6. SUMMARY OF KEY ACHIEVEMENTS IN 2017 BY PROGRAMME

The mandate of the Ministry is to establish an educational system intended to produce well balanced individuals with the requisite knowledge, skills, values aptitudes and attitudes to become functional and productive citizens for the total development and the democratic advancement of the nation.

In pursuit of this mandate, the Ministry is implementing key policy initiatives and reforms (from 2017–2020) aimed at improving the efficiency of the Administration and Management as well as the Legal, Institutional and Regulatory framework for Education Service Delivery.

As part of the process, Basic Education and Teacher training are being reformed in key areas of Curriculum, Teacher and Pupil Standards, and Assessments. Teaching and professional development being improved through Registration and Licensing has also been prioritized.

The reform will re-orient our educational system from the current grammar-based education, to skills training, anchored by the transformation of Technical and Vocational Education and Training and the promotion of Science, Technology, Engineering and mathematics (STEM).

With free access to secondary education in place, renewal of infrastructure at the basic level, and expansion at the tertiary level, together with provision of requisite equipment, logistics and TLMS, have been prioritized to cater for the expected increase in access.

These measures, are expected to lead to improvements in learning outcomes and the standard of education in Ghana, and propel Ghana towards achieving inclusive and equitable access to quality education for all its citizens and create opportunities for lifelong learning.

MANAGEMENT AND ADMINISTRATION PROGRAMME

Efficient management and administration is critical for the successful provision of equitable access to quality education. Government has initiated far reaching reforms and measures to improve management of education service delivery, and increase equitable access to quality education.

Basic Education Curriculum Reforms

To improve quality of basic education and equip the Ghanaian child with basic literacy, numeracy and critical thinking skills by the time they exit primary education, the Ministry of Education commenced the process for the review of the basic level curriculum to emphasize on the **4 R's (Reading, writing, arithmetic and Recreation to include life skills and creative arts)**.

Teacher Professional Development

In accordance with the Education Act 778, government is implementing measures to improve the professional standing and status of teachers, register and license teachers through the Pre-Tertiary Teacher Professional Development and Management (PTPDM) which is geared towards professionalization of teaching through Continuous Professional Development (CPD).

The National Teaching Council (NTC) engaged various stakeholders including the teacher unions, colleges of education, principals, directors of education, GES management, Universities and development partners on the implementation of the Pre-Tertiary Teacher Professional Development and Management policy (PTPDM).

In line with the implementation of the PTPDM policy, a National Teacher Standard, KG Teacher's INSET Framework and an Inclusive Education INSET Manual were developed.

In addition, the National Teaching Council has so far issued 15,500 registered numbers to Newly Qualified Teachers who graduated from Teacher Training Institutions. These teachers comprise 14,200 teachers from Colleges of Education and 1,300 teachers from Education Universities.

School Management and Accountability

In line with Government's goal of strengthening accountability in schools for quality learning outcomes, the National Inspectorate Board (NIB) visited one thousand seven hundred and ninety- nine (1,799) basic schools in 63 districts across the country.

The NIB is also reviewing the Quality Indicators for School Inspection and the Guidelines for Inspectors to make them meet international standards.

Pre-Tertiary Education Bill

As part of the Ministry's legislative agenda to ensure an effective and efficient Regulatory System for the Pre-Tertiary Education Level, approval has been given by Cabinet for the Pre-Tertiary Education Bill.

This Bill proposes the establishment of a lean but robust Ghana Education Service Headquarters/Council and the three Regulatory bodies of: the National Teaching Council for the registration and licensing and the Professional Development of Teachers; the National Inspectorate Council for setting up of Standards, improvement and enforcement of the Standards and the National Curriculum, Assessment and Reporting Council for the review of curriculum and assessment issues of the Pre-Tertiary Education Level.

The National Service Scheme

The National Service Scheme continues to build a strong and vibrant scheme to provide opportunities for young people to participate in national development, and inculcate the consciousness of civic duty and the spirit of patriotism.

In this regard, the number of service personnel deployed by the National Service Scheme for the 2017/18 service year increased from 78,939 in 2016/17 to 103,343 in 2017/18. This shows a huge increase of 31% over the previous service year.

The Scheme has acquired and cultivated new farm lands covering a total of 240 hectares in Yagaba in the Northern Region for the cultivation of Maize and a total of 1,200 hectares in Gomoa Lome in the Central Region under its Agricultural module.

BASIC EDUCATION PROGRAMME

The provision of equitable access to quality, child-friendly universal basic education with emphasis on Teacher Professional Development and accountability, Social Intervention Programmes, Provision of Teaching and Learning Materials and Infrastructural Development has been the focus of government over the years.

The number of KGs increased from 22,052 to 23,239, Primary from 22,289 to 23,489 and Junior High Schools from 14,767 to 15,804 representing 5.4 percent, 5.4 percent and 7.0 percent, respectively between 2015/2016 and 2016/2017 academic years. During the period, total enrolment at the basic level increased from 7,736,145 to 7,778,842 representing 0.55 percent.

Capitation Grant

In fulfilment of government's promise to make basic education truly free and ensure participation by all, the Capitation Grant was increased by 100% from GH¢4.50 per capita to GH¢9.00

Government introduced Base Grant in the disbursement of Capitation Grants to ensure equity for all schools. Funds have been released for disbursement equally to 14,432 KGs, 14,923 Primary and 10,382 Junior High schools for the first term of the 2017/18 academic year as base grant.

BECE Subsidy

As has been the practice, government absorbed 70% of the 2017 BECE registration fees as subsidies for all registered candidates in both public and private JHSs.

Complementary Basic Education (CBE)

The implementation of the Complementary Basic Education (CBE) Programme is in its fourth cycle. The programme is operational in 43 districts in the three Northern Regions, Brong Ahafo and Ashanti Regions.

The programme has provided access to 182,652 out of school children over the last four-years (2013/14-2016/17) with 49.4% female participation. The programme to date has recorded a cumulative completion rate of 67% of which 92% have transitioned to formal school system.

Teaching and Learning Materials

To further enhance the provision of quality education at the basic level, a total of 350,000 Class Attendance Registers, 230,000 Teacher's Note Books, 2,400,000 boxes of White Chalk and 2,556,507 Dictionaries were distributed to public basic schools across the country.

Construction/Rehabilitation of School Structures

Government has commenced work on the rehabilitation and reconstruction of 76 dilapidated school structures across the country. In addition, the construction of 80 kindergarten blocks for primary schools without KGs has started.

SECONDARY EDUCATION PROGRAMME

Free Senior High School Programme

Implementation of the Free SHS Programme commenced in September, 2017 with first year students in public Senior High Schools and Technical/Vocational Institutions. Every Ghanaian child who was placed into a public second cycle institution by the Computerized School Selection and Placement System (CSSPS) during the 2017 school placement is eligible to enjoy the Free SHS.

As at 6th December, 2017, the total number of beneficiaries stood at 359,023 first year students in public senior high / Technical schools. This is made up of 117,926 Day students and 241,097 Boarding students.

As part of the implementation of the programme, boarding students are being given 3 square meals whilst day students enjoy 1 hot meal each day.

In addition, government has supplied the full complement of core textbooks, supplementary readers and core English Literature books to all first year students.

Government has also released subsidy for Senior High School continuing students (second and third year students).

Secondary Education Improvement Programme (SEIP)

The Ministry continued with implementation of the Secondary Education Improvement Programme (SEIP) to expand equitable access and improve the quality of education in low performing schools.

An 86% overall progress has been achieved on the construction of the 23 new Senior High Schools. In addition, 46 out of the 50 facilities being upgraded under the SEIP has also been completed and handed over.

A total of 1,000 Science & Mathematics teachers were trained in modern methods of delivery and ICT-based instruction for SHS 1 and 2 core-subjects were also rolled out in 70 targeted schools.

The project has provided scholarships to a total of 10,027 students in the beneficiary schools

The Ministry secured an additional financing from the World Bank to expand the scope of the programme to upgrade facilities in additional 107 low performing senior high schools across the country.

TECHNICAL/VOCATIONAL EDUCATION AND TRAINING

The strategic goal of Technical and Vocational Education and Training is to make Ghana a world-class centre for skills development, a leading country in TVET delivery in Africa.

A TVET strategic policy document leading to TVET Bill and the creation of a TVET Service has been developed.

In 2017, the Council for Technical and Vocational Education and Training (COTVET) developed occupational standards for 6 generic courses namely English, Maths, Gen. Science, Entrepreneurship, Interpersonal Studies, ICT for National Certificate I & II.

In addition, Competency Based Training (CBT) packages for Electronics & Mechanical Engineering Technology for National Certificate II were developed and 230 Facilitators/Assessors, Internal & External Verifiers trained in CBT Quality Assurance.

NON-FORMAL EDUCATION PROGRAMME

The National Functional Literacy Programme (NFLP) has been expanded to reduce illiteracy rate especially in the rural communities. In 2017, a total of 91,586 learners were registered in 3,982 classes.

INCLUSIVE AND SPECIAL EDUCATION PROGRAMME

In line with the implementation of the Social Intervention Programmes, funds were released for the payment of feeding grant for the 2016/17 academic year and first term of 2018/19 academic year to cover over 7000 pupils in all public special Schools.

TERTIARY EDUCATION PROGRAMME

The delivery of tertiary education in Ghana is aimed at improving equitable access, quality, relevance, management efficiency, strengthening links between tertiary education and industry and promoting science, research and Technical Education.

Government continued to initiate policies and programmes in the Polytechnics (most now Technical Universities), Colleges of Education and Universities to enhance the capacity of graduates from our tertiary institutions to advance the socio-economic transformation of the country.

Teacher Trainee Allowance

In fulfilment of its manifesto promise, government restored the Teacher Trainee Allowance covering over 49,000 teacher trainees from 41 public Colleges of Education for the 2017/18 academic year.

Upgrading of Colleges of Education

The review of curriculum and the setting of teacher standards in teacher training institutions have been completed and the document on Transforming Teacher Education and Learning (T-Tel) is currently at Cabinet.

Commission of Tertiary Education

There has been a lack of clarity in the respective mandates of the National Council for Tertiary Education and National Accreditation Board, which has led to operational overlaps and competing claims of relative pre-eminence as regulatory bodies in Tertiary Education. This has undermined the speed and quality of service delivery within the regulatory sector.

To this end, the Ministry has set up a Committee to realign the two bodies, towards the enactment of a Law to establish a unified Commission of Tertiary Education that deals with policy formulation, implementation, accreditation, etc.

University of Environment and Sustainable Development

Preparatory works for the construction works for Somanya campus and feasibility study for the Bunso Campus of University of Environment and Sustainable Development are ongoing.

BUDGET SUB-PROGRAMME SUMMARY

PROGRAMME 1: MANAGEMENT AND ADMINISTRATION

SUB-PROGRAMME 1.6: Pre-tertiary Education Management

1. Budget Sub-Programme Objective

To implement pre-tertiary educational policies of the Government through effective management of resources to make education delivery efficient and relevant to manpower needs of the nation.

2. Budget Sub-Programme Description

This sub-programme seeks to improve management of education service delivery. It also provides timely, reliable and disaggregated data and information for policy making, planning, monitoring and evaluation of basic and second cycle levels of education.

The sub-programme delivers the following key services:

- Capacity building for all cost centres
- Provision of infrastructure
- Provision of establishment supplies
- Education planning and supervision
- Enhancing District/School inspection, monitoring and accountability
- Organising National quality assessment programmes
- Performance Review meetings (SPAM, SPIP, SMC, PTA, etc)
- Personnel and Payroll monitoring and teacher deployment evaluation

Some of the key management issues include building the capacity of the various cost centres for effective planning, monitoring and evaluation

Other major challenges include reducing percentage of teacher absenteeism particularly in basic schools; reducing the staff strength through payroll monitoring and reconciliation; and deploying teachers from over-staffed schools to deprived communities.

3. Budget Programme Results Statement

The table indicates the main outputs, its indicators and projections by which the Ministry measures the performance of this programme. The past data indicates actual performance whilst the projections are the Ministry's estimate of future performance.

BUDGET PROGRAMME SUMMARY

PROGRAMME 2: BASIC EDUCATION

1. Budget Programme Objective

To provide equitable access to good-quality child-friendly Universal Basic Education, by improving opportunities for all children in the first cycle of education at kindergarten, primary and junior high school levels.

2. Budget Programme Description

The Basic Education programme is delivered by multiple Government organizations – principal amongst these are the Ministry of Education (which sets policies and monitor and evaluate their implementation) and the Ghana Education Service (which implements the policies set by the Ministry and delivers pre-tertiary education service throughout the country). These organizations are funded by the Government of Ghana through the consolidated fund and the GETFund.

The Basic Education system comprises Kindergarten, Primary and Junior High School – that is schooling for children between the ages of 4 and 15 years.

Basic Education is predominantly provided by Government operated facilities. There are 39,737 Public basic schools and 22,795 Private basic schools spread across the country.

The private schools are self-funded and registered by the Ghana Education Service. The schools use the GES curriculum.

In 2017, enrolments in both Public and Private schools increased from 7,736,145 to 7,778,842 (0.55%).

Teachers for the Basic Education Programme are mainly trained through established teacher training tertiary institutions. The Basic Education Programme has in-service training for teachers to ensure that they have up-to-date knowledge of the curriculum and related teaching and learning resources. In all, 242,179 teachers have been employed by the Government at the basic level.

Provision of basic education is mandatory and free to all Ghanaian children. This means that the school buildings, teachers and teaching materials are all provided by the Government. Usually, pupils are required to provide their own uniform; however, the programme runs a scheme to assist needy students.

The Basic Education system is based on a curriculum developed specifically for Ghana. It covers the core subjects and mainstream teaching on societal issues such as population, Life skills, gender equality, health, civic responsibility, human rights and the environment.

BUDGET PROGRAMME SUMMARY

PROGRAMME 4: NON-FORMAL EDUCATION DIVISION

1. Budget Programme Objective

The Non-Formal Education Sector provides opportunities for those outside the formal education system to have free access to meaningful high-quality user-friendly education and training.

The National Functional Literacy Programme (NFLP) rolls out three components namely: Local Language, Basic English and Occupational English (dressmaking and hair dressing) Literacy Project.

The NFLP is targeted at women and the rural poor aged between 15 to 45 years and above. Beneficiaries of the programme also include non-literate adults and youth with disabilities who are provided specialised literacy programmes.

Most of the classes are held in rural communities and in the night after learners have completed their daily chores. The NFED provides lighting and other logistics support to enable literacy.

Apart from outcomes of reading, writing and numeracy skills, development information, knowledge in the three broad areas of life (life skills/health issues, occupational skills, and civic awareness and good citizenship skills) are expected to be achieved by learners of all the three components. The NFLP is funded solely by the Government of Ghana.

2. Budget Programme Description

Component 1: Functional Literacy in Local Languages

The first component is run in 15 Ghanaian Languages through the face-to-face approach led by volunteer facilitators and a group of about 25 learners and distance learning (radio literacy education programmes) undertaken by radio listening groups. The curriculum objective is aimed at their acquisition of analytical and critical thinking skills and also their ability to read, comprehend and answer development related questions from an unseen passage.

Radio literacy education programmes are produced and broadcast by the NFED in partnership with Community Radio Stations to radio listening groups and the general public in selected target communities.

Expand literacy skills development with the collaboration of the Youth Employment Agency to provide about 1,500 youth to engage in literacy facilitation.

Component 2: Basic English Literacy Programme

An English Literacy Component is run as a follow-up but not exclusive to the Functional Literacy in Local Language Component based on demands from targets to have literacy in the English language. This skill is expected to make them more functional in a country whose official medium of communication is the English language.

Upscaling the English project with the use of ICT software for facilitators and learners on phone.

Component 3: Life Skills Development

This component gives life skills learning support for all learners including those confined to space (prisons) to be more useful through learning of life skills.

It helps reduce the incidence of going back to engage in unlawful acts by keeping them active in gainful activities. So far 25 selected prison nationwide have been targeted. Follow up interaction will give clear targets. It is also targeted at woman and the youth in this area. Initial work would be done through a study to register “kayayeis” in Ashanti and Greater Accra Regions towards the drafting of a framework for their literacy education.

Component 4: Enhancing The Cocoa-Value-Chain Process Through Literacy Provision.

This component aims at offering support to the cocoa-value-chain process by offering functional literacy to farmers, thereby empowering them to explore livelihood support. This is achieved by laying bare to cocoa farmers the use of alternative livelihood support in terms of farming other crops apart from cocoa during lean season. It also helps them to realise the need to explore the use of cocoa by-products.

Component 4: Complimentary Basic Education.

The ministry would be rolling out complimentary basic education (CBE) to NFED. This programme aims at enlisting out of school children and support them with alternative learning component that could allow them to be rolled back to the classroom (GES) at basic 3 or 4 level to continue their schooling or would be given alternative livelihood skills training. The programme cycle is 9 months for each cohort or batch.

3. Budget Programme Results Statement
