over the years with rates and fines being the least performing revenue items which contributes less the 5% of collection.

The table below represents the performance trend since 2022

Strength for Revenue Mobilisation

The following are some of the issues identified as strength to support an improved revenue mobilisation:

- Revenue mobilisation at the District Assemblies is governed and supported by legal and regulatory framework and Guidelines e.g. Act 936, Fee Fixing Guidelines;
- Willingness of the Citizens to pay the rates imposed and even adjusted rates provided it is tied to service delivery;
- Gazetted Bye-laws and Fee Fixing Resolution to enforce compliance;
- Support of the Courts to prosecute defaulters;
- Improvements in revenue mobilisation tied to rewards as in the case of DPAT;
- Stakeholder engagement on fixing of levies;
- Availability of Human Resource to support revenue collection.

Weakness in Revenue Mobilisation.

The Assembly has identified the following as a weakness and a major impediment to revenue mobilisation in the district.

- Non availability or inadequate database on ratable items.
- Nonadherence to guidelines for managing outsourcing arrangements to private companies and individuals;
- Use of manual systems for recording revenue receipts.
- Cash payments, limited supervision and performance criteria as well as monitoring of revenue collectors.
- Unskilled and ill equiped revenue collectors.
- Capacity issues despite high potentials.
- Limited use of technology in the compilation of data;

- Lack of appropriate revenue management system for bill distribution, collection, monitoring and enforcement;
- Limited-involvement of citizens prior to fixing fees; and
- Reluctance of rate payers to honour obligations due to poor service delivery.

Opportunities

- Automation and digitisation of processes
- Enough Human Resource and Capacity Development

Threats

- No evidence of service delivery;
- Poor economic Infrastructure
- Inadequate consultation on FFR
- Lack of accountability to the rate payers;
- Non-involvement of Traditional Leaders
- Risks

Strategies to Improved IGF

The Assembly has put together a revenue mobilization team and a number of strategies to boost revenue mobilisation in the District. Some of these major strategies are;

- Intensify public education on the need to make good on Citizens' civic responsibility of paying levies at Sene FM and Information centers;
- Adoption and strengthening the use of technology to promote efficiency and effectiveness and reduce human interface i.e. E-billing, E-reminders and Epayments to be deploy in 2025;

- Service delivery should be clearly linked to the revenue sources required to finance them;
- Set aside funds to support community mobilisation and initiatives;
- Broaden the revenue base while ensuring the existing payers pay on time;
- Help establish credible database on economic activities;
- Strengthen and delegate the collection of selected revenue items to the Sub-Structures.
- Approval and gazetting of Bye-laws and Fee Fixing Resolution for 2025;
- Incentives to Improve Revenue Collection. Award best revenue collector in each area council.
- Provide adequate logistics and incentives for revenue collectors;
- Sensitization campaigns to update the citizenry of their civic responsibilities;
- Community/Ratepayer stakeholder consultation prior to fixing of fee; and
- Accounting records and other financial reports should be produced, maintained and disseminated in line with existing legislations.
