GOVERNMENT'S ISSUANCE CALENDAR FOR APRIL TO JUNE 2024

Government publishes herewith the Issuance Calendar for the period April to June 2024 as part of strives to improve transparency in the issuance of Government Securities.

2. The Calendar is developed based on the 2024 domestic maturities for the period and the Net Domestic Financing (NDF) from the 2024 Budget Statement and Economic Policy. It describes the securities that are intended to be issued in respect of Government's Public Sector Borrowing Requirement for the period April to June 2024.

3. As the Government focuses on the second phase of the restructuring which is the External Debt Restructuring (EDR), Government's financing from the domestic market will be the issuance of only treasury bills in line with the IMF program. In this regard, Government plans to issue a gross amount of **GH¢63,158.60 million** for the period, April to June, 2024 of which **GH¢43,451.42 million** is to rollover short term maturities and the remaining **GH¢19,707.17 million** is fresh issuance to meet Government's financing requirements.

4. Please note that the stated gross borrowing amount is indicative to guide the market and may be revised when transaction adverts are published. Government may update the issuance calendar on a rolling monthly basis, to reflect a fill quarter financing programme.

5. Accordingly, Government aims to meet its financing needs through the issuance of Treasury bills as detailed:

- i. 91-day, 182-day and 364-day bills will be issued weekly; and
 - ii. This will be done through the primary auction with settlement being the transaction date plus one working day.
6. Government expects that this April to June 2024 Calendar meets the requirements of market participants.
7. Government assures all stakeholders and the public, that it will continue to endeavour for greater predictability and transparency in the domestic capital market.

-End-
