PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

Establishment of the District

The Legislative Instrument (L.I1386) that established the Sefwi Wiawso District was enacted on 23rd November, 1988 under PNDC Law 207 and replaced by Local Government Act 493, 1993. It was elevated to a Municipal status in March, 2012 under Legislative Instrument, (L. I) 2015.

The Sefwi Wiawso Municipal Assembly is one of the nine (9) MMDAs in the Western North Region, Ghana. The Sefwi Wiawso Municipality is located in the North Eastern part of the Western North Region and has Sefwi Wiawso as its capital town which also doubles as the regional capital of Western North Region. The Municipality lies between latitudes 6° N and 6 ° 30 ° N and Longitudes 2° 45° W and 2° 15° W and has a total land size of 1,280 sq. Km. It is bounded to the west by Juaboso, Bodi and Sefwi Akontombra, to the east by Bibiani- Anhwiaso- Bekwai, to the south-east by Wassa Amenfi West and to the north by Asunafo South in the Ahafo region

Population Structure

The population of Sefwi Wiawso Municipality is 151,220 with male population of 50.2 percent (75,905) and female population of 49.8 percent (75,315). This gives a sex ratio (101 males per 100 females) as against the region's ratio (101 males to 100 females). The projected population for 2025 is estimated to be 154,893 with male population of 50.2 percent (77,449) and female population of 49.8 percent (77,144), With a population growth rate of 0.8% from the 2021 PHC and all factors affecting population changes held constant. It has a population density of 118.1 person per sq.km. The high pressure on existing socio-economic infrastructure and the constant demand for the expansion and provision of basic infrastructure coupled with regional capital status is critical fallout of this population phenomenon

Vision

Coordinate, integrate and harmonize the execution of programmes and projects under approved development plans for the municipality, any and other development programmes promoted or carried out by Ministries, departments, public corporations and any other statutory bodies and non-governmental organizations in the municipality.

District Economy

The district economy is made up of Agriculture (74%), Service (10.6%), Whole sale & Retail (9.5%), Manufacturing (3.4%) and Others (2.5%)

• Agriculture

The Sefwi Wiawso Municipality is a predominantly rural economy, with agriculture and its ancillary activities being the main live stay of the people. Agriculture employs about 74% of the active population. The annual levels of agricultural production and profitability therefore determine household income levels. Thus, it is significant to note a remarkable improvement in household income and expenditure during the food and cash crops harvest seasons, especially during the cocoa buying seasons of September to February. There is therefore the need to support cocoa farmers with alternative livelihood.

Cocoa is the widely cultivated crop with significant number of farmers involved on its cultivation. The land area which remains uncultivated is the inland valleys (Swampy areas) which have been found to be very suitable for rice production.

Rice production is on the increase with farmers actively involved in its production throughout the Municipality. The Municipality is endowed with vast inland valleys, when developed could contribute immensely towards food security in the Municipality and the Nation as a whole.

The agricultural produce which is processed to some appreciable extent continues to be cassava, oil palm, coconut and sugar-cane. Whilst cassava is processed into flour dough and Gari, palm oil/palm kernel oil is extracted from the palm nuts, coconut oil extracted from coconut, and sugar- cane processed into a local gin (akpeteshie). However, in all of the above cases, technologies employed are low, resulting in low conversion rates. This has negative implications for the incomes of the farmers, processors and the local economy.

Road Network

The Municipality is strategically located with accessibility to road as its main mode of transportation. The Municipal has a total length of 93.5km of highways,131.2km trunk roads,217km feeder roads and 40km urban roads. There are trunk roads linking the Municipality to its adjourning District complemented by numerous feeder roads ensuring easy movement from one community to the other. The roads are important links for the settlements, market centers and farms.

However, the deplorable state of roads in the Municipality hampers movement of people and carriage of foodstuffs from the hinterlands to economic activity canters. Nonetheless, efforts are underway in collaboration with the appropriate agencies to fix the bad roads

• Energy

The municipality currently have 83% of communities been covered by electricity. Urban constitute 94% and rural 72%. The district project to achieve 90% coverage by the end of the planned period.

• Health

Even though the health sector is under the direct management of the DHMT, other stakeholders from the public, private, Christian Health Association of Ghana

(CHAG), NGOs and the mining companies have over the years contributed in diverse ways to the improvement of the health of the populace by providing outpatient, in-patient and outreach services to the people in the municipality. Looking at the health facilities with respect to the population of the municipality it is recommended that additional health facilities are built to improve access to health care delivery.

• Education

The Educational Directorate of the Sefwi Wiawso Municipality which is divided into a number of Educational Circuits, runs 247 public and 194 private schools for an efficient and effective management of educational institutions of the Municipality.

• Market Centres

There are functioning market centers in the municipality of which three of them are major and the remaining are minor. The major market centers are located at Sefwi Dwanise, Asawinso and Boako. The Assembly has started the construction of a modern market complex at Sefwi Dwinase as well as Boako market respectively to improve domestic revenue mobilization by at least 10.5% within the Budget period. However, the Assembly needs more resources to improve Asawinso market.

• Water and Sanitation

Currently, the district population with access to sustainable safe drinking water sources stood at 94%. The high demand for water supply in the Municipality calls for drastic measures to increase the coverage in the plan period. The Assembly project to increase municipal-wide access by 2%, urban by 0.5% and rural by 1.5% respectively. On Sanitation, the proportion of population with access to improved basic sanitation services as at August is 56% and the projection for 2024 Municipality -wide is 74 %.

• Tourism

The Municipality abounds in tourism potentials, which, if harnessed, could serve as the second employment source after agriculture. With the status of Sefwi Wiawso as the Western North regional capital, it is very imperative to develop these tourist sites to boost the local economy to create jobs. The potential tourist sites found within the municipality that are not developed include; The Tree of God (Nyame Dua), Okomfo Anokye Akoma, Abombirem Sacred Tortoise Forest and Ancestral Hole of Bosomoiso

Tree of God (Nyame Dua): The Tree of God is located at Nyamebekyere, a distance of about 5km from Wiawso. It is told that about 150 years ago, a farmer stuck a machete into the stump of a tree. The tree re-started to grow and has continued to grow ever since. Today, the machete is completely surrounded by the trunk of the tree.

Okomfo Anokye Akoma: This is sacred grove located in Amafie, a distance of 3km or 25 minutes' walk from Wiawso the Municipal capital. The legendary fetish priest, Okomfo Anokye of the Golden Stool fame of the Asante Kingdom, was believed to have practiced his trade here. He was reported to have danced and made acrobatic displays on a rope tied between two distant trees, like the legendary Niagara Dare devil of Niagara Falls.

Abombirem Sacred Tortoise Forest: It is a sacred forest preserve in which a giant tortoise lives. When one sees the tortoise and picks it, there turn to be total darkness in the forest. Until such a time that the tortoise is left for light to re-appear, one will not be able to find a way out of the forest. It is located at Sefwi Boako, a 21 km distance from Sefwi Wiawso.

The Ancestral Hole of Bosomoiso: The Royal family of Bosomoiso, a community of 4 km away from Wiawso, is believed to have originated from this hole. It is believed to be bottomless hole. It is surrounded by trees but no leaf falls into it. The hole is alleged to have healing powers.

• Environment

The geology of the municipality is predominantly the Upper Birimian and Hornblende rock types. These are volcanic rocks, which have been solidified from molten materials (lava). The occasional granite intrusions give the municipality its undulating nature and form part of the long hill range. These are often steep and strongly dissected. There are gold deposits at Kokokrom, Paboase and Akoti areas.

The natural vegetation cover has given way to secondary forest over most of the Municipality because of exploitation of timber and bad farming practices. Consequently, Deforestation caused by indiscriminate felling of trees and encroachment by illegal farmers on the forest reserves has become a major environmental concern. In addition, bad farming practices, including slash and burn, have resulted in soil degradation. Also, the heavy rainfall experienced in the municipality cause erosion of the soils, especially on the hilly areas and slopes leading to serious leaching in most of the farmlands.

Another major environmental problem is the disposal of solid and liquid waste in river bodies near major settlements such as the Tano River, Bolowa and Kusin streams near Dwinase, a suburb of Wiawso. Aqua lives in these river bodies are threatened and their numbers have declined over the years.

Key Issues/Challenges

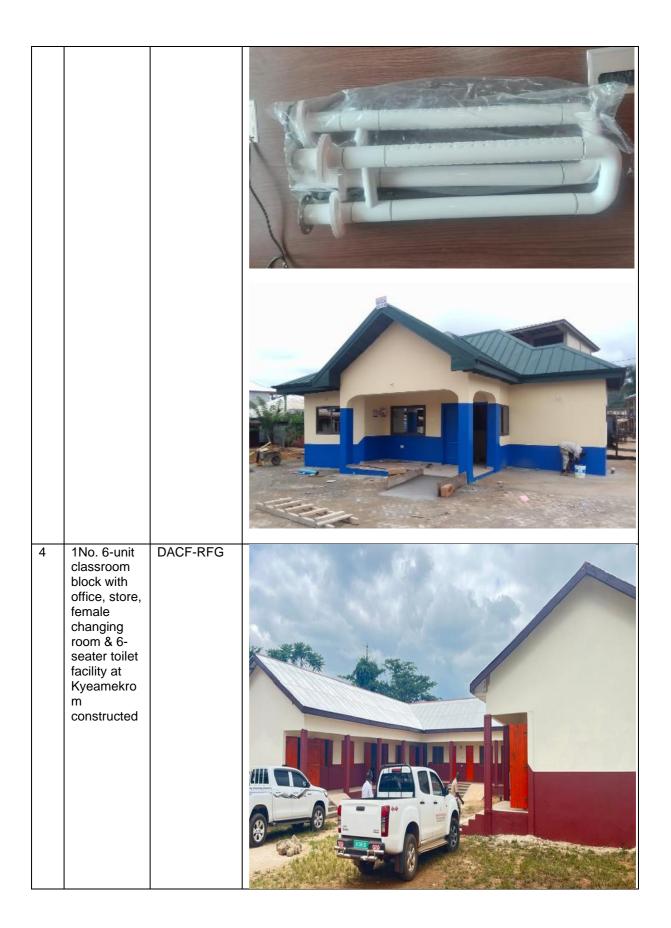

The following are the key issues and it's including;

- i. Poor road conditions and drainage system
- ii. Inadequate market infrastructure
- iii. Inadequate educational infrastructure
- iv. Inadequate health care infrastructure
- v. Inadequate approved waste disposal sites

- vi. High unemployment rate among the youth
- vii. High incidence of deforestation

Revenue Mobilization Strategies

Revenues are prerequisite for the implementation of the MMMDA's plans and programmes. The operations and functions of the assembly largely depend on the availability and quantum of revenue. While it may receive some revenue from central government, development partners and other sources, it is also important that MMDAs are able raise money internally. It is therefore imperative that all resources due to an assembly are efficiently collected, recorded, controlled and accounted for. Below are the agreed 2025 Revenue Mobilization strategies in the Sefwi Wiawso Municipality;

Firstly, organize a regular sensitization program on radio, local information centers and Consultative town hall meetings on the Assembly Approved 2025 fee-fixing and also explain to the citizenry about the need to pay tax.

It is noticed that, one of the good procedures for mobilizing revenue should always start with the sensitization of taxpayers and other stakeholders on the need to pay taxes, fees and charges in order to contribute to local development. Assembly staff and assembly members need to go out and sensitize the communities, especially as to how taxes affect the poor and development in the municipality, generally.

Communities should be made aware that the assembly cannot provide services to the communities without money. The assembly must demonstrate a linkage between taxes and services.

Establishment of additional Revenue Pay Points /Offices and Mobile Money in the municipality is a considerable factor that will enhance revenue mobilization. Most of the ratepayers are from the remote communities therefore is very imperative for management to decentralized the Revenue Pay Points for easily payment and

collection. The introduction of mobile money by the Assembly enables eligible rate payers have easily means of payment of their property rate and other fees to the Assembly (Mobile Number:0538808715, Mobile Name: Sefwi Wiawso Municipal Assembly).

Again, Procurement of Uniform and ID Cards for Revenue Collector and Revenue Improvement Team Members (RITM) increases revenue generation. Field studies have shown that putting staff in uniform alone can increase revenue by 20% Collectors in uniform are more respected by payers. They receive less payer-confrontation and find it more difficult to carryout malpractices since the public easily identify them. Also, keeping an updated valuation list at all times which includes all properties within the Municipality is very important. Since Revenue Data is a corner stone of revenue administration therefore is always good to update the revenue data for the realistic planning and budgeting.

Another strategy is to organize Capacity Building Training for Revenue Collectors. This is intended to improve and update the knowledge, attitude and mobilization skills of resource mobilizers in other to improve their effectiveness and efficiency in resource mobilization process. E.g. Skills in modern ways of revenue collection.

Lastly, Publishing names of tax defaulters in local newspapers, vantage point/ notice board and radio; This action would deter defaulters and result in more revenue collection.

PART B: BUDGET PROGRAMME/SUB-PROGRAMME SUMMARY

PROGRAMME 1: MANAGEMENT AND ADMINISTRATION

Budget Programme Objectives

- To provide support services, effective and efficient general administration, human resource management and organization of the Municipal Assembly.
- To improve resource mobilization and financial management of the Assembly.
- To coordinate the development planning and budgeting functions of the Assembly.

Budget Programme Description

The program seeks to perform the core functions of ensuring good governance and balanced development of the Municipality through the formulation and implementation of policies, planning, coordination, monitoring and evaluation in the area of local governance.

The Program is being implemented and delivered through the offices of the Central Administration, Finance, Statistics and Human Resource Departments. The various units involved in the delivery of the program include; General Administration Unit, Budget Unit, Planning Unit, Accounts Office, Procurement Unit, Internal Audit and Records Unit.

Total staff strength of Ninety-Six (96) is involved in the delivery of the programme. SUB-PROGRAMME 4.2 Agricultural Services and Management

Budget Sub-Programme Objective

- To assist in the formulation and implementation of agricultural policy for the Municipal Assembly within the framework of national policies.
- To provide extension services in the areas of natural resources management, and rural infrastructural and small-scale irrigation in the Municipality.

Budget Sub- Programme Description

The department of Agriculture is responsible for delivering the Agricultural Service and Management sub-programme. It seeks to provide effective extension and other support services to farmers, processors and traders for improved livelihood in the Municipality. Moreover, the sub-programme deals with identifying and disseminating improved up-todate technological packages to assist farmers engage in good agricultural practices. Basically, it seeks to transfer improved agricultural technologies through the use of effective and efficient agricultural extension delivery methods.

The sub-program operations include;

- Promoting extension services to farmers.
- Assisting and participating in on-farm adaptive research.
- Lead the collection of data for analysis on cost effective farming enterprises.
- Advising and encouraging crop development through nursery propagation.
- Assisting in the development, rehabilitation and maintenance of small-scale irrigation schemes.

The sub-programme is undertaken by fifteen (15) officers with funding from the GoG transfers, Donors and Assembly's support from the Internally Generated Fund. It aims at benefiting the general public especially the rural farmers and dwellers. Key challenges include inadequate staffing levels, inadequate office space, untimely releases of funds and inadequate logistics for public education and sensitization.

PROGRAMME 5: ENVIRONMENTAL MANAGEMENT

Budget Programme Objectives

- To ensure that ecosystem services are protected and maintained for future human generations.
- To improve education, human and institutional capacity on climate change resilient and mitigation
- To manage disasters by coordinating resources and developing the capacity of communities to respond effectively to disasters and improve their livelihood through social mobilization, employment generation and poverty reduction projects.

Budget Programme Description

The Environmental Management offers research and opinions on use and conservation of natural resources, protection of habitats and control of hazards. It also seeks to promote sustainable forest, wildlife and mineral resource management and utilization.

Disaster Prevention and Management programme is also responsible for the management of disasters as well as other emergencies in the Municipality. It seeks to enhance the capacity of society to prevent and manage disasters and to improve the livelihood of the poor and vulnerable in the rural communities through effective disaster management, social mobilization and employment generation.

Staffs from NADMO and Forestry and Game Life Section of the Forestry Commission in the Municipality are undertaking the programme with funding from Donors, GoG transfers and Internally Generated Funds of the Assembly. The beneficiaries of the program include urban and rural dwellers in the Municipality.

SUB-PROGRAMME 5.1 Disaster Prevention and Management

Budget Sub-Programme Objective

To manage disasters by co-ordinating resources and developing the capacity of communities to respond effectively to disasters and improve their livelihood through social mobilization, employment generation and poverty reduction projects.

Budget Sub- Programme Description

The National Disaster Management Organization (NADMO) section under the Assembly is responsible for delivering the sub-programme. It seeks to assist in planning and implementation of programmes to prevent and/or mitigate disaster in the Municipality within the framework of national policies.

The sub-program operations include;

- To facilitate the organization of public disaster education campaign programmes to create and sustain awareness of hazards of disaster and emphasize the role of the individual in the prevention of disaster.
- To assist and facilitate education and training of volunteers to fight fires including bush fires or take measures to manage the after effects of natural disasters.
- Prepare and review disaster prevention and management plans to prevent or control disasters arising from floods, bush fires, and human settlement fire, earthquakes and other natural disasters.
- Co-ordinate the receiving, management and supervision of the distribution of relief items in the Municipality.
- Facilitate collection, collation and preservation of data on disasters in the Municipality.

The sub-programme is undertaken by officers from the NADMO section with funding from the GoG transfers and Assembly's support from the Internally Generated Fund. The subprogramme goes to the benefit of the entire citizenry within the Municipality. Some challenges facing the sub-programme include inadequate office space, untimely releases of funds and inadequate logistics for public education and sensitization.

SUB-PROGRAMME 5.2 Natural Resources Conservation and Management Budget Sub-Programme Objective

To implement existing laws and regulations and programmes on natural resources utilization and environmental protection.

Increase environmental protection through re-afforestation.

Budget Sub- Programme Description

The Natural Resource Conservation and Management refers to the management of natural resources such as land, water, soil, plants and animals, with a particular focus on how management affects the quality of life for both present and future generations. Natural Resource Conservation and Management seek to protect, rehabilitate and sustainably manage the land, forest and wildlife resources through collaborative management and increased incomes of rural communities who own these resources.

The sub-programme brings together land use planning, water management, biodiversity conservation, and the future sustainability of industries like agriculture, mining, tourism, fisheries and forestry. It also recognises that people and their livelihoods rely on the health and productivity of our landscapes, and their actions as steward of the land plays a critical role in maintaining this health and productivity. The sub-programme is spearheaded by Forestry Section and Game Life Section under the Forestry Commission.

The funding for the sub-programme is from Development Partners and Central Government transfers. The sub-programme would be beneficial to the entire residents in the Municipality. Some challenges facing the sub-programme include inadequate office space, untimely releases of funds and inadequate logistics for public education and sensitization.
