Establishment of the District

The Upper Denkyira West District is one of the Twenty two administrative district in the central region of Ghana. Diaso is its district capital.

The UDWDA was established by LI 1848 of November, 2007.

The district's total land area is 579.21sq km and represents 3% of the total land area of the Central Region with population density of 121 persons per square kilometer.

Population Structure

The district's population is 91,025 comprising 52.9 percent males and 47.1 percent females with growth rate of 4.7 as per the 2021 Population and Housing Census. The Age structure depicts a relatively youthful population with population under 15 accounting for as high as 41.9 percent of the District's population which is higher than the Regional average of 39.5 percent.

Vision

The Assembly's vision is to be "A World Class Client-Focused Service delivery and Transformational Local Government Authority".

Mission

The Upper Denkyira West District Assembly exists to improve the quality of life of the people without any form of discrimination by formulating and implementing programs and projects through mobilization and efficient use of financial, Human and material resources in a sustainable manner and in the spirit of good governance.

District Economy

• Agriculture

The main occupation of the people is agriculture as about 82.9 percent of the households engage in some form of Agricultural activity and employs 71.1 percent of the employable population in the district.

Road Network

The district has a total length of 177km of feeder and highway roads. There are about 47 feeder roads with a total length of 135km. There is still the need for construction of additional feeder roads to improve the internal linkages between settlements to reduce travel time and cost.

• Energy

The District can be said to be fairly served with regards to connection of communities to the National Grid. About 85% of the communities have been provided with electricity for

domestic and commercial activities. The major challenge with regards to energy is the non-extension of electricity to the newly developed sites.

• Health

Healthcare in the district is delivered at two levels, the community and sub-district levels. The district has no District Hospital but three (2) health centers and ten (10) - functional Community Based Health Planning and Services (CHPS) zones out of Sixteen (16) demarcated by the electoral areas. There are also three (3) private clinics and no maternity homes complementing health care delivery in the district

The district does not have a Government Hospital but privately owned Hospital and patients always had to be referred to secure services from the Dunkwa Hospital. This impinges on healthcare delivery since lives are even lost during referral periods due to deplorable nature of roads linking the district to the other health facilities in the adjoining District. One gratifying act in the health delivery sector is the establishment of Ambulance service with a State-of-the-Art Ambulance vehicle which has really expedite emergency and referral cases in the district since 2019.CHPS scale up in the district has been considered as the strategy capable of increasing access to basic health services in the district.

• Education

Education is very critical in the development of every economy. The quality of education coupled with accessibility and availability of logistics, infrastructure and all other resources play crucial role in harnessing the potentials of the human resource which is a tool in fostering economic growth and development. This section seeks to bring to the fore the state of education in the district as at the plan preparation period and juxtapose it against the expected situation which is a prerequisite to ensuring quality education.

There 153 basic schools in the district comprising 53 KG, 53 Primary Schools and 47 Junior High Schools in both public and private sectors. The district has Two (2) Second cycle institutions that is, the Diaso Senior High School and the Ayanfuri Senior High School which was converted from a community managed institution to a public school in

6

2017. There is no tertiary institution of any sort in the district and has to rely on the adjoining District for such services.

• Market Centres

The weekly market at Diaso in the district is a major marketing center where several commodities are traded. The 2023 composite budget has provided for the construction and completion of markets to expand access to marketing centers.

• Water and Sanitation

The Upper Denkyira West District has water coverage of 85%. Boreholes dominate the available water facilities representing 42.3%

• Tourism

There is one major tourist attraction site in the District at New Obuasi. This site has large stones and rocks with huge volumes of water flowing through them and has the potential to be a major tourist attraction site if developed. The Assembly has also provided in its 2023 composite budget to organize a home coming anniversary and a district trade and cultural fair to boost tourism.

• Environment

Mining is a predominant economic activity in the district. Due to illegal mining activities, several hectares of land have been degraded. The Assembly seeks to address this by reclaiming and planting trees on ten (10) hectares of degraded land as captured in the 2023 District Composite Budget.

Key Issues/Challenges

The Assembly in its quest to develop the district is faced with issues as outlined below:

- a. Bad roads leading to post harvest losses.
- b. Inadequate and poor educational Infrastructure.
- c. Inadequate health infrastructure.
- d. Inadequate and poor market infrastructure.
