PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

Establishment of the District

The Korle Klottey Municipal Assembly (KoKMA) was created from the erstwhile Accra Metropolitan Assembly (AMA) in February 2019 with the Legislative Instrument (LI) 2365. The Municipal Assembly is made up of 16 members.

- 9 Elected
- 5 Appointed
- 1 Member of Parliament
- 1 Municipal Chief Executive

Population Structure

The total population of Korle Klottey is 68,633 (GSS PHC 2021) with females constituting 51.7 per cent whiles males form 48 per cent. This figure is projected to 72,731 in 2023, 75,042 in 2024 and 77,201 in 2025 with a Greater Accra growth rate of 2.9 per cent. The age distribution of the population shows that the highest number of people falls within the 20-24 age groups. This is followed by the 25-29 age group. These are more than expected and could be attributed to the influx of migrants into Municipality. The lowest age groups, 90-94 and 95+ represented 0.1 per cent each. KoKMA's population has a youthful structure, with a slightly broad base consisting of numerous children and bloated mid-base with high number of youth and a small number of elderly persons. Adolescent and young adults (15-29 years old) now constitute 31.8 percent of the population, a clear indication of the high rate of migration into the Municipality. This is very close to the regional adolescent and young adult proportion (32.2 percent) of the total regional population. A situation described in the Regional Census Report as "Young Bulge", where 20 percent or more of the population is aged between 15-24 years. The rapid growth of the adolescent and youth populations exerts increased pressure to expand education, health services and employment opportunities. Furthermore, 44.4 percent of the population is aged between 25 and 59 years. This is higher than the regional population aged between 25 and 59 years (42.3 percent). The provision of jobs for the increasing adult population therefore becomes a critical issue. The age dependency ratio for **KoKMA** is 50.1 percent while the regional figure is 53.4.

The household structure for the KoKMA shows that nuclear households (head, spouse(s) and children) constituted 26.7 percent while 14.3 percent were nuclear extended households (head, spouse, children and head's relatives). Head only, i.e. single person households constituted only 6.1 percent of the total number of households in the Municipality. Information on fertility is key in analysing growth of the Municipality. From the 2021 population report the Total Fertility Rate is 2.2 which is lower than regional average of 2.6. The Municipality recorded 2,067 deaths out of the total population of 68,633 (PHC 2021) in the Municipality. It is observed that people born outside the Greater Accra Region but residents in the Municipality were mostly from the Eastern Region, constituting 27.4 percent. This is due to the warm hospitality of the indigenes and extensive economic activities in the area attract people from different regions to migrate into the Municipality. Although the presence of these migrants increases the economic activities in the Municipality, it also puts lots of pressure on the basic socio-economic infrastructure of the Municipality.

Vision

A world class city with modern infrastructure, quality social services, resilient environment and an investor friendly destination for all.

Mission

To improve the livelihood of both citizens and visitors in the Municipality through sustainable provision of socio-economic developments and establish good governance through participation among all stakeholders.

Goals

- ✓ Integrity
- ✓ Professionalism
- ✓ Excellence in service delivery
- ✓ Democratic participation and Good Governance
- ✓ Transparency and Accountability
- ✓ Provision of Socio-economic Infrastructure

Core Functions

The core functions of Korle Klottey Municipal Assembly are outlined below:

- Exercise Political and Administrative Authority within the Municipality, promoting local development and providing guidance, giving direction to and supervising other administrative authorities within the Municipality as may be prescribed by law.
- ✓ Exercise deliberative, legislative and executive functions.
- ✓ Formulate and execute plans programmes and strategies for the effective mobilization of the resources necessary for the overall development of the Municipality.
- Promote and support productive activity and social development in the Municipality.
- ✓ Remove obstacles to promote initiatives and development.
- Promote and maintain security and public safety in the Municipality in collaboration with national and local security agencies.

Municipal Economy

According to the (GSS PHC 2021), there are over 48,689 economically active people in the Municipality. Most of them are into wholesale and retail businesses with a negligible representation of the agricultural sector due to reduced arable land.

KoKMA is perhaps one of the richest Municipal Assemblies in Ghana. This is because it is endowed with several economic opportunities and attractive investment-driven functions which have turned it into a prime business zone.

The Municipality has also been largely dominated by the "Informal Economy" due to rapid urbanization, massive unemployment and poor land use planning. Currently, the indigenous areas of the Municipal enclave are dominated by makeshift structures such as smaller kiosks, containers, sheds, canopies, mats, tables and chairs in open spaces and sometimes at junctions, smaller food vendor joints etc. Businesses spring up daily on pavements, streets and road reservations. Most of these service-oriented occupations range from dressmaking and other artisan related jobs and employ about

60 percent of the working population. The majority are into retail and less into manufacturing

• Natural Environment

KoKMA is one of the 29 MMDAs in the Greater Accra Region of Ghana. It is situated in the Southeastern and diagonally located between Latitudes 5°32"50'N and longitudes 0°11"15'W and latitudes 5°38"0'N and longitude 0°7"50' W.

KOKMA lies in the dry equatorial climate zone. It experiences two types of rainfall, starting from May. The main monthly temperature ranges from 24.7°C in August to 33°C in March with annual average of 26. 8°C.There few occasions where the municipality experiences showers and thunderstorms in November and December. Rain usually falls in intensive short storms and gives rise to flooding where drainage channels are obstructed. The vegetation of Municipality has been altered in the more recent past century by climatic and other human factors. A climatic change combined with the gradient of the plains and cultivation has imposed vegetation like those of the Southern Shale, Sudan and Guinea Savannahs all of which lies in the North of the Accra plains. The Terrestrial Vegetation of the Municipality consists of dense clusters of small trees and shrubs, which grow, to an average height of six metres. The grass is a mixture of species found in the undergrowth of the forest. In addition to the natural vegetation zones, a few trees and shrubs thrive in the Municipal area. Neem, Mangoes, Acacia, Avocados, Coconuts and palm are prominent trees on the Accra landscape.

• Agriculture

The Agriculture in Korle Klottey is made up of livestock and fisheries. It is basically of subsistence with a small-holder production unit, with no linkage to industry and services. The farmers engaged in fishing and aquaculture which is a major component of agriculture. It provides direct and indirect livelihoods. It also supports food security in protein intake.

Currently, the Municipality has no data on commodities being cultivated. The Agriculture Department is yet to build up data on the yields. This will enable the Assembly to support and redirect farmers on the government flagship programme on Agriculture. The focus on the MTDP under agriculture is to encourage potential farmers to use alternative farming practices such as snail and crass cutter farming and the use of the hydro-ponies system of vegetable farming.

• Market Centre

KoKMA has six main traditional markets which include Adabraka market, Osu market, Tema Station- Abuja Market, Odawna Market and pedestrians shopping mall. CMB-Abuja and Adabraka is the major market centre in the municipality with Odawna, Osu and Tema station playing complementary roles.CMB-Abuja is a fast-growing market which provides services to traders in and around the area. Odawna however has the potential of rivalling CMB and Adabraka in terms of provision of these services. The CMB market functions daily with Tuesdays and Saturdays as major market days for Adabraka market. Items traded in these markets includes perishable and nonperishables like tomatoes, plantain, smoke fish, cassava, manufactured commodities, imported goods like cloth, utensils. Other goods are cereals, livestock and second-hand clothing. The strategic location of these markets coupled with good accessibility has facilitated their growth leading to congestion and spill-off onto nearby roads. However, all the market facilities are informal.

Road Network

In general, the road network in the Municipality can be described as good. The total length of paved and unpaved roads in the Municipality is 176 kilometers. The paved which comprises Asphalt and surface treatment is 165 kilometers. This notwithstanding, there are specific areas that need urgent attention to reduce travel time. The length of road which requires maintenance is 30km.

The Assembly oversees regulating the use and conduct of public vehicles and regulating routes and parking places to be used by commercial vehicles. It further creates appropriate routes, roads, streets and parking places for specified classes of

8

traffic and when necessary, as provided in the identification of licensed vehicles as defined in the Road Traffic Act.

The Ghana Private Road Transport Union of Trade Union Congress (GPRTU of TUC) and Progressive Co-operative Transport Unions (PCTU) are public regulators who have teamed up with the MMDAs to implement the Bus Rapid Transit System. This approach has called for the unionization of all public transport service providers to effectively regulate transport services in the Municipality. The record of operators of public transport needs proper update in line with the respective routes of operation in the Assembly. Most of the operators have not been registered and their activities are not harmonized to ensure efficient delivery service. In view of these challenges, KoKMA in collaboration with its sister assemblies will work hard to create database of operators to address the issues and improve efficiency in the implementation of Urban Passenger Transport Project (UPTP).

• Energy

The Energy sector is vital for the social and economic development in the Municipality and the nation. The main source of energy in the Municipality is electricity. The entire population has access to electricity. A small proportion of the Municipality uses private generators during normal power outages and the rest of the households use other alternatives like flashlights, candles, solar etc. In terms of cooking, gas is the main source of energy in the Municipality. The major issue has been the reliability of energy due to the recent challenge in the installed capacity. The Municipality will continue to educate the public to conserve energy and adapt to alternative sources of energy such as solar, biogas and efficient cooking stoves.

Health

Improvement in access to quality healthcare and nutrition is another area of focus by the Municipality under this Medium-Term Plan. According to the information from the Municipal Health Directorate (MHD), the health facilities within the Municipality consist of five sub-districts and 29 demarcated CHPS zones with 20 functional zones. They are:

9

Adabraka (6 CHPS), North Ridge (2) Osu (7 CHPS), Tema station (2 CHPS) and Tudu (3 CHPS).

The problem with health care delivery is the maintenance of existing health facilities but generally, all inhabitants fall within a high access zone. Other concerns include increase in Maternal Death and Still Birth, EPI coverages, Nutrition and Child Health Promotion, Report Completeness and Timeliness, Malaria Case Management.

• Education

According to the Municipal Education Directorate, the Municipality has been divided into three circuits for effective supervision and improved teaching and learning. These are Osu Doku, Adjabeng, and Adabraka. In KoKMA, the educational subsector has performed creditably well over the years to increase educational infrastructure. The contribution of the private sector provision of facilities particularly KG and primary levels. Together, they have significantly enhanced access to education at all levels. However, the overall picture indicates inadequate facilities, as some of the structures need rehabilitation and others require continuation by the Assembly.

Source: Municipal Education Service, 2019

Despite the challenge of the facilities, information from the Municipal Education office shows that enrolment of students increases at all levels. During the year 2018/2019

academic year, the gross enrolment ratio (GER) which measures enrolment of pupils at a given level of education, irrespective of the age of the pupils was estimated at 14,711. At the public KG level, the enrolment was 51.5 per cent and 48.4 per cent for boys and girls respectively. Those at the primary level were 49.4 per cent for boys and 50.5 per cent for girls. At the JHS, while male was 46.4 per cent, female was 53.5 per cent. At the SHS level, males were 61.6 per cent and females, 38.8 per cent. More females dropped out than males.

The percentage distribution at the private school sector is almost the same as that at the public-school level. The Municipality has no vocational school. The Municipality has a teacher population of 760 in the public basic schools. There were 49 teachers in the KG, 152 in the primary school and 399 in the JHS. The SHS has 160 teachers.

The pupil furniture status is 87 percent at the KG level, at the primary level it is 27.5 percent and 23 percent at the JHS level. The toilet situation in the schools is very deplorable, in general, over 55 percent of schools at all levels of the basic school do not have toilets in the Municipality. Teacher accommodation is woefully inadequate in the Municipality.

All the teachers in the public sector at various levels in the Municipality are trained teachers. The Pupil Teacher Ratio (PTR) for KG is 18:1, that of primary is 24:1 while that of the JHS is 16:1. At the SHS level, Student Teacher Ratio is 11:1.

The pupils to furniture status is 90 percent at the KG level, at the primary level is 91 per cent and JHS is 98.9 per cent. Though the toilet facilities at the basic schools are not at their best, the GAMA water and Sanitation program is constructing and renovating some facilities in some selected schools to augment the existing ones.

• Water and Sanitation

Sanitation is a challenge in the Municipality. A higher percentage of households (44.4%) use public toilets, about 43 per cent use water closets while 4.5 per cent use KVIP. Four per cent of the households have no facility and therefore use the beaches as places of convenience. The number of households without toilet facilities has been estimated at 1,846. The Residence must take advantage of the GAMA Sanitation project to register

and benefit from household toilets promotion. Solid waste management remains inadequate in many places in the Municipality with the proportion of solid waste properly disposed. Some settlements have a common area for refuse collection, particularly the slum areas. Waste collection is managed privately at an average cost of GHC 30.00 monthly depending on the volume of the garbage and the bargaining power of the household. Private Borla Taxi are also used to collect refuse daily to fill the serve gap by Jakora private waste collectors and Assembly.

The challenge facing sanitation services include acquisition of land for waste treatment/disposal or transfer station, low level of material re-use and recycling, low investment in the sanitation sector, poor solid waste collection service poorly managed waste disposal sites, high user fees for sanitation services among others.

Figure 1.1 Method of Solid Waste Disposal in KoKMA

• Tourism

Tourism development is constantly viewed as a significant opportunity to create jobs and generate income. The growth of hospitality industries with other tourism related activities are the key areas of promoting tourism in the Municipality. The Municipality is naturally endowed with some opportunities for tourism which have been harnessed to create employment and generate income. Christiansburg Castle at Osu, Osu night market and Oxford Street lively nightlife.

The Municipality is endowed with key water resources such as the Klottey Lagoon and the Atlantic Ocean. It has a total coastline stretch of about 7-kilometers from the Klottey Lagoon. This unique endowment has guaranteed an aggressive development of tourism along the coast. Numerous hospitality industries have sprung up along the beach and there are increased numbers of beach related activities for domestic and international tourists. The Municipality hosts one of the prominent 5 stars and 4 stars hotels in Ghana. The Alisa Hotel, Coconut Groove Hotel, Movenpic Hotel and Kempinski Hotels, Accra City Hotel, Papaye Restaurant, Tiptop Restaurant, Frankies are among the unique hospitality industries in the Greater Accra Metropolitan Area.

The Municipality can boast of sandy beaches along the coast which people used during special occasions such as Easter Holidays, Christmas, Homowo Festival Celebrations, Independence Day Anniversary and Republic Day celebrations, most of these beaches are filled with a massive crowd. The Municipality is also endowed with the rich festival (Homowo) which attracts foreign investors.

The major issues which affect the tourism sector in the Municipality are low standard of tourism and creative arts infrastructure, high hotel rates, and low skill development in customer relations. The focus is to reduce challenges affecting the sector by developing the beaches through the Public Private Partnership and educate the public on cleanliness of the beaches. Management is therefore working assiduously to improve the tourism sector of the Municipal economy to increase its contribution to the assembly's internally generated revenue.

PART B: BUDGET PROGRAMME/SUB-PROGRAMME SUMMARY

PROGRAMME 1: MANAGEMENT AND ADMINISTRATION

1. Budget Programme Objectives

- To provide support services, effective and efficient general administration and organization of the Municipal Assembly.
- To ensure sound financial management of the Assembly's resources.
- To coordinate the development planning and budgeting functions of the Assembly.

2. Budget Programme Description

The program seeks to perform the core functions of ensuring good governance and balanced development of the Municipality through the formulation and implementation of policies, planning, coordination, monitoring and evaluation in local governance.

The Program is being implemented and delivered through the offices of the Central Administration and Finance Departments. The various units in Central Administration involved in the delivery of the program include General Administration Unit, Budget Unit, Planning Unit, Procurement Unit, Human Resource, Internal Audit and Records Unit.

A total staff strength of sixty-three (63) is involved in the delivery of the programme. They include Administrators, Budget Analysts, Accountants, Planning Officers, Revenue Officers, and other support staff (i.e. Executive officers, and drivers). The Program is being funded through the Assembly's Composite Budget with Internally Generated Fund (IGF) and Government of Ghana transfer such as the District Assemblies' Common Fund and District Development Facility.

SUB-PROGRAMME 1.1 General Administration

1. Budget Sub-Programme Objective

- To provide administrative support and ensure effective coordination of the activities of the various departments and quasi-institutions under the Municipal Assembly.
- To ensure the effective functioning of all the sub-structures to deepen the decentralization process.

2. Budget Sub-Programme Description

The General Administration sub-programme looks at the provision of administrative support and effective coordination of the activities of the various departments through the Office of the Municipal Co-ordinating Director. The sub-programme is responsible for all activities and programmes relating to general services, internal controls, procurement/stores, transport, public relations and security.

The core function of the General Administration unit is to facilitate the Assembly's activities with the various departments, quasi-institution, and traditional authorities and mandated to carry out regular maintenance of the Assembly's properties. In addition, the Municipal Security Committee (MUSEC) is mandated to initiate and implement programmes and strategies to improve public security in the Municipal.

The Internal Audit Unit is authorized to spearhead the implementation of internal audit control procedures and processes to manage audit risks, detection, and prevention of misstatement of facts that could lead to fraud, waste and abuse to the Assembly.

Under the sub-programme the procurement processes of Goods and Services and Assets for the Assembly and the duty of ensuring inventory and stores management is being led by the Procurement/Stores Unit.

The number of staff delivering the sub-programme is twelve (12) with funding from GoG transfers (DACF, DDF etc.) and the Assembly's Internally Generated Fund (IGF). Beneficiaries of this sub-program are the departments, Regional Coordinating Council,

quasi-institutions, traditional authorities, non-governmental organizations, civil society organizations and the public.

The main challenges this sub-programme will encounter are inadequate, delay and untimely release of funds, inadequate office space, and non-decentralization of some key departments.

SUB-PROGRAMME 1.2 Finance and Audit

1. Budget Sub-Programme Objective

- To insure sound financial management of the Assembly's resources.
- To ensure timely disbursement of funds and submission of financial reports.
- To ensure the mobilization of all available revenues for effective service delivery.

2. Budget Sub-Programme Description

This sub-programme provides effective and efficient management of financial resources and timely reporting of the Assembly finances as contained in the Public Financial Management Act, 2016 (Act 921) and Financial Administration Regulation, 2004. It also ensures that financial transactions and controls are consistent with prevailing financial and accounting policies, rules, regulations, and best practices.

The sub-program operations and major services delivered include undertaking revenue mobilization activities of the Assembly; keep, render and publish statements on Public Accounts; keep receipts and custody of all public and trust monies payable into the Assembly's Fund; and facilitates the disbursement of legitimate and authorized funds.

The sub-programme is manned by thirty (30) officers comprising of Accountants, Revenue Officers and Commission collectors with funding from GoG transfers and Internally Generated Fund (IGF).

The beneficiaries of this sub- program are the departments, allied institutions and the public. This sub-programme in delivering its objectives is confronted by inadequate office space for accounts officers, inadequate data on ratable items and inadequate logistics for revenue mobilization and public sensitization.

SUB-PROGRAMME 1.3 Human Resource Management

1. Budget Sub-Programme Objective

- To achieve institutional performance goals that are linked to the individual and team performance objectives, as the basis for measuring performance results and merit.
- To provide Human Resource Planning and Development of the Assembly.
- To develop capacity of staff to deliver quality services.

2. Budget Sub-Programme Description

The Human Resource Management seeks to improve the departments, division and unit's decision making and build capacity of the manpower which will ultimately improve the workforce and organizational effectiveness. In carrying out this sub-programme it is expected that productivity would be enhanced at the Assembly as well as decision making in the management of Human Resource.

Major services and operations delivered by the sub-program include human resource auditing, performance management, service delivery improvement, upgrading and promotion of staff. It also includes Human Resource Management Information System which ensures frequent update of staff records through electronic means, guaranteeing efficient and good salary administration, facilitation of recruitment and selection as well as postings of competent staff to fill available vacancies at the Municipality.

Under this, five (5) staff will carry out the implementation of the sub-programme with main funding from GoG transfer and Internally Generated Fund. The work of the human resource management is challenged with inadequate staffing levels, inadequate office space and logistics. The sub-programme would be beneficial to staff of the Departments of the Assembly, Local Government Service Secretariat and the public.

- To facilitate the organization of public disaster education campaign programmes to create and sustain awareness of hazards of disaster and emphasize the role of the individual in the prevention of disaster.
- To assist and facilitate education and training of volunteers to fight fires including bush fires or take measures to manage the aftereffects of natural disasters.
- Prepare and review disaster prevention and management plans to prevent or control disasters arising from floods, bush fires, and human settlement fire, earthquakes, and other natural disasters.
- To participate in post disaster assessment to determine the extent of damage and needs of the disaster area.
- Co-ordinate the receiving, management, and supervision of the distribution of relief items in the Municipality.
- Facilitate collection, collation and preservation of data on disasters in the Municipality.

The sub-programme is undertaken by officers from the NADMO section with funding from the GoG transfers and the Assembly's support from the Internally Generated Fund. The sub-programme goes for the benefit of the entire citizenry within the Municipality.

Some challenges facing the sub-programme include inadequate office space, untimely releases of funds and inadequate logistics for public education and sensitization.

SUB-PROGRAMME 5.2 Natural Resources Conservation and Management

1. Budget Sub-Programme Objective

- To ensure that ecosystem services are protected and maintained for future human generations.
- To implement existing laws and regulations and programmes on natural resources utilisation and environmental protection.
- Increase environmental protection through re-afforestation

2. Budget Sub- Programme Description

The Natural Resource Conservation and Management refers to the management of natural resources such as land, water, soil, plants and animals, with a particular focus on how management affects the quality of life for both present and future generations.

Natural Resource Conservation and Management seek to protect, rehabilitate and sustainably manage the land, forest and wildlife resources through collaborative management and increased incomes of rural communities who own these resources.

The sub-programme brings together land use planning, water management, biodiversity conservation, and the future sustainability of industries like agriculture, mining, tourism, fisheries and forestry. It also recognises that people and their livelihoods rely on the health and productivity of our landscapes, and their actions as steward of the land plays a critical role in maintaining this health and productivity. The sub-programme is spearheaded by Forestry Section and Game Life Section under the Forestry Commission.

The funding for the sub-programme is from Central Government transfers. The subprogramme would be beneficial to the entire residents in the Municipal. Some challenges facing the sub-programme include inadequate office space, untimely releases of funds and inadequate logistics for public education and sensitization.
